L/c T700, M501-A, M571, M520

L/c LEFANT Robot Vacuum Mop Cloth Replacement Kit User Manual

Models: T700, M501-A, M571, M520

Introduction

This document provides comprehensive instructions for the installation, use, and maintenance of the L/c LEFANT Robot Vacuum Mop Cloth Replacement Kit. This kit is designed to ensure optimal cleaning performance for your compatible LEFANT robot vacuum cleaner.

Compatible Models

This replacement mop cloth kit is compatible with the following LEFANT robot vacuum cleaner models:

- LEFANT T700
- LEFANT M571
- LEFANT M501-A
- LEFANT M520

Package Contents

The package includes the following items:

- 5 x Mop Cloths (Blue)

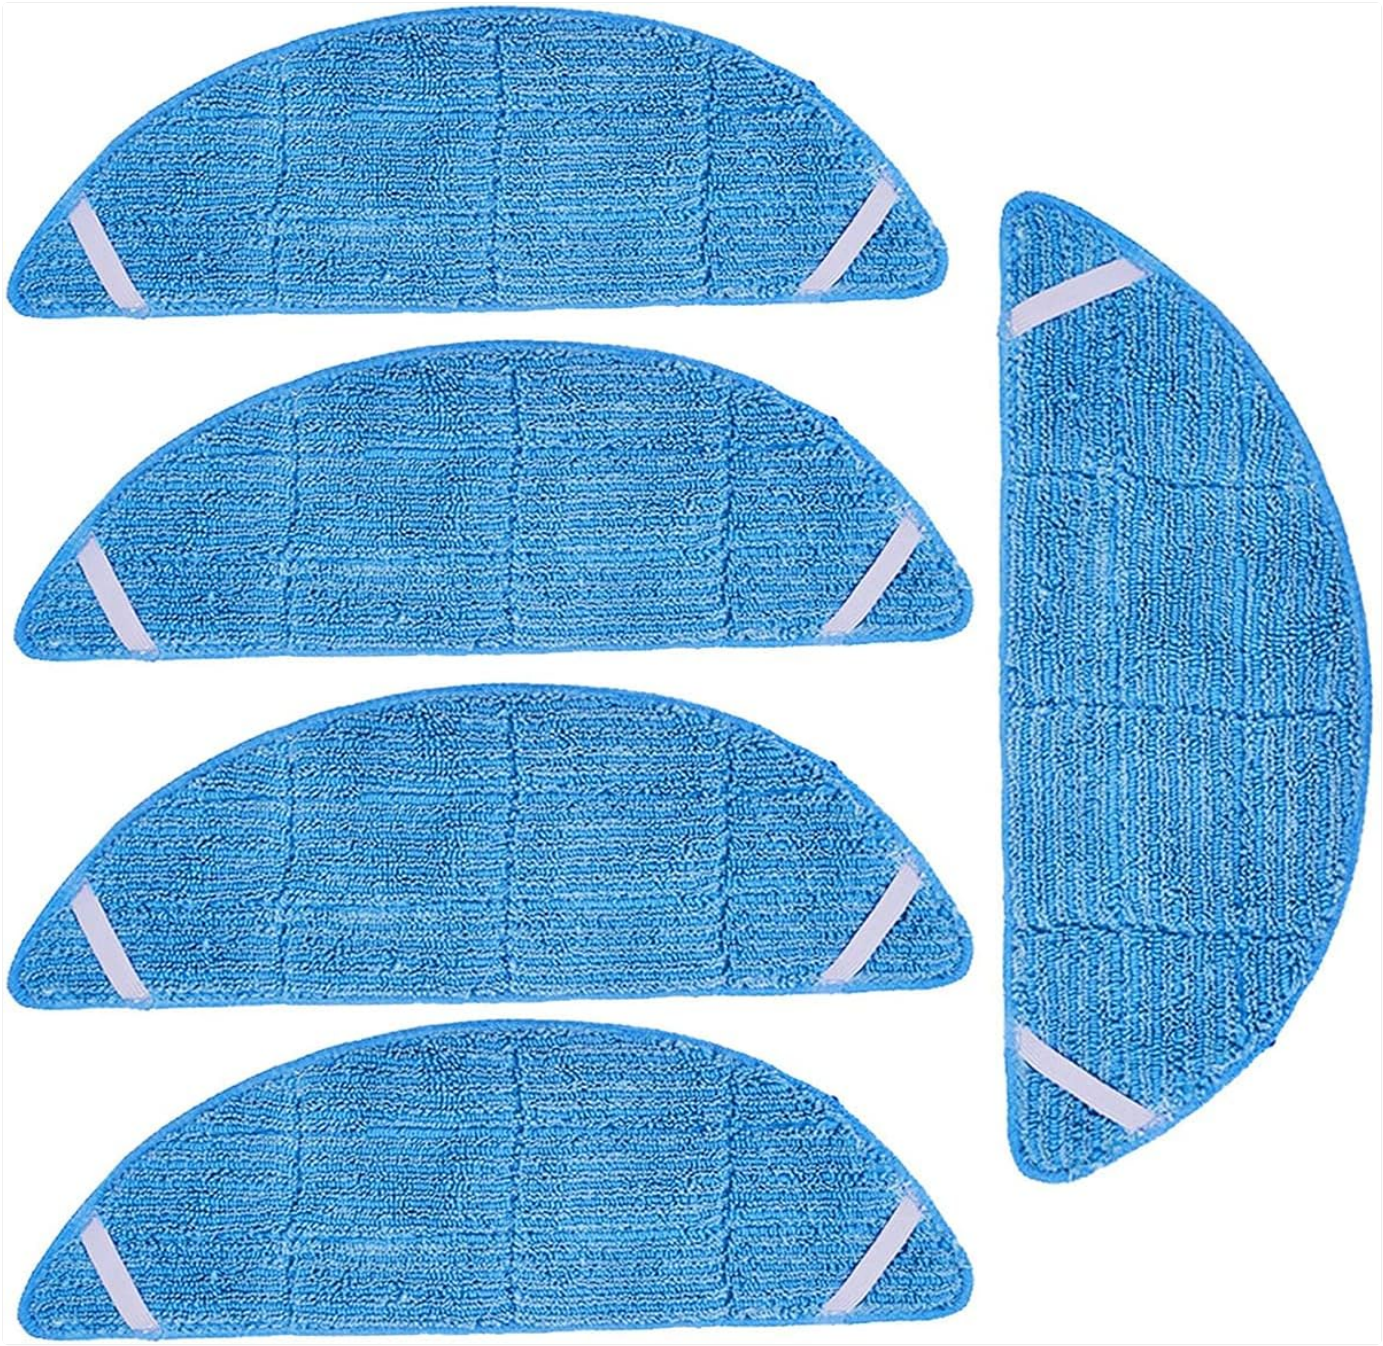

Image: Five blue semi-circular mop cloths, designed for attachment to a robot vacuum cleaner. Four cloths are stacked horizontally, and one is positioned vertically to the right, showcasing their texture and attachment strips.

Installation Instructions

Installing the replacement mop cloth is a simple process and requires no special tools.

1. **Prepare the Robot:** Ensure your LEFANT robot vacuum cleaner is powered off before beginning installation.
2. **Remove Old Mop Cloth:** Locate the existing mop cloth on the underside of your robot vacuum. Gently detach it from the velcro or attachment points.
3. **Attach New Mop Cloth:** Take a new mop cloth from the kit. Align the cloth with the designated mopping area on the robot's underside. Press firmly to secure the velcro strips or attachment points.
4. **Verify Installation:** Ensure the mop cloth is securely attached and lies flat against the robot's base, without any wrinkles or loose edges.

Operating Instructions

Once the mop cloth is installed, your LEFANT robot vacuum is ready for mopping operations. The mop cloths are designed for strong water absorption, effectively removing stains and dirt from various floor types without causing scratches.

- Ensure the robot's water tank (if applicable to your model) is filled according to your robot's specific instructions.
- Initiate the mopping cycle through your robot's controls or companion app.
- The mop cloth will absorb water and clean the floor as the robot navigates.

Maintenance and Care

Regular cleaning and maintenance of the mop cloths will extend their lifespan and ensure optimal cleaning performance.

- **After Each Use:** Remove the mop cloth from the robot.
- **Washing:** The mop cloths are washable. You can hand wash them with mild detergent and warm water, or machine wash them on a gentle cycle.
- **Drying:** Air dry the mop cloths completely before reattaching them to the robot or storing them. Do not tumble dry or use high heat, as this may damage the fabric.
- **Replacement:** Replace the mop cloth when it shows signs of wear, reduced absorption, or excessive staining that cannot be cleaned.

Troubleshooting

If you encounter issues with the mop cloths, consider the following:

- **Poor Cleaning Performance:**
    - Ensure the mop cloth is clean and free from debris.
    - Check if the mop cloth is securely attached to the robot.
    - Verify that the robot's water tank is filled (if applicable).
    - The mop cloth may be worn out; consider replacing it with a new one.
- **Mop Cloth Detaches During Operation:**
    - Ensure the velcro or attachment points on both the cloth and the robot are clean and free from lint or debris.
    - Press the mop cloth firmly onto the robot's base during installation.

Specifications

Brand	L/c
Color	Blue
Surface Recommendation	Floor
UPC	764511231208

Note: Other specifications like "Wireless", "HEPA Filter Type", "Battery Powered", and "Robotic Form Factor" refer to the compatible LEFANT robot vacuum cleaner models, not the mop cloths themselves.
