SETUP AND OPERATION

Marvin's Magic Pens are ready to use straight from the pack. No special setup is required. Simply uncap a pen and begin drawing on paper.

Key Features and How to Use:

1. Color Changing Effect:

Draw with any of the colored magic markers. Then, use the special white pen (erasable pen) to sweep across your drawing. Observe as the color changes instantly before your eyes. Each colored pen is designed to reveal a different shade when activated by the white pen.

2. Secret Messages:

To write secret messages, use the special white pen to write words or drawings directly onto the paper. The ink will be invisible. To reveal the hidden message, color over the area with any of the colored magic markers. The message will appear in the color of the marker used.

3. Creating 3D Lettering:

Achieve a 3D effect by drawing bold letters or designs with a colored pen. Then, use the white pen to outline or add highlights to specific areas of the lettering. This technique makes the letters appear to lift off the page.

4. Vanishing Art:

Draw a picture or scribble with a colored pen. To make parts of your art vanish, sweep the white magic pen across the desired areas. The vanishing effect is instant and repeatable.

MAINTENANCE

The ink used in Marvin's Magic Pens is easily washable. If ink gets on clothes, furniture, or skin, it can typically be removed with soap and water. Always replace the caps firmly after use to prevent the pens from drying out and to ensure longevity.
