UOUDIO XKFL4

UOUDIO Stainless Steel Wind Spinner (Hummingbird) Instruction Manual

Model: XKFL4

1. INTRODUCTION

The UOUDIO Stainless Steel Wind Spinner is a decorative item designed for both indoor and outdoor use. Crafted from durable stainless steel with unique laser cutting technology, it features a vivid hummingbird design. This manual provides instructions for assembly, installation, operation, and care to ensure optimal enjoyment and longevity of your wind spinner.

Package Contents:

- 1 x 11.8"W x 11.8"H Wind Spinner (Hummingbird design)
- 1 x "S" shaped swivel hanging hook

2. SETUP AND ASSEMBLY

Your wind spinner is designed to be easily unfolded to create its 3D effect. Follow these steps carefully to avoid damage.

Step 1
Remove flat spinner out of the package and firmly hold with one hand at the top and one hand at the bottom.

Step 2
Start by holding the spinner with one hand at the top and use your other hand to twist the innermost section around the axis

Step 3
Continue to twist each section about a half an inch apart until the sections have all fanned out

Step 4
Adjust the sections until you achieve the desired effect. Don't worry if you don't get it right at first. Your spinner is very durable and can be adjusted if needed.

Image: The wind spinner in its flat, packaged state, held by two hands, illustrating the initial step of unfolding.

- Step 1:** Carefully remove the flat wind spinner from its packaging. Hold the spinner firmly with one hand at the top and the other hand at the bottom.
- Step 2:** With one hand holding the top, use your other hand to gently twist the innermost section of the spinner around its central axis.
- Step 3:** Continue to twist each section, moving outwards, until each section is fanned out by approximately half an inch.
- Step 4:** Adjust the sections as needed to achieve the desired 3D effect. The stainless steel material allows for some flexibility in shaping.

Note: Be gentle during the twisting process to prevent bending or breaking the delicate sections. The spinner is designed to be durable, but excessive force can cause damage.

3. INSTALLATION

Once assembled, your wind spinner is ready for installation. It can be hung in various locations, both indoors and outdoors.

- Attach the provided "S" shaped swivel hanging hook to the top loop of the wind spinner.
- Hang the spinner in a location where it can catch the breeze for optimal rotation and light reflection.

- **Recommended Locations:** Garden, patio, balcony, window, porch, trees, lamps.
- For indoor use or in areas with minimal wind, the spinner can be used with a power-operated motor (not included) to ensure continuous rotation.

4. OPERATION

The UOUDIO Wind Spinner is designed to rotate with the wind, creating a mesmerizing visual effect. The laser-cut stainless steel reflects light, producing vibrant colors as it spins.

- Ensure the spinner is hung freely, without obstructions that could impede its rotation.
- The swivel hook allows the spinner to rotate 360 degrees, maximizing its movement and visual

appeal.

- In sunny locations, the spinner will reflect colored light, enhancing its decorative effect.

5. MAINTENANCE AND CARE

To maintain the appearance and longevity of your UOUDIO Wind Spinner, follow these simple care instructions:

- **Cleaning:** Wipe the spinner gently with a soft, damp cloth to remove dust or dirt. Avoid abrasive cleaners or harsh chemicals.
- **Weather Resistance:** The spinner is made of durable stainless steel and is designed to withstand various weather conditions. However, bringing it indoors during extreme weather (e.g., severe storms, heavy snow) can help prolong its life.
- **Longevity:** Some users choose to apply a clear protective coat to further enhance weather resistance and maintain the finish over time. This is an optional step.
- **Storage:** If storing the spinner for an extended period, ensure it is clean and dry. Store it in a protected area to prevent accidental damage.

6. TROUBLESHOOTING

If you encounter any issues with your wind spinner, consider the following:

- **Spinner not rotating:**
 - Check if the spinner is hung in a location with sufficient wind.
 - Ensure the swivel hook is functioning correctly and not jammed.
 - Verify there are no obstructions preventing free rotation.
- **Difficulty unfolding/shaping:**
 - Apply gentle, even pressure when twisting the sections. Avoid forcing any part.
 - If a section feels stiff, try twisting it slightly in the opposite direction first to loosen it, then proceed with the intended twist.
- **Damage during assembly:**
 - If a section breaks or bends improperly, assess if it can be gently reshaped. For significant damage, contact customer support.

7. SPECIFICATIONS

Attribute	Detail
Brand	UOUDIO
Model Number	XKFL4
Material	Stainless Steel
Color	Green (Hummingbird design)
Product Dimensions	11.8"W x 11.8"H
Item Weight	14 ounces
Special Feature	Weather Resistant
Theme	Animal (Hummingbird)
Number of Items	1
