KCO Lighting 6-Light Clear Glass Globe Pendant Light Instruction Manual

1. SAFETY INFORMATION

Please read these instructions carefully before installation and retain them for future reference. Improper installation or use can lead to electrical shock, fire, or personal injury.

- **Electrical Safety:** Always turn off the main power supply at the circuit breaker before beginning any electrical work. If you are unsure about electrical wiring, consult a qualified electrician.
- **Voltage:** This fixture is designed for 110-250 Volts. Ensure your household voltage matches this requirement.
- **UL Certified:** This product is UL certified, ensuring it meets safety standards.
- **Bulb Compatibility:** Use only E26 base bulbs, G45 size, with a maximum wattage of 60 watts per bulb.
- **Indoor Use Only:** This fixture is intended for indoor use in dry locations. It is not water resistant.

2. PRODUCT OVERVIEW

The KCO Lighting 6-Light Clear Glass Globe Pendant Light is a mid-century modern chandelier featuring a linear black metal body and clear glass globe shades. Its design provides an elegant update to various residential spaces.

Key Features:

- **Design:** Linear style with 6 clear glass globe shades.
- **Adjustable Height:** Features a 47.2-inch (120cm) adjustable hanging cord to suit various ceiling heights, including sloped or parallel ceilings.
- **Dimmable:** Fully dimmable when used with compatible dimmable bulbs and a dimmer switch.
- **Material:** Constructed from durable glass and metal.

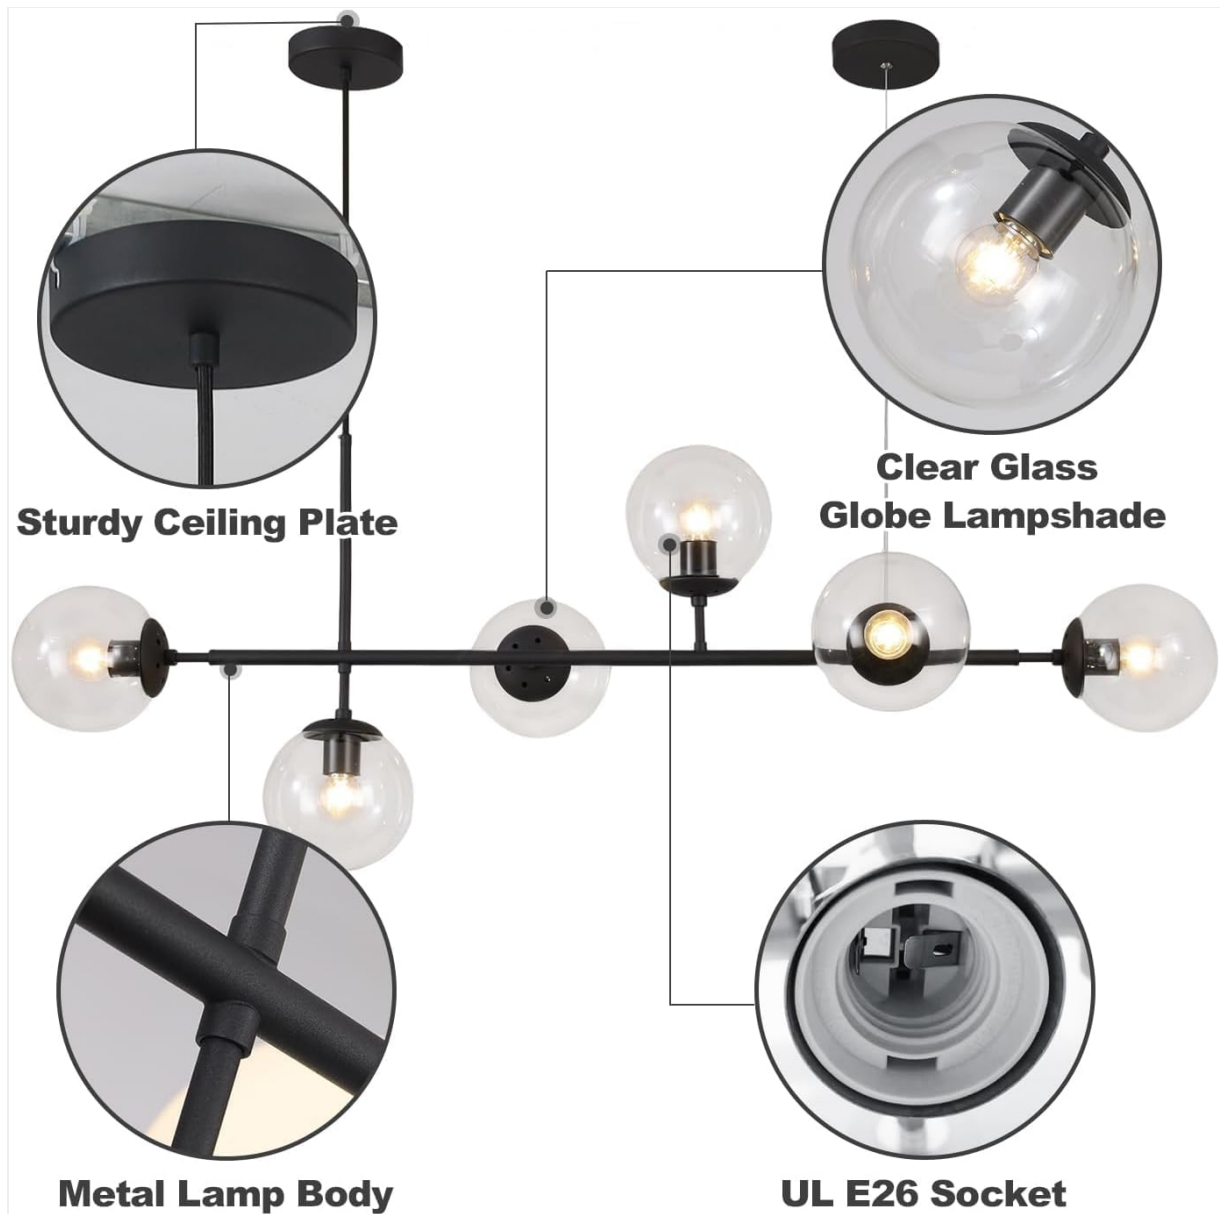

Figure 2.2: Detailed view of key components: sturdy ceiling plate, clear glass globe lampshade, metal lamp body, and UL E26 socket.

3. SETUP AND INSTALLATION

Assembly is required for this semi-flush mount chandelier. It is recommended to have two people for installation to ensure proper alignment and safety.

Installation Steps:

1. **Prepare for Installation:** Turn off power at the circuit breaker. Ensure all components are present and undamaged.
2. **Mount the Ceiling Plate:** Secure the ceiling plate to your junction box. This fixture is compatible with both flat and sloped ceilings.
3. **Assemble the Fixture Body:** Attach the linear metal body to the hanging rods and connect the wiring as per local electrical codes.
4. **Adjust Hanging Height:** Utilize the adjustable hanging cord to set the desired height for your space.
5. **Install Glass Globes and Bulbs:** Carefully attach the clear glass globes to the lamp body. Insert E26 base G45 bulbs (max 60W, not always included) into each socket.
6. **Restore Power:** Once installation is complete and secure, restore power at the circuit breaker.

Figure 3.3: The chandelier is designed to work effectively on various ceiling types, including sloped and flat surfaces.

4. OPERATING INSTRUCTIONS

This chandelier operates like a standard light fixture once installed. For optimal performance and ambiance, consider the following:

- **Bulb Selection:** The fixture uses E26 base, G45 size bulbs. While the product may include bulbs, you can choose bulbs with different color temperatures (e.g., warm white, cool white) to match your desired atmosphere.
- **Dimmable Functionality:** To utilize the dimmable feature, ensure you use dimmable E26 bulbs and connect the fixture to a compatible dimmer switch (sold separately).
- **Light Output:** The fixture provides a maximum light output of 800 lumens, suitable for illuminating various spaces such as living rooms, dining rooms, bedrooms, and kitchen islands.

5. MAINTENANCE

Regular cleaning will help maintain the appearance and functionality of your chandelier.

- **Cleaning the Glass Globes:** Gently wipe the glass globes with a soft, dry, or slightly damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Cleaning the Metal Body:** Use a soft, dry cloth to wipe down the metal frame. Do not use liquid cleaners or polishes directly on the metal.
- **Bulb Replacement:** Always turn off the power at the circuit breaker before replacing bulbs. Allow bulbs to cool completely before handling.
- **Water Exposure:** This fixture is not water resistant. Avoid exposing it to water or high humidity.

6. TROUBLESHOOTING

If you encounter any issues with your KCO Lighting chandelier, refer to the following common troubleshooting tips:

- **Light Not Turning On:**
 - Check the circuit breaker to ensure power is on.
 - Verify that bulbs are securely screwed into their sockets and are not burnt out.
 - Ensure all wiring connections are correct and secure.
- **Lights Flickering:**
 - If using LED bulbs with a dimmer, ensure both the bulbs and the dimmer switch are compatible with LED dimming technology. Incompatible dimmers can cause flickering.
 - Check for loose wiring connections at the fixture or junction box.
- **Bent Socket:** If a bulb socket appears bent or damaged, contact customer support for assistance. Do not attempt to force a bulb into a damaged socket.
- **Uneven Hanging:** Ensure the ceiling plate is securely mounted and the adjustable cords are evenly set. Adjust the cord lengths as needed to achieve a level hang.

7. SPECIFICATIONS

Feature	Specification
Brand	KCO
Model Number	4
Color	Black+Clear
Material	Glass, Metal
Style	Mid-Century Modern
Light Fixture Form	Chandelier
Product Dimensions	47.2"L x 12"W x 17.7"H
