Luckycivia Silicone Lash Pad Instruction Manual

Model: Silicone Lash Pad Set (ASIN: B093GZ8QBZ)

Brand: DonLeaving

INTRODUCTION

This manual provides detailed instructions for the proper use and care of your Luckycivia 12 Pcs Silicone Lash Pads. Designed for both professional beauty salons and individual users, these silicone pads facilitate the creation of easy fan and blooming volume lashes, significantly saving time during eyelash extension applications. Please read this manual thoroughly before first use to ensure optimal performance and longevity of the product.

PRODUCT OVERVIEW

Image: The complete set of 12 silicone lash pads, individually packaged, with one pad demonstrating lash placement.

How to use ?

1. Get the eyelashes from the root

2. Put the eyelashes on the edge of silicone pad

3. The eyelashes appear to blossom

4. Get the eyelashes from the top

5. Eyelashes remain in blooming

6. Convenient to quickly pick up glue to grafting eyelashes

Image: Two hands stretching and bending the silicone lash pad, illustrating its flexibility and good elasticity without deformation.

Key Features:

- **Dimensions:** Approximately 30mm (1.18 inches) in diameter.
- **Material:** Made from soft, durable, and hygienic silicone.
- **Adsorption:** Features strong adsorption to securely hold false eyelashes.
- **Durability:** Designed to be soft, thick, and not easily damaged, allowing for reuse.
- **Quantity:** Each package includes 12 silicone lash pads.

SETUP AND PREPARATION

The Luckycivia Silicone Lash Pads are designed for immediate use. No complex setup is required. Simply remove a pad from its individual packaging when ready to begin your lash application process.

Before Use:

1. Ensure your hands and tools (e.g., tweezers) are clean and sanitized.
2. Select a clean, flat, and stable surface for your workspace.
3. Open one individual package and carefully remove a silicone lash pad.

OPERATING INSTRUCTIONS

The silicone lash pads are designed to assist in creating perfect lash fans for grafting and volume applications. Follow these steps for effective use:

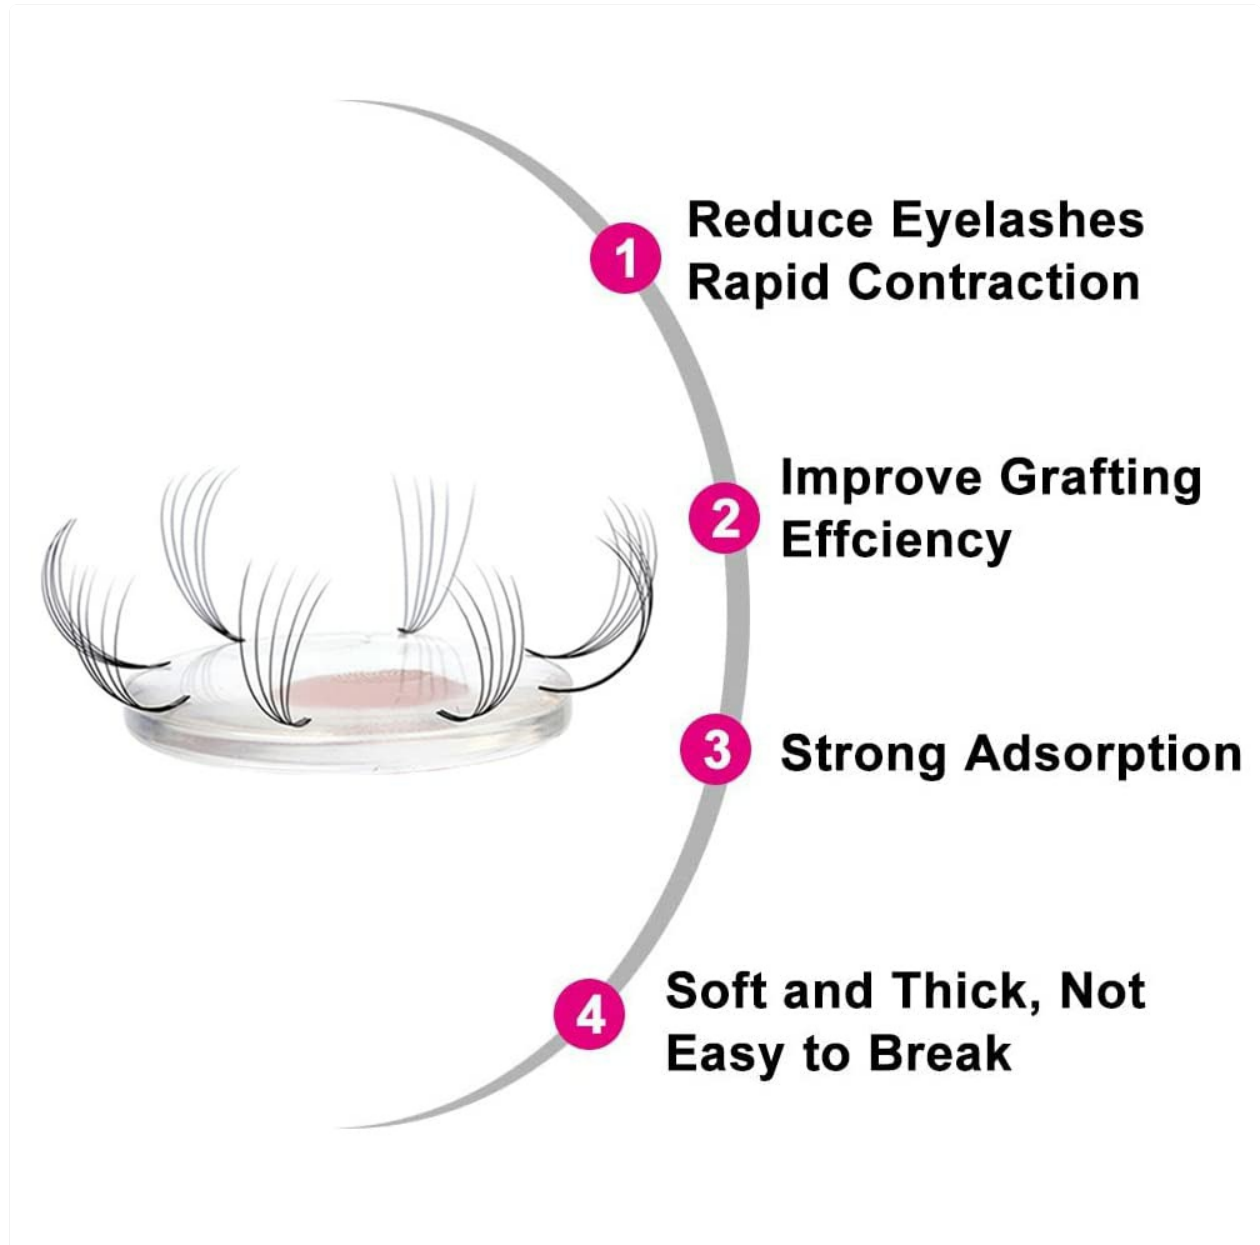

Image: A visual guide illustrating the six steps to effectively use the silicone lash pad for blooming false eyelashes.

1. Step 1: Prepare Eyelashes

Using tweezers, gently pick up the false eyelashes from their root on the lash strip.

2. Step 2: Place on Pad

Carefully place the root of the false eyelashes onto the edge of the silicone lash pad. The pad's strong adsorption will hold them in place.

3. Step 3: Bloom Lashes

As you gently manipulate the lashes on the pad, they will begin to stand up and "bloom" or fan out, forming the desired volume.

4. **Step 4: Retrieve Fanned Lashes**

Once the lashes have bloomed to your satisfaction, use your tweezers to pick up the fanned lashes from the top, ensuring the fan shape is maintained.

5. **Step 5: Maintain Bloom**

The silicone pad helps the eyelashes remain in their bloomed state, making them ready for grafting.

6. **Step 6: Apply Adhesive (Optional)**

For convenient and quick application, you can use the pad to pick up a small amount of adhesive before grafting the fanned lashes onto the natural lash.

This process effectively saves time during eyelash extension procedures, allowing for quicker and more precise application of volume lashes.

MAINTENANCE AND CARE

To ensure the longevity and hygiene of your Luckycivia Silicone Lash Pads, follow these simple maintenance guidelines:

- **Cleaning:** After each use, gently clean the silicone pad with a mild soap and water solution. Rinse thoroughly to remove any residue.
- **Drying:** Allow the pads to air dry completely before storing them.
- **Storage:** Store the clean, dry pads in a clean, dust-free environment, preferably in their original individual packaging or a dedicated storage container, to prevent them from attracting dust or debris.
- **Reusability:** These silicone pads are designed to be reusable. Proper cleaning and storage will maintain their strong adsorption and overall quality for multiple applications.

Avoid using harsh chemicals or abrasive materials for cleaning, as this may damage the silicone surface.

TROUBLESHOOTING

While the Luckycivia Silicone Lash Pads are designed for ease of use, here are some common issues and their solutions:

Problem	Possible Cause	Solution
Lashes not adhering well to the pad.	Pad surface is dirty or oily.	Clean the pad thoroughly with mild soap and water, then dry completely before use.
Lashes not blooming properly.	Incorrect placement or technique.	Ensure the lash root is placed firmly on the edge of the pad. Practice the gentle manipulation technique described in the Operating Instructions.
Pad attracting dust/lint.	Improper storage.	Store pads in their individual packaging or a sealed container when not in use. Clean before each use if necessary.

If you encounter issues not listed here, please refer to the "Support and Contact" section.

SPECIFICATIONS

Attribute	Detail
Product Name	Luckycivia Silicone Lash Pad Grafted False Easy Fan Lash Pad
Model Number (ASIN)	B093GZ8QBZ
Brand	DonLeeving
Material	Silicone
Item Form	Sheet (Circular Pad)
