## LG LG Wing 5G

# LG Wing 5G User Manual

Model: LG Wing 5G (LMF100TM)

## INTRODUCTION

This manual provides essential information for setting up, operating, maintaining, and troubleshooting your LG Wing 5G smartphone. The LG Wing 5G features a unique rotating dual-screen design, offering enhanced multitasking capabilities with its 6.8-inch main display and 3.9-inch second screen.

Please note that this device is a renewed product. While it has been professionally inspected and tested to work and look like new, it may ship in a non-retail box with generic accessories. Minor scuffs or scratches may be present.

## SETUP

### Unboxing and Initial Setup

Upon receiving your LG Wing 5G, verify the contents of the package:

- LG Wing 5G Smartphone
- Generic Charger
- USB Cable

No other accessories are included. Power on the device by pressing and holding the power button. Follow the on-screen prompts to select your language, connect to a Wi-Fi network, and complete the initial setup process.

### SIM Card Installation

To install your SIM card:

1. Locate the SIM card tray on the side of the device.
2. Insert the SIM ejector tool (not included, a paperclip can be used) into the small hole on the tray to eject it.
3. Place your Nano-SIM card into the tray with the gold contacts facing down.
4. Carefully reinsert the tray into the phone.

### Network Compatibility

This LG Wing 5G device is T-Mobile / Sprint unlocked. It is compatible with T-Mobile and Sprint networks. It is not compatible with Cricket or any other CDMA network, and it does not support AT&T network.

## **OPERATING YOUR LG WING 5G**

### **Unique Dual Screen Functionality**

The LG Wing 5G's signature feature is its rotating dual-screen design. The main 6.8-inch display can swivel horizontally to reveal a secondary 3.9-inch screen underneath, forming a 'T' shape. This allows for enhanced multitasking and unique usage modes.

Figure 2: LG Wing 5G in 'T-Pose' with both screens active.

## Using the Second Screen

The second screen can be utilized in various ways:

- **Video Controls:** When watching videos on the main screen, the second screen can display video playback controls (volume, brightness, seek bar, play/pause).
- **Grip Mode:** The second screen can be locked to act as a comfortable grip while viewing content on the main display.
- **Trackpad Mode:** Transform the second screen into a laptop-style trackpad, allowing a cursor to appear on the main screen for precise navigation.
- **App Pairing:** Create shortcuts to instantly launch two specific applications, one on the main screen and one on the second screen (e.g., Google Maps on main, music app on second).
- **Extended View:** Some applications are optimized to extend their content across both screens.

You can manage which applications are allowed to run on the second screen via the 'Second Screen' menu in the device settings.

## Camera Features

The LG Wing 5G is equipped with advanced camera capabilities:

- **Pop-up Front Camera:** The front-facing camera is a motorized pop-up mechanism that emerges from the top of the phone when activated.
- **Gimbal Mode:** Utilize the second screen as a dedicated gimbal control, providing on-screen joystick controls for smooth video recording and image stabilization.

- **Dual Recording:** Simultaneously record video from both the rear and front cameras, splitting the screen to show both perspectives.
- **Time-lapse:** Capture time-lapse videos with various settings.

## Basic Navigation

The LG Wing 5G runs on Android 10.0 (upgradable to Android 11/12). Navigate using touch gestures, on-screen buttons, and the unique dual-screen interface. Swipe down from the top for notifications and quick settings, and swipe up from the bottom for the app drawer.

## MAINTENANCE AND CARE

### Cleaning Your Device

To clean your LG Wing 5G, use a soft, lint-free cloth. For stubborn smudges, slightly dampen the cloth with water. Avoid using harsh chemicals, abrasive materials, or aerosol sprays, as these can damage the screens or finish. Ensure no liquid enters the ports or the rotating mechanism.

### Battery Management

The device is powered by a 4000 mAh Lithium Ion battery. To maximize battery life:

- Reduce screen brightness.
- Disable Wi-Fi, Bluetooth, and GPS when not in use.
- Close unused applications running in the background.
- Be aware that using both screens simultaneously, especially with high brightness, will significantly increase battery drain.
- Avoid extreme temperatures.

## Software Updates

LG has committed to providing software support and updates for the LG Wing up to Android 12. Regularly check for system updates in your device settings to ensure optimal performance and security.

## Refurbished Device Care

As a certified refurbished product, your device may have minor cosmetic imperfections. Handle the rotating mechanism with care, especially when opening or closing the second screen, to prevent undue stress on the components.

## TROUBLESHOOTING

### Common Issues and Solutions

- **Device Not Powering On:** Ensure the battery is charged. Connect the phone to the charger for at least 15 minutes before attempting to power on again.
- **Screen Unresponsive/Frozen:** Perform a forced restart by pressing and holding the power button and volume down button simultaneously for about 10 seconds until the device restarts.
- **Battery Draining Quickly:** Refer to the Battery Management section for tips. Close background apps, reduce screen brightness, and disable unnecessary features.
- **Network Connectivity Issues:** Verify your SIM card is correctly inserted. Check network settings and ensure you are within T-Mobile or Sprint coverage areas. This device is not compatible with AT&T or other CDMA networks.
- **Minor Scuffs/Scratches:** As a renewed product, minor cosmetic imperfections are possible and generally do not affect functionality.

## Contacting Support

If you encounter persistent issues that cannot be resolved with the troubleshooting steps, please contact the seller from whom you purchased the renewed device for further assistance. For this specific product, the seller is The Whiz Cells 2.

## TECHNICAL SPECIFICATIONS
