

## BLS T36-3

# BLS T36-3 36 LED Closet Light Instruction Manual

Model: T36-3 (5500K Daylight White, 3 Pack)

## INTRODUCTION

Thank you for choosing the BLS T36-3 36 LED Closet Light. This super bright, battery-powered under cabinet lighting solution is designed to enhance visibility and convenience in various indoor spaces. Featuring a motion sensor and a 1500mAh rechargeable battery, these wireless lights offer efficient and flexible illumination.

- **36 Super Bright LEDs:** Provides 180 Lumens of 5500K Daylight White light, ideal for closets, cabinets, kitchens, and more.
- **Ultra-Long Battery Run Time:** Equipped with a 1500mAh rechargeable battery, offering up to 120 days of use (based on 10 uses/day, 20 seconds/use).
- **Reliable Motion Sensor with 2 Modes:** Features ON/OFF/AUTO NIGHT/AUTO DAY & NIGHT modes. BLS Constant-Sense technology ensures the light stays on as long as motion is detected, turning off 15 seconds after inactivity.
- **Cordless Installation:** Built-in strong magnets allow for easy attachment to metal surfaces or use with provided 3M adhesive magnetic plates for non-metal surfaces.
- **Wide Application:** Suitable for various indoor locations including wardrobes, attics, basements, drawers, garages, and vanity mirrors.

## SETUP INSTRUCTIONS

1. **Charge the Lights:** Before first use, fully charge each LED light using the provided USB charging cable. The charging port is located on the side of the light. A red indicator light typically signifies charging, turning green or off when fully charged.
2. **Prepare Mounting Surface:** Ensure the desired installation surface is clean, dry, and smooth.
3. **Attach Magnetic Plates (for non-metal surfaces):**
  - Peel off the protective film from one side of the 3M adhesive on the magnetic plate.
  - Firmly press the adhesive side of the magnetic plate onto the desired installation location.
  - Repeat for all lights.

#### 4. Mount the Lights:

- If installing on a metal surface, simply attach the light directly as it has a built-in strong magnet.
- If using magnetic plates, align the magnets on the back of the LED light with the installed magnetic plates and gently attach. The lights are easily detachable for recharging.

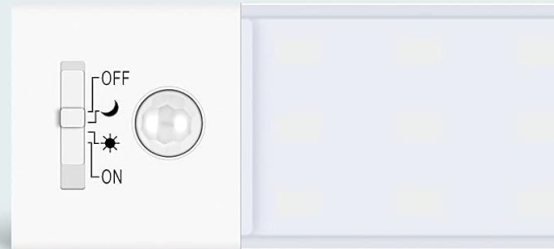

##### EASY TO OPERATE SLIDE SWITCH

**OFF:** Power OFF

**AUTO NIGHT:** Motion only in dark

**AUTO DAY:** Motion both day & night

**ON:** Always On

##### TWO MOTION SENSOR MODES

DEAL WITH DIFFERENT SCENARIOS IN YOUR DAILY LIFE

Image: Detailed diagram illustrating two installation methods: direct magnetic attachment to iron surfaces and using 3M adhesive magnetic plates for non-iron surfaces.

## OPERATING INSTRUCTIONS

---

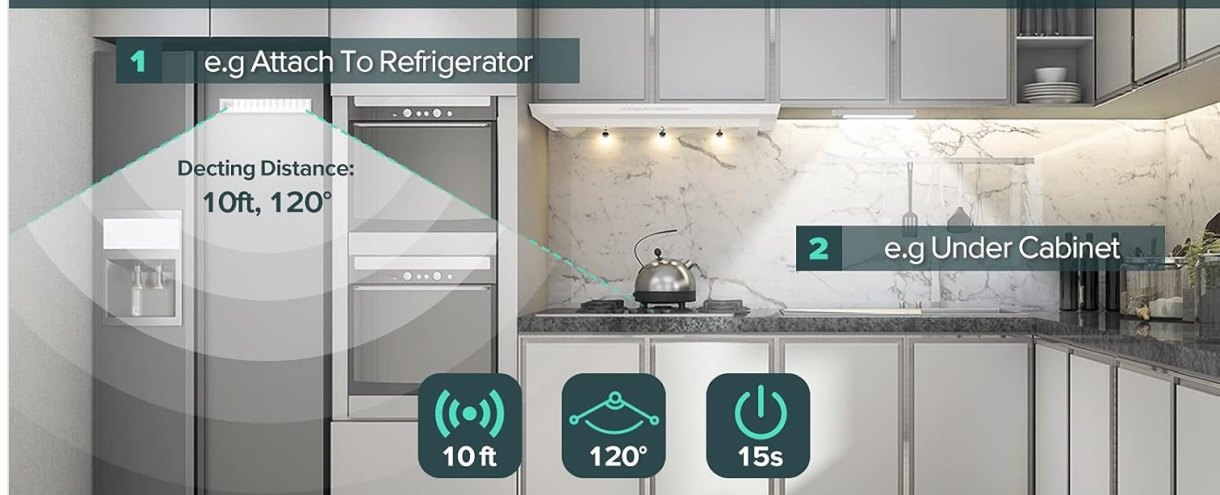

The BLS T36-3 LED Closet Light features a slide switch with multiple operating modes:

- **OFF:** Power off the light.
- **AUTO NIGHT (Moon Icon):** Motion sensor mode. The light will only turn on when it detects motion in dark or very dim conditions. Ideal for bedrooms, hallways, or basements at night.
- **AUTO DAY & NIGHT (Sun Icon):** Motion sensor mode. The light will turn on when it detects motion, regardless of ambient light conditions (day or night). Suitable for closets, cabinets, or under-cabinet lighting where light is needed at all times.
- **ON:** The light remains continuously on, regardless of motion or ambient light.

The BLS Constant-Sense technology ensures the light stays illuminated as long as motion is detected nearby, automatically turning off approximately 15 seconds after motion ceases.

## EASY TO INSTALL WITH STRONG MAGNET

Install with 3M adhesives or attach the light to any iron surface

### 1 Free attach to ironwork surface

This LED light can be attached directly on any Ironwork surface .

### 2 Use magnet plates with 3M adhesives for non-iron surface.

Step 1 : Stick the magnet plate on the surface  
Step 2 : Attach the light to the magnet plate

## MAINTENANCE

- **Charging:** When the light dims or stops responding, it indicates a low battery. Detach the light from its mounting, connect the provided USB cable to the charging port, and plug it into a USB power source. A red indicator light typically signifies charging, turning green or off when fully charged.
- **Cleaning:** Wipe the light's surface with a soft, dry cloth. Avoid using abrasive cleaners or solvents that may damage the finish or electronic components.
- **Storage:** If storing the lights for an extended period, ensure they are fully charged and stored in a cool, dry place. Recharge periodically to maintain battery health.

Video: This video highlights the 1500mAh rechargeable battery and its extended run time of up to 120 days, demonstrating the product's efficiency.

## TROUBLESHOOTING

| Problem                           | Possible Cause  | Solution   |
|-----------------------------------|---|--|
| Light does not turn on.           | Low battery.<br>Incorrect mode setting.<br>Insufficient darkness (in AUTO NIGHT mode).          | Charge the light fully.<br>Check the slide switch and ensure it's set to ON, AUTO NIGHT, or AUTO DAY & NIGHT.<br>Test in a darker environment or switch to AUTO DAY & NIGHT mode.          |
| Motion sensor not working.        | Incorrect mode setting.<br>Sensor obstructed.<br>Ambient light too bright (in AUTO NIGHT mode). | Ensure the switch is set to AUTO NIGHT or AUTO DAY & NIGHT.<br>Clear any obstructions from the sensor.<br>Test in a darker area or switch to AUTO DAY & NIGHT.                             |
| Light falls off mounting surface. | Adhesive not strong enough or surface not clean.<br>Magnetic plates not properly secured.       | Clean the surface thoroughly before applying adhesive. Use new 3M adhesive strips if necessary. Consider using screws for more permanent installation if the surface allows.               |
| Short battery life.               | Frequent activation.<br>Continuous ON mode usage.<br>Battery degradation over time.             | Optimize mode setting (e.g., use AUTO NIGHT in dark areas).<br>Avoid prolonged use in ON mode.<br>Ensure full charge cycles. If battery life remains significantly short, contact support. |

## SPECIFICATIONS

| Feature           | Detail                       |
|-------------------|------------------------------|
| Brand             | BLS                          |
| Model Name        | 36 LED Closet Lights (T36-3) |
| Color Temperature | 5500K Daylight White         |
| Number of LEDs    | 36                           |
| Brightness        | 180 Lumens                   |

| Feature                | Detail   |
|------------------------|--|
| Power Source           | 1500mAh Rechargeable Lithium Ion Battery (included)              |
| Wattage                | 3 watts  |
| Material               | Acrylonitrile Butadiene Styrene, Aluminum                        |
| Product Dimensions     | 8.9"L x 1.4"W x 0.6"H  |
| Item Weight            | 0.42 Kilograms (14.8 ounces)                                     |
| Installation Type      | Wall Mount / Under Cabinet (Magnetic with 3M adhesive)           |
| Special Feature        | 3-way switching, Motion Sensor, Instant On                       |
| Control Method         | Slide Switch   |
| Indoor/Outdoor Usage   | Indoor   |
| Water Resistance Level | Waterproof (Note: Typically means splash-proof, not submersible) |
