Micro Kickboard Mini Deluxe Scooter Instruction Manual

Model: MMD153

INTRODUCTION

The Micro Kickboard Mini Deluxe Scooter is a 3-wheeled, lean-to-steer scooter designed for toddlers and preschoolers aged 2-5, with a maximum weight capacity of 110 lbs. This manual provides essential information for safe assembly, operation, maintenance, and troubleshooting to ensure a long-lasting and enjoyable experience.

IMPORTANT SAFETY INFORMATION

- Always wear a helmet and appropriate safety gear (knee pads, elbow pads, wrist guards) when riding.
- Adult supervision is required at all times.
- Do not ride on uneven surfaces, near traffic, or on wet/slippery ground.
- Ensure all clamps and fasteners are securely tightened before each use.
- Check wheels and brakes regularly for wear and proper function.
- Do not modify the scooter. Use only genuine Micro replacement parts.

PRODUCT OVERVIEW

The Micro Kickboard Mini Deluxe features a durable design with a folding mechanism for easy transport and storage.

This image shows the Micro Kickboard Mini Deluxe Scooter in purple, viewed from the front. It highlights the T-bar

handlebar, the three wheels (two at the front, one at the back), and the main deck.

This image displays the Micro Kickboard Mini Deluxe Scooter from the side, emphasizing its compact design and the rear foot brake. The adjustable T-bar is visible in its extended position.

This image illustrates the Micro Kickboard Mini Deluxe Scooter in its folded state, demonstrating how compact it becomes for storage or transport. The T-bar is folded down parallel to the deck.

SETUP AND ASSEMBLY

The Mini Deluxe Foldable scooter comes mostly pre-assembled. Follow these steps to prepare it for use:

1. **Unfolding the Scooter:** Locate the folding mechanism near the base of the T-bar. Press the designated buttons (refer to diagram in physical manual if available) and unfold the T-bar until it locks securely into the upright position. Ensure it clicks into place.
2. **Adjusting Handlebar Height:** Loosen the clamp on the T-bar stem. Adjust the handlebar to the desired height, ensuring it is comfortable for the rider. Tighten the clamp firmly to secure the handlebar.
3. **Pre-Ride Check:** Before the first ride and every subsequent ride, ensure all connections are tight, especially the handlebar clamp and the folding mechanism. Check that the wheels spin freely and the brake functions correctly.

OPERATING YOUR SCOOTER

The Micro Kickboard Mini Deluxe utilizes a lean-to-steer mechanism, which helps develop balance and coordination.

1. **Getting Started:** Place one foot firmly on the deck of the scooter. Use the other foot to push off the ground to gain momentum.
2. **Steering:** To turn, lean your body in the direction you wish to go. The lean-to-steer system will intuitively guide the front wheels. Avoid sharp, sudden turns.
3. **Braking:** To slow down or stop, gently press down on the foot brake located above the rear wheel with your heel. Apply gradual pressure for smooth stops.
4. **Riding Posture:** Encourage the rider to stand upright with a slight bend in the knees, maintaining a relaxed grip on the handlebars.

CARE AND MAINTENANCE

Regular maintenance will extend the life of your Micro Kickboard Mini Deluxe Scooter.

- **Cleaning:** Wipe the scooter clean with a damp cloth after use. Avoid harsh chemicals or abrasive cleaners.

- **Wheel Inspection:** Periodically check the wheels for wear and tear. Ensure they spin freely and are free of debris. The polyurethane wheels are designed for durability.
- **Fastener Check:** Regularly inspect all screws, bolts, and clamps to ensure they are tight. Re-tighten if necessary.
- **Storage:** Store the scooter in a dry place, away from direct sunlight and extreme temperatures, to prevent material degradation.

TROUBLESHOOTING COMMON ISSUES

Issue	Possible Cause	Solution
Scooter pulls to one side	Handlebar not straight or loose clamp	Ensure handlebar is centered and clamp is tightened securely.
Wheels not spinning freely	Debris in bearings or worn bearings	Clean wheels and bearings. If issue persists, consider replacing bearings.
Brake not effective	Worn brake pad or improper application	Check brake pad for wear and replace if necessary. Ensure proper heel pressure is applied.
Folding mechanism stiff	Dirt or lack of lubrication	Clean the mechanism and apply a small amount of silicone-based lubricant.

PRODUCT SPECIFICATIONS

Feature	Detail
Brand	Micro
Color	Purple
Age Range (Description)	Toddler (2-5 years)
Special Feature	Foldable, Lightweight
Weight Limit	110 Pounds
Product Dimensions	21"L x 10.5"W x 25"H
Number of Wheels	3
Model Name	Mini Deluxe Foldable
Wheel Material	Polyurethane
Frame Material	Aluminum
Item Weight	4.2 Pounds
Handlebar Type	Adjustable

Feature	Detail
Wheel Size	120 Millimeters
