Delta Children 6792-123

Delta Children Tribeca 4-in-1 Convertible Crib Instruction Manual

MODEL: 6792-123 | COLOR: BIANCA WHITE/NATURAL

INTRODUCTION

This manual provides essential instructions for the safe assembly, operation, and maintenance of your Delta Children Tribeca 4-in-1 Convertible Crib. This crib is designed to adapt to your child's growth, converting from a crib to a toddler bed, daybed, and full-size bed. Please read all instructions carefully before assembly and retain this manual for future reference.

SAFETY INFORMATION

Your child's safety is our top priority. This crib is designed and tested to meet or exceed all applicable safety standards. Always follow these guidelines to ensure a safe environment for your child.

General Safety Warnings:

- **Read all instructions before assembly and use.** Keep instructions for future use.
- Do not use this crib if any parts are missing, damaged, or broken. Contact Delta Children for replacement parts and instructional literature if needed. Do not substitute parts.
- Ensure all assembly fittings are tightened properly. Periodically check and re-tighten as necessary.
- Do not place the crib near a window where cords from blinds or drapes could strangle a child.
- Do not place the crib near a heat source, window, or furniture that could provide a foothold for the child to climb out.
- The mattress used with this crib must be a standard full-size crib mattress, not exceeding 27.5 inches (69 cm) in width, 51.625 inches (131 cm) in length, and 6 inches (15 cm) in thickness.

- To prevent falls, when the child is able to pull themselves to a standing position, set the mattress to the lowest position.
- Do not leave anything in the crib that could pose a strangulation or suffocation hazard, such as strings, cords, or large toys.
- Never use plastic shipping bags or other plastic film as mattress covers. They can cause suffocation.
- Discontinue use of the crib when a child begins to climb out or reaches a height of 35 inches (89 cm).

Certifications:

The Delta Children Tribeca 4-in-1 Convertible Crib is JPMA certified and meets or exceeds all safety standards set by the CPSC & ASTM. It features a non-toxic, multi-step painting process that is lead and phthalate safe. The crib is also Greenguard Gold Certified, ensuring lower chemical emissions and cleaner air for your nursery.

Tested Above and Beyond Safety Standards

So Your Baby Sleeps Safe!

COMPONENTS INCLUDED

The Delta Children Tribeca 4-in-1 Convertible Crib package includes the necessary components for assembling the crib in its standard configuration. Please verify all parts are present and undamaged before beginning assembly.

- Crib Frame (Headboard, Footboard, Side Rails)
- Mattress Support Frame
- Assembly Hardware (screws, bolts, barrel nuts, Allen wrench)

Note: Conversion kits for toddler bed, daybed, and full-size bed are sold separately. These include the Toddler Guardrail (#0080), Full Size Wood Bed Rails (#0050), or Full Size Metal Bed Frame (#0040).

SETUP AND ASSEMBLY

Assembly typically requires two adults. Choose a clear, spacious area for assembly to prevent damage to the product or flooring. Refer to the detailed assembly instructions provided in the product packaging for specific diagrams and hardware identification.

General Assembly Steps:

1. Unpack all components and verify against the parts list.
2. Attach the side rails to the headboard and footboard using the provided hardware. Do not fully tighten screws until all major components are connected.
3. Insert the mattress support frame into the designated slots on the side rails. Ensure it is securely seated at the desired height.
4. Fully tighten all screws and bolts. Do not overtighten.
5. Place a standard crib mattress (sold separately) into the crib.

OPERATING INSTRUCTIONS

Adjustable Mattress Height:

The crib features an adjustable mattress support with three positions to accommodate your child's growth and ensure safety. The access rail dimensions are 36 inches from the floor to the top of the rail. The mattress support positions are measured from the top of a 6-inch mattress:

- **Highest Position:** 18.75 inches from the top of the rail. Use for infants who cannot push up on their hands and knees.
- **Middle Position:** 16.5 inches from the top of the rail. Use when your child begins to push up on their hands and knees.
- **Lowest Position:** 12.75 inches from the top of the rail. Use when your child can pull themselves to a standing position.

To adjust the mattress height, remove the mattress and mattress support. Re-position the mattress support to the desired height and secure it firmly with the appropriate hardware. Always ensure the mattress support is level and locked into place.

***Positions measured from the top of a 6" mattress**

4-in-1 Conversion Guide:

The Tribeca crib offers four conversion options to grow with your child:

- **Crib:** Standard infant sleeping arrangement.
- **Toddler Bed:** Low-height bed with a partial safety rail.
- **Daybed/Sofa:** Open-front bed for lounging or sleeping.
- **Full-Size Bed:** A complete adult bed using the crib's headboard and footboard.

Toddler Bed Conversion:

To convert the crib to a toddler bed, remove one of the fixed side rails and install the Toddler Guardrail (#0080), which is sold separately. Follow the specific instructions included with the guardrail kit.

Image: The crib converted into a toddler bed, featuring a low safety rail for easy access.

Daybed/Sofa Conversion:

The crib can be converted into a daybed or sofa by removing the front side rail. The mattress support should be set to the lowest position. No additional rails are typically required for this conversion, utilizing the existing crib structure.

Full-Size Bed Conversion:

To convert the crib into a full-size bed, you will need to purchase the Full Size Wood Bed Rails (#0050) or Full Size Metal Bed Frame (#0040) separately. These rails connect the crib's headboard and footboard to form a standard full-size bed frame. Follow the specific instructions provided with the full-size bed conversion kit.

MAINTENANCE

Care and Cleaning:

- Wipe clean with a damp cloth. Avoid abrasive cleaners or strong detergents, as they may damage the finish.
- Regularly check all screws, bolts, and fasteners to ensure they are tight and secure. Re-tighten as needed.
- Avoid exposing the crib to extreme temperatures or humidity, which can cause warping or cracking of the wood.
- Store the crib in a dry, temperate environment if disassembled for storage.

TROUBLESHOOTING

Common Issues and Solutions:

- **Crib feels wobbly:** Ensure all assembly hardware is fully tightened. If the crib is on carpet, uneven flooring can sometimes contribute to slight movement; consider placing it on a firm, level surface. For added stability, wall anchoring kits (sold separately) can be used, especially as the child grows and becomes more active.
- **Difficulty adjusting mattress height:** Ensure all mattress support hardware is loosened before attempting to move the support. Verify that the support frame is correctly aligned with the designated slots at the new height before re-tightening.
- **Missing or damaged parts:** Do not attempt to use the crib with missing or damaged parts. Contact Delta Children customer support immediately for replacement parts.

SPECIFICATIONS

Feature	Detail
Model Number	6792-123
Color	Bianca White/Natural
Assembled Dimensions (L x W x H)	55" x 30.5" x 36" (139.7 cm x 77.5 cm x 91.4 cm)
