BOSS Audio Systems MGV520B

BOSS Audio Systems MGV520B Marine Gauge Receiver Instruction Manual

Weatherproof, 3 Inch LCD, Built-in Amplifier, Bluetooth, Digital Media MP3 Player, USB Port, AM/FM Radio

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your BOSS Audio Systems MGV520B Marine Gauge Receiver. Designed for marine environments, this unit offers robust performance and versatile media options. Please read this manual thoroughly before use to ensure proper functionality and safety.

PRODUCT OVERVIEW

The MGV520B is a weatherproof marine gauge receiver featuring a 3-inch LCD display, built-in amplifier, Bluetooth audio streaming, digital media MP3 player capabilities, USB port, and AM/FM radio. It is designed to withstand harsh marine conditions with UV coating and conformal coated PC boards, boasting an IPX6 rating for splash water protection.

OPERATING INSTRUCTIONS

Power On/Off

Press the power button to turn the unit on or off.

Source Selection

Cycle through available media sources: Bluetooth, USB, AM/FM radio, and Auxiliary input.

Audio Control

Adjust volume, skip tracks, and access preset EQ settings via the front panel controls.

Accessory Button

The dedicated accessory button allows you to turn on/off external accessories such as lightbars or LED whips. A relay (not included) is required for this functionality.

ACCESSORY BUTTON: Turn On and Off Accessories Such As Lightbars, LED Whips and More!*

***Relay Not Included**

MEDIA INTEGRATION

Bluetooth Connectivity

Wirelessly play and control music from your smartphone or MP3 player, including apps like Spotify and Pandora.

USB Playback & Charging

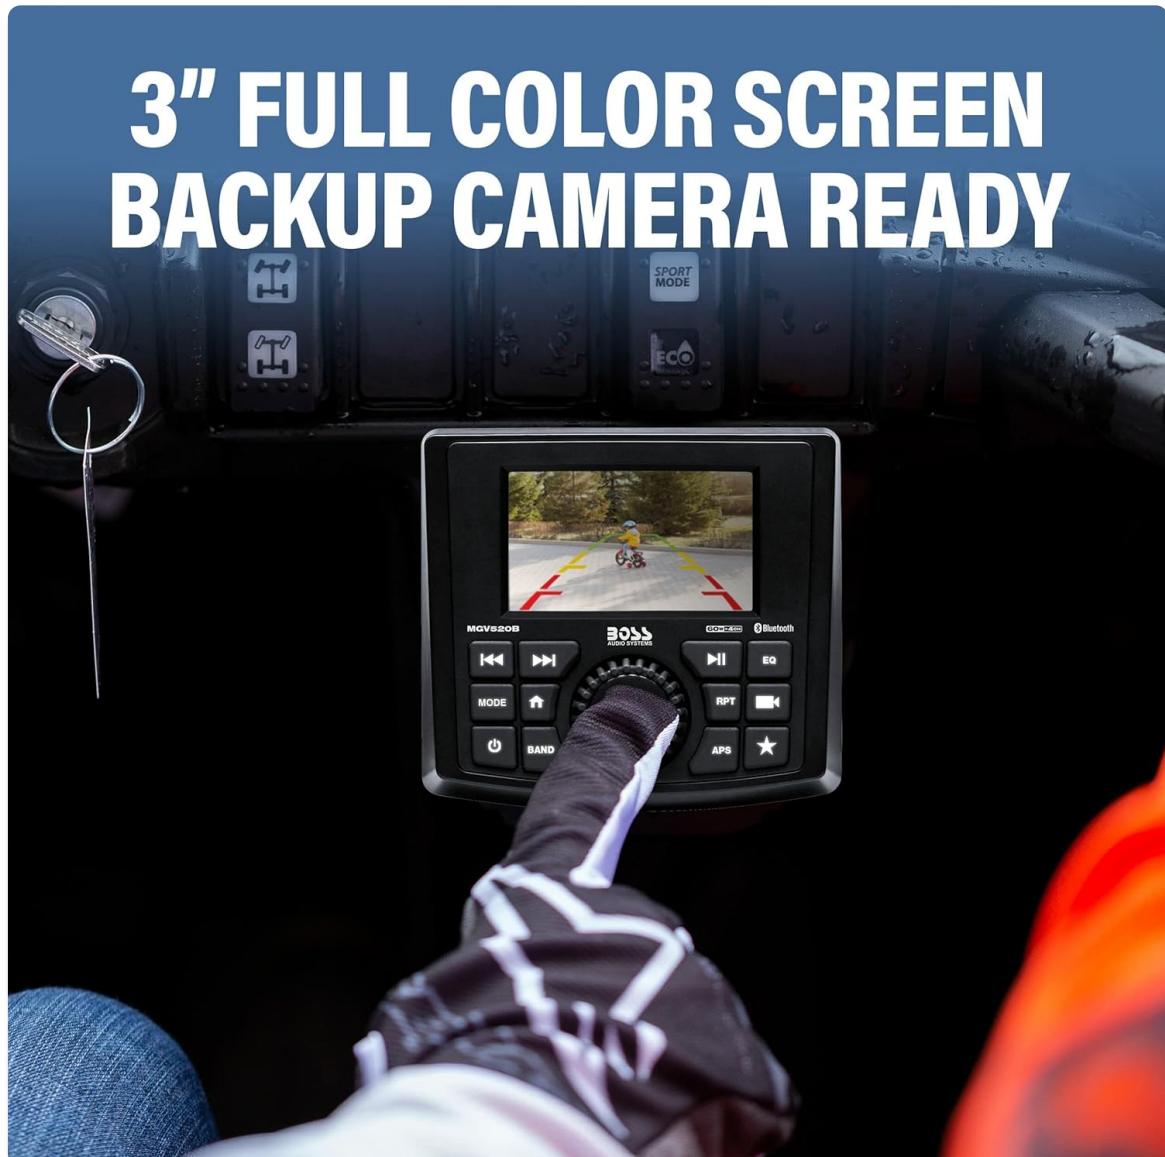

The USB port supports audio/video files (up to 32GB max) and provides charging for compatible devices.

AM/FM Radio

Tune into AM/FM radio stations for news, music, and sports. The unit does not include a CD mechanism.

Camera Inputs

The receiver supports video input, allowing you to switch between rear and front cameras (camera sold separately).

Maintenance

The MGV520B is designed with weatherproofing features such as front panel UV coating and conformal coated PC boards, achieving an IPX6 rating. To maintain its performance and longevity, regularly clean the unit with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners. Ensure all connections are secure and free from corrosion, especially after exposure to water or salt fog.
