- Up to 6 meals daily with 1-50 portions (15ml each).
- Large 6L food tank capacity.
- Clog-free design with rotating impeller.
- Low food LED indication and infrared sensor to prevent overfilling.
- 10-second voice recorder for personalized meal calls.
- Dual power supply: 5V DC adapter with 3 D-cell battery backup (batteries not included).

SETUP AND ASSEMBLY

Follow these steps to set up your PETLIBRO Automatic Pet Feeder:

1. **Unpack the Feeder:** Carefully remove all components from the packaging, including the main feeder unit, food tray, and power adapter.

Customizable Feeding Schedule

Make an automatic feeding plan
by observing your pet's dietary habits

2. **Install the Food Tray:** Slide the food tray into the designated slot at the base of the feeder until it clicks securely into place.
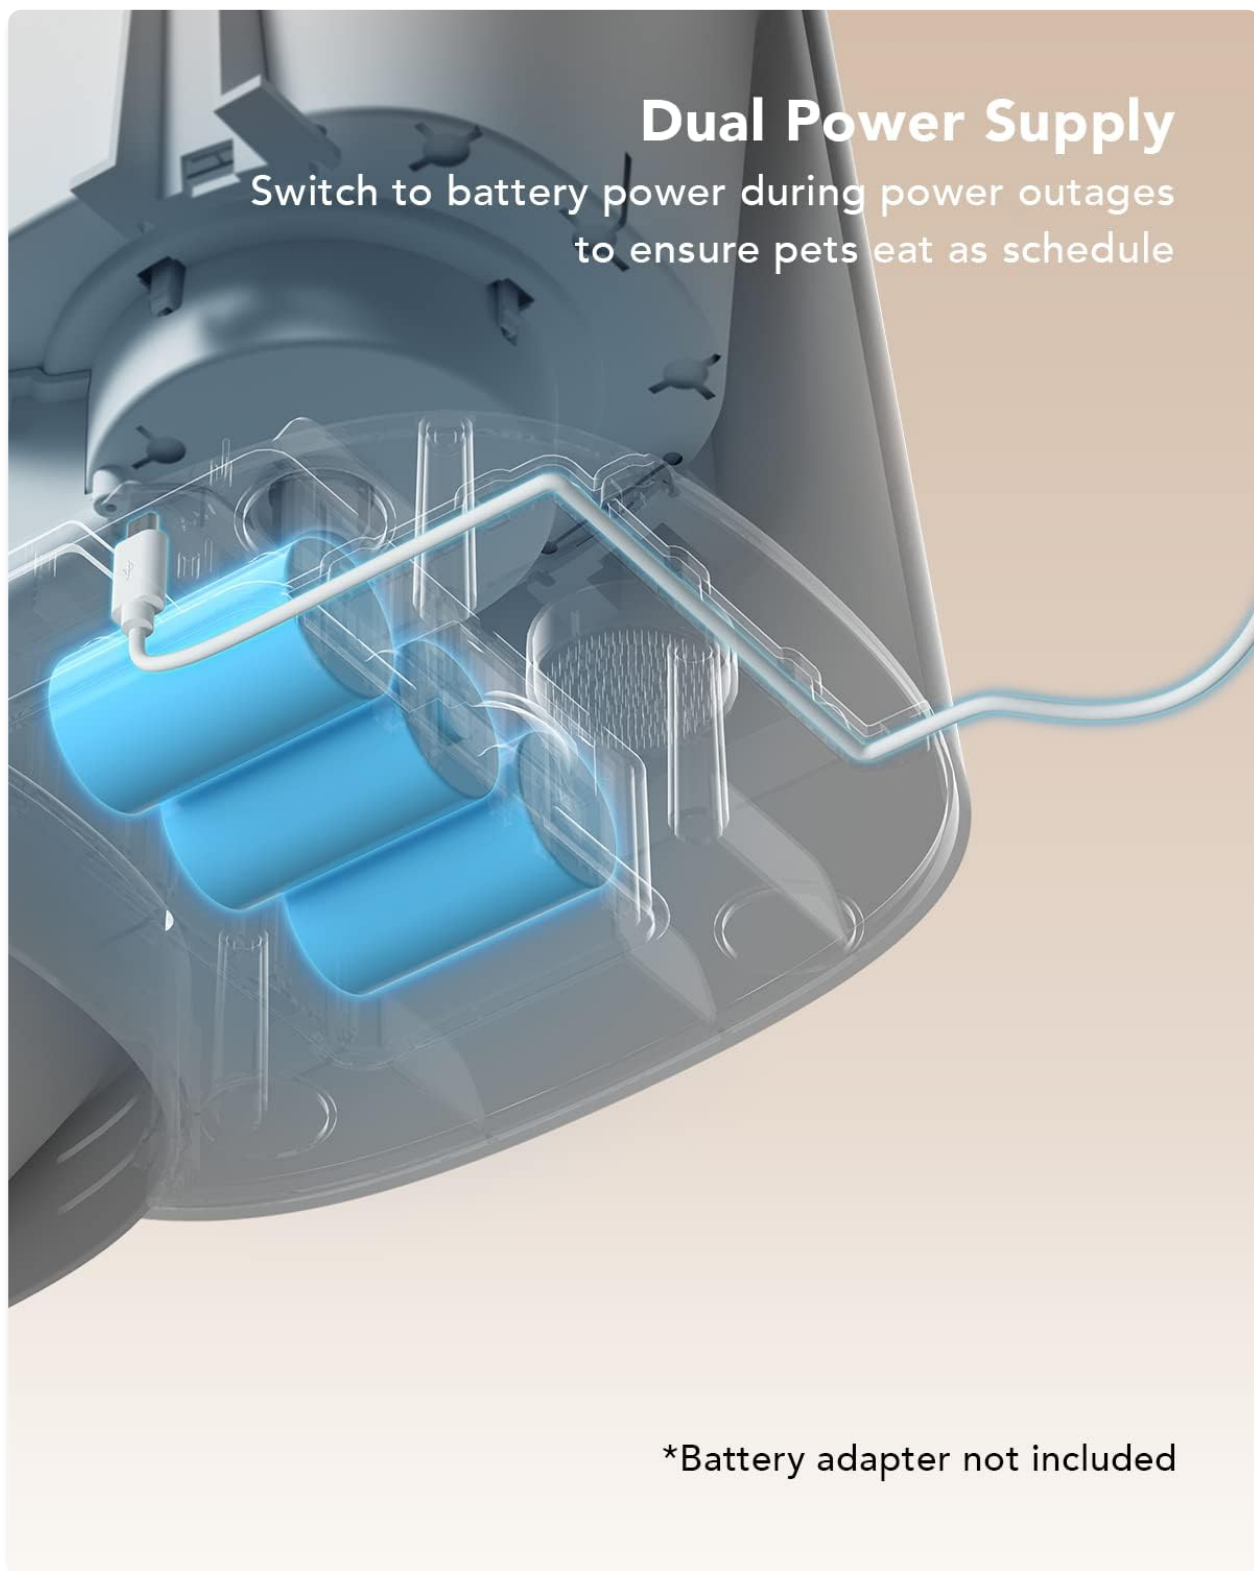

Image: A dog interacting with the feeder, showing the twist-lock lid.

3. **Power Connection:**

   - Connect the 5V DC power adapter to the feeder's power socket and plug it into a wall outlet.
   - For backup power, open the battery compartment at the bottom of the feeder and insert 3 D-cell alkaline batteries (not included). This ensures continuous feeding during power outages.

Dual Power Supply

Switch to battery power during power outages to ensure pets eat as schedule

*Battery adapter not included

Image: Internal view of the feeder showing the battery compartment and power connection.

4. **Fill the Food Tank:** Open the twist-lock lid on top of the feeder and pour dry pet food into the tank. Ensure kibble size is between 0.07-0.6 inches (2-15mm) in diameter. The 6L capacity can hold a significant amount of food. Securely close the lid to maintain freshness.

6L Large Capacity

Able to meet the 12-day feeding needs of small dogs

OPERATING INSTRUCTIONS

The LCD panel and intuitive buttons make programming your feeder straightforward.

1. Setting the Current Time

- Press and hold the **Settings** button (gear icon) for 3 seconds to unlock the panel.
- Use the **Up** and **Down** arrows to adjust the hour and minute. Press **OK** to confirm each setting.

Image: Close-up of the feeder's LCD display and control buttons.

2. Programming Meal Times and Portions

- After setting the current time, press **OK** to enter meal setting mode.
- Use the **Up** and **Down** arrows to select the meal number (up to 6 meals).
- Press **OK** to set the portion size (1-50 portions).
- Press **OK** again to set the meal time (hour and minute).
- Repeat for all desired meals. Press **OK** to save settings after each meal.

4. Manual Feeding

- To dispense a single portion manually, press the **Manual Feed** button (paw print icon) twice quickly.
- To dispense multiple portions manually, enter the setting mode (long press Settings button), then press the **Manual Feed** button to select the desired number of portions. Press **OK** to dispense.

MAINTENANCE

Regular cleaning and proper food storage are essential for the longevity and hygiene of your feeder.

- **Cleaning:** The food tank and food tray are removable for easy cleaning. Wash them with mild soap and water, then rinse thoroughly and dry completely before reassembling. Do not immerse the main unit in water.

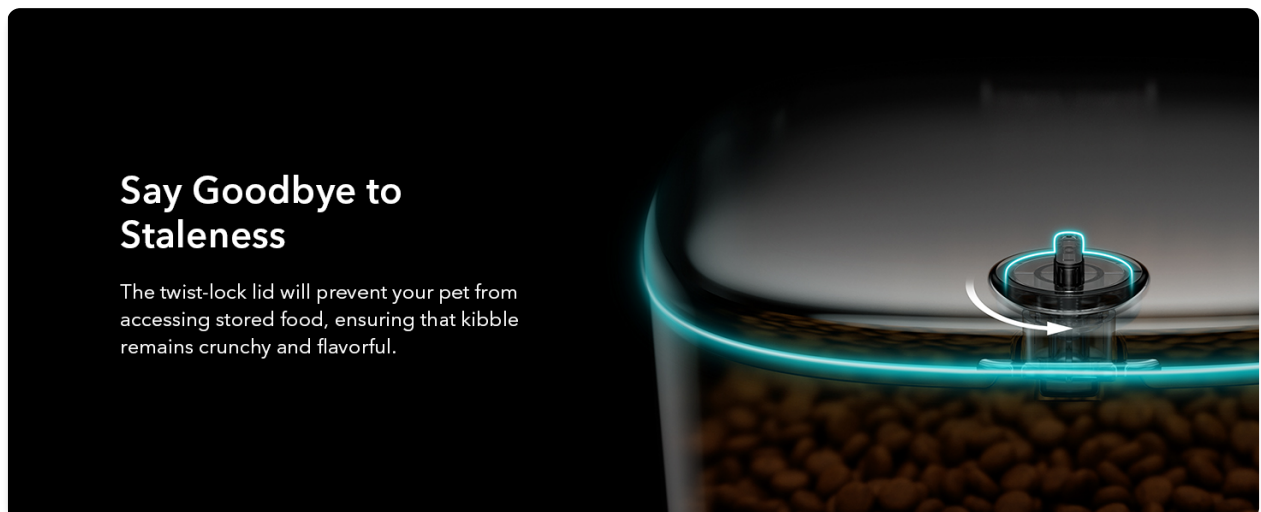

Image: Disassembled feeder components showing ease of cleaning.

- **Food Storage:** The twist-lock lid helps keep dry food fresh, crunchy, and secure from pets. Ensure the lid is always properly sealed after refilling.

Image: Close-up of the twist-lock lid, emphasizing its sealing function.

- **Kibble Size:** Use dry kibble only, with a diameter between 2-15mm (0.07-0.6 inches). This ensures optimal dispensing and prevents clogging.
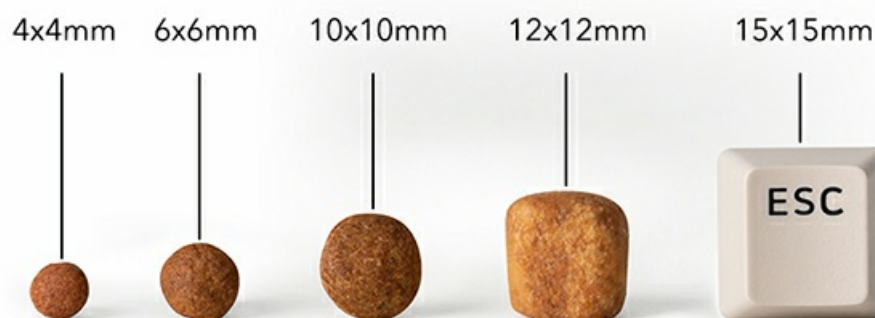

Image: Diagram illustrating recommended kibble sizes for the feeder.

TROUBLESHOOTING

Issue	Possible Cause / Solution
Feeder not dispensing food.	Check power supply: Ensure the adapter is securely plugged in or backup batteries are correctly installed and charged. Food tank empty: Refill the food tank. Kibble jammed: The anti-clog mechanism should prevent this, but if it occurs, check for blockages in the dispenser chute. Ensure kibble size is appropriate. Incorrect settings: Verify meal times and portion sizes are correctly programmed.
Low Food LED Indication (E-1) is on.	The food tank is low or empty. Replenish food in time. The built-in infrared sensor detects insufficient food.
Voice recording is unclear or not playing.	Re-record the message, ensuring you speak clearly and are close enough to the microphone. Check if the recording is saved correctly.
Feeder is not responding to button presses.	The panel might be locked. Press and hold the **Settings** button (gear icon) for 3 seconds to unlock.
