Yaheetech Metal Full Size Black Bed Platform Instruction Manual

Model: B093JY58SL

INTRODUCTION

Thank you for choosing the Yaheetech Metal Full Size Black Bed Platform. This manual provides essential information for the safe assembly, operation, and maintenance of your new bed frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SAFETY INFORMATION

- Always assemble the bed frame on a soft, clean surface to prevent damage to the product or your floor.
- Ensure all parts are present and undamaged before assembly. Do not use if any parts are missing or broken.
- Tighten all bolts and screws securely. Periodically check and re-tighten fasteners to ensure stability.
- Do not allow children to climb or play on the bed frame during or after assembly.
- Distribute weight evenly across the bed frame. Do not exceed the maximum weight capacity of 600 lbs.
- Keep small parts away from children to prevent choking hazards.
- Use only the mattress size specified for this bed frame (Full Size).
- Avoid using power tools for assembly as they may overtighten and damage fasteners or components.

PACKAGE CONTENTS

Please verify that all components listed below are included in your package before starting assembly.

- Headboard and Footboard sections
- Side Rails
- Metal Slats (12 pieces)
- Support Legs
- Mattress Stoppers
- Assembly Hardware (bolts, washers, nuts, Allen wrench)

SETUP AND ASSEMBLY

Follow these steps to assemble your Yaheetech Metal Full Size Black Bed Platform. An instructional video is provided below for visual guidance.

- 1. Assemble Headboard and Footboard:** Attach the vertical support bars to the main headboard and footboard panels using the provided bolts and Allen wrench. Ensure all connections are secure.
- 2. Attach Side Rails:** Connect the side rails to the assembled headboard and footboard sections. Align the holes and insert the bolts, tightening them firmly.
- 3. Install Center Support Legs:** Attach the central support legs to the designated points on the side rails. These legs provide crucial stability for the mattress foundation.
- 4. Place Metal Slats:** Lay the metal slats across the width of the bed frame, ensuring they fit into the designated slots or hooks on the side rails. Secure any slats that require fastening.
- 5. Secure Mattress Stoppers:** Install the mattress stoppers at the head and foot of the bed frame to prevent the mattress from sliding.
- 6. Final Tightening:** Double-check all bolts and connections to ensure they are fully tightened for optimal stability and

safety.

OPERATING INSTRUCTIONS

Once assembled, your bed frame is ready for use. This platform bed does not require a box spring; your mattress can be placed directly on the metal slats.

- **Mattress Placement:** Carefully place your full-size mattress directly onto the assembled metal slats. The integrated mattress stoppers will help keep it in place.
- **Under-Bed Storage:** The design provides ample space underneath the bed for storage. Utilize storage bins or containers to organize items efficiently.

PREVENT MATTRESS FROM MOVING

MAINTENANCE

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Fastener Check:** Periodically (e.g., every 3-6 months) inspect all bolts and screws. Re-tighten any loose fasteners to maintain the bed frame's structural integrity and prevent squeaking.
- **Slat Inspection:** Ensure all metal slats remain properly seated and undamaged. Replace any bent or broken slats immediately to prevent mattress damage or injury.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bed frame is wobbly or unstable.	Loose fasteners. Uneven floor.	Check and tighten all bolts and screws. Ensure the bed is on a level surface; use shims if necessary.
Squeaking noises.	Loose connections. Metal-on-metal friction.	Re-tighten all bolts. Apply a small amount of lubricant (e.g., silicone spray) to contact points between metal parts if necessary.
Mattress slides on the frame.	Mattress stoppers not installed or ineffective.	Ensure mattress stoppers are correctly installed. Consider using a non-slip mattress pad.

SPECIFICATIONS

- **Brand:** Yaheetech
- **Model:** B093JY58SL
- **Size:** Full
- **Product Dimensions:** 78"L x 57"W x 35"H
- **Color:** Black
- **Material:** Iron, Metal
- **Form Factor:** Platform Bed
- **Item Weight:** 43.6 pounds
- **Maximum Weight Capacity:** 600 lbs (as indicated in product images)
- **Under-Bed Clearance:** Approximately 11.2 inches (as indicated in product images)
- **Slat Thickness:** 0.7mm metal slats
- **Side Rail Thickness:** 0.9mm reinforced side rails
