SteamSpa RVB1500BN-A

SteamSpa 15kW Steam Generator User Manual

Model: RVB1500BN-A

INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your SteamSpa 15kW Steam Generator. This unit is designed to deliver a consistent and luxurious steam experience in your home, featuring Quick Start technology for rapid steam production, Wi-Fi and Bluetooth connectivity for convenient control, and an integrated auto-drain system for easy maintenance.

Please read this manual thoroughly before installation and operation to ensure safe and efficient use of your steam generator.

SETUP AND INSTALLATION

Proper installation is crucial for the safe and optimal performance of your SteamSpa steam generator. It is recommended that installation be performed by a qualified professional.

Unpacking and Inspection

Carefully unpack all components and inspect for any shipping damage. Retain all packaging materials until the unit has been installed and tested. The package includes:

- SteamSpa 15kW Steam Generator Unit
- Wi-Fi & Bluetooth Touch Screen Control Panel
- Brushed Nickel Aroma Steamhead
- Shower Speakers
- Chroma & White Lights

- Drain Pan

Generator Sizing and Placement

Ensure your steam generator's power (kW) is appropriate for your steam room's cubic footage. Refer to the sizing chart below for guidance. The generator should be installed in a dry, accessible location, typically within 25 feet of the steam room.

GENERATOR SIZING

| * Room Dimensions | Cubic Feet | Generator |
|-------------------|------------|----------------|
| 3x3x7 | 63 | 4kw or 6kw |
| 3x4x7 | 84 | 7kw or 9kw |
| 3x5x7 | 105 | 9kw |
| 3x6x7 | 126 | 9kw or 10.5kw |
| 3x7x7 | 147 | 10.5kw or 12kw |
| 3x8x7 | 168 | 12kw |
| 4x4x7 | 112 | 9kw |
| 4x5x7 | 140 | 9kw or 10.5kw |
| 4x6x7 | 168 | 10.5kw or 12kw |
| 4x7x7 | 196 | 12kw |
| 4x8x7 | 224 | 12kw |
| 4x9x7 | 252 | 12kw |
| 5x5x7 | 175 | 12kw |
| 5x6x7 | 210 | 12kw |
| 5x7x7 | 245 | 12kw |
| 5x8x7 | 280 | 12kw |
| 5x9x7 | 315 | 12kw |

* Room Dimensions are based on cubic feet = WxLxH

Image: A table detailing recommended generator sizes (kW) based on steam room dimensions and corresponding cubic feet. Room dimensions are calculated as Width x Length x Height.

Electrical and Plumbing Connections

All electrical and plumbing work must comply with local codes and regulations. Ensure the power supply matches the generator's voltage requirements (15 Volts, 15 KW). Connect the water supply to the generator and the steam line from the generator to the steam head inside the steam room.

OPERATING INSTRUCTIONS

Your SteamSpa generator offers convenient control through its touch screen console and a mobile application.

Using the Bluetooth Console

The SteamSpa Black Series Bluetooth Console provides intuitive control over your steam experience. It features a touch screen digital display to set your desired sauna time and temperature. The console also allows control

of the chromatherapy color light set.

Mobile App Control (Wi-Fi)

For ultimate convenience, download the SteamSpa Wi-Fi Mobile App, available for iOS and Android phones. This app allows you to connect to and control your steam shower from anywhere, offering complete steam control in one convenient interface.

Aromatherapy Feature

Your brushed nickel steamhead includes a built-in aroma oil reservoir. To use, simply add a few drops of your favorite essential oils into the reservoir. The steam will then diffuse the aroma throughout your steam room, enhancing your spa experience.

MAINTENANCE

Regular maintenance ensures the longevity and efficiency of your SteamSpa generator.

Auto-Drain System

The built-in auto-drain system automatically flushes remaining water from the generator after each use. This prevents mineral build-up and extends the life of the system. No manual draining is typically required.

QUICKSTART™ STEAM BATH GENERATOR WITH A BUILT-IN AUTO-DRAIN

A CLEAN & HEALTHY STEAM

Keeps your steam clean and healthy by expelling all remaining water along with any minerals and deposits.

Image: The SteamSpa Quickstart Steam Bath Generator, illustrating the built-in auto-drain system which keeps the steam clean and healthy by expelling remaining water and deposits.

Cleaning the Steam Head

Periodically wipe down the brushed nickel steam head with a soft, damp cloth. Avoid abrasive cleaners that could damage the finish.

Water Quality

For areas with hard water, consider installing a water softener or filter to further reduce mineral deposits and prolong the life of your generator. While the auto-drain system helps, good water quality is beneficial.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|----------------------|---|---|
| No steam production. | No power, water supply off, or control panel error. | Check power connection and circuit breaker. Ensure water supply valve is open. Check control panel for error codes and consult the full manual. |

| Problem | Possible Cause | Solution |
|-----------------------------|---|--|
| Insufficient steam. | Generator undersized for room, mineral build-up, or low water pressure. | Verify generator size against room volume. Ensure auto-drain is functioning. Check water pressure. Consider professional descaling if mineral build-up is suspected. |
| Control panel unresponsive. | Loose connection, power issue, or software glitch. | Check cable connections to the generator. Cycle power to the unit. If issues persist, contact customer support. |
| Aroma not diffusing. | Aroma reservoir empty or steam head blocked. | Refill aroma reservoir. Check steam vent for obstructions and clean if necessary. |

For more detailed troubleshooting steps, please refer to the complete product manual or contact SteamSpa customer support.

SPECIFICATIONS

Brand: SteamSpa

Model: RVB1500BN-A (15kW)

Power Source: Manual

Wattage: 15 KW

Voltage: 15 Volts

Material: Steel (Generator), Brass (Handle Material)

Finish Type: Matte (Generator), Brushed Nickel (Steam Head)

Item Weight: 28 Pounds

Product Dimensions: 6.5 x 16 x 14.5 inches

Mounting Type: Under Cabinet Mount

Special Features: Adjustable, Quick Start Continuous Steam Technology, Wi-Fi, Bluetooth, Autodrain, Aromatherapy Reservoir
