Chicco Duo 9oz Glass-Lined Baby Bottle

Chicco Duo 9oz Glass-Lined Baby Bottle Instruction Manual

Model: Duo 9oz Glass-Lined Baby Bottle

1. INTRODUCTION TO CHICCO DUO BABY BOTTLE

The Chicco Duo Baby Bottle features a unique hybrid design, combining the purity of glass with the durability and lightweight nature of plastic. This innovative construction ensures that your baby's milk only ever touches 100% pure Invinci-Glass, while the outer plastic layer provides protection against breakage. The bottle is equipped with an Intui-Latch nipple designed for natural feeding and an anti-colic valve to reduce air intake.

The Science Inside Invinci-Glass Technology

Chicco Duo utilizes advanced medical-grade Invinci-Glass technology, permanently bonding a micro-thin layer of pure glass to the inside of a premium plastic bottle. This patented process ensures milk never touches plastic, preserving taste and purity, while the outer plastic shell makes the bottle lightweight and break-resistant. The glass interior also resists stains, odors, and discoloration.

Video: This video explains the 'Science Inside' the Chicco Duo bottle, detailing how the Invinci-Glass technology bonds pure glass to plastic at a molecular level, creating a break-proof, lightweight, and long-lasting hybrid bottle.

2. COMPONENTS OF YOUR CHICCO DUO BOTTLE

Your Chicco Duo Baby Bottle consists of a few key parts designed for ease of use and cleaning:

- **Bottle Body:** The main container, featuring the Invinci-Glass inner layer and premium plastic outer layer.
- **Intui-Latch Nipple:** A soft silicone nipple with a breast-like shape and skin-like texture, designed for natural latch and an anti-colic valve.
- **Nipple Ring:** Secures the nipple to the bottle body.
- **Cap:** Protects the nipple when not in use and prevents leaks during transport.

Image: An exploded view of the Chicco Duo bottle, showing its main components: the bottle body, nipple ring, Intui-Latch nipple, and protective cap.

3. SETUP AND ASSEMBLY

Before First Use:

1. Disassemble all parts of the bottle.
2. Wash all components thoroughly with warm, soapy water.
3. Sterilize all parts using an electric sterilizer, boiling water, or a dishwasher (top rack only).
4. Allow all parts to dry completely before assembly.

Assembly:

1. Insert the Intui-Latch nipple into the nipple ring from the top. Pull the nipple through until it is securely seated.

2. Screw the assembled nipple ring onto the bottle body until snug. Do not overtighten.
3. Place the protective cap over the nipple when not in use or for travel.

4. OPERATING INSTRUCTIONS

Filling the Bottle:

Unscrew the nipple ring assembly from the bottle body. Pour the desired amount of breast milk or formula into the bottle. Ensure the liquid level does not exceed the maximum fill line. Re-attach the nipple ring assembly securely.

Feeding Your Baby:

The Intui-Latch nipple is designed to promote a natural latch, similar to breastfeeding. The anti-colic valve helps vent air away from the nipple, reducing gas and discomfort for your baby.

BREAKPROOF & LONG-LASTING

Image: A baby feeding comfortably from a Chicco Duo bottle, demonstrating the natural latch and ease of use.

ANTI-COLIC VALVE

Image: A detailed diagram of the Intui-Latch nipple, highlighting the anti-colic valve which helps reduce air intake for less discomfort during feeding.

Video: This lifestyle video demonstrates the Chicco Duo bottle in various feeding scenarios, showcasing its ease of use, lightweight design, and the baby's natural latch onto the Intui-Latch nipple.

Heating Milk:

The Chicco Duo bottle is safe for use with bottle warmers and electric sterilizers. Avoid heating milk in a microwave oven as it can create hot spots and burn your baby's mouth. Always test the temperature of the milk before feeding.

5. CLEANING AND STERILIZATION

Disassembly for Cleaning:

For thorough cleaning, completely disassemble the bottle by separating the cap, nipple, nipple ring, and bottle body.

Washing:

- **Dishwasher:** All components are dishwasher safe (top rack only).
- **Hand Wash:** Wash all parts in warm, soapy water using a bottle brush for the interior of the bottle and a nipple brush for the nipple. Rinse thoroughly.

Sterilization:

The Chicco Duo bottle is electric sterilizer safe. You can also sterilize by boiling in water for 5 minutes. Ensure all parts are completely submerged and do not touch the sides of the pot to prevent damage.

The Invinci-Glass interior resists stains, odors, and discoloration, keeping your bottles clear and hygienic longer.

6. MAINTENANCE AND CARE

- Regularly inspect nipples for signs of wear, such as tears, stickiness, or discoloration. Replace immediately if any damage is observed.
- Store clean, dry bottles and components in a hygienic place away from direct sunlight or heat.
- Avoid using abrasive cleaners or scouring pads, as these can scratch the bottle or nipple.
- The hybrid design makes the bottle lightweight and easy to hold for both parents and babies.

LIGHTWEIGHT & EASY TO HOLD

Image: A parent holding a Chicco Duo bottle, demonstrating its lightweight and easy-to-hold design, even when a baby is in a stroller.

7. TROUBLESHOOTING

- **Leaking:** Ensure the nipple is correctly seated in the nipple ring and the nipple ring is securely tightened onto the bottle body. Do not overtighten.
- **Slow/Fast Flow:** Verify that the correct nipple stage is being used for your baby's age and feeding needs. Chicco Duo nipples are available in different flow rates.
- **Baby Not Latching:** Gently guide your baby to latch onto the breast-like Intui-Latch nipple. Ensure proper positioning and check for any nipple damage.

8. PRODUCT SPECIFICATIONS

Brand	Chicco
Capacity	9 Fluid Ounces
Number of Items	2
Material Type Free	BPA Free, BPS Free, Latex Free, Lead Free, Nitrosamines Free, PVC Free, Phthalates Free
Dishwasher Safe	Yes
Microwaveable	Yes
Bottle Nipple Type	Vented
Bottle Type	Anti-Colic Bottle
Liquid Flow Speed	Slow Flow (Stage 1, 0m+)
Item Weight	0.4 Pounds
Manufacturer	Artsana USA, Inc.

9. WARRANTY AND SUPPORT

The Chicco Duo 9oz Glass-Lined Baby Bottle comes with a **90-day manufacturer's warranty**. For warranty claims, product support, or additional information, please visit the official Chicco website or contact their customer service.
