

BarcaLounger James

BarcaLounger James Power Recliner Instruction Manual

Model: James (9PHL-3093-5708-81)

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your BarcaLounger James Power Recliner. The James Power Recliner is designed to offer exceptional comfort and support, featuring a zero-gravity recline position, power-adjustable headrest, and power lumbar support. It aims to suspend your body in a neutral posture, elevating your feet in alignment with your heart to promote relaxation and reduce spinal pressure.

2. SAFETY INFORMATION

Please read all safety warnings and instructions carefully before assembling and using the recliner to ensure safe operation and prevent injury.

- Assembly and usage instructions may include warnings about proper assembly to ensure stability, maximum weight capacity, and safe operation of the power recliner mechanism.
- Keep hands and feet clear of the reclining mechanism during operation to avoid pinching or injury.
- Do not allow children or pets to play on or around the recliner, especially when it is in motion.
- Ensure the power cord is not pinched or damaged and is placed in a location where it will not be a tripping hazard.
- Only use the recliner on a flat, stable surface.
- Do not sit on the footrest when it is extended.

3. SETUP AND ASSEMBLY

The BarcaLounger James Power Recliner includes assembly instructions. Follow these general steps for typical power recliner assembly:

1. **Unpack Components:** Carefully remove all parts from the packaging. Ensure all components are present and undamaged.

2. **Attach Backrest:** Slide the backrest onto the base of the recliner. Ensure the metal brackets on the backrest align and securely lock into the corresponding slots on the base. You may hear a click when it is properly seated.
3. **Connect Power Cables:** Locate the power cables extending from the backrest and the base. Connect them securely. Ensure any additional cables for the power headrest or lumbar are also connected.
4. **Connect Power Supply:** Plug the recliner's power adapter into a wall outlet.
5. **Test Functions:** Before use, test all power functions (recline, headrest, lumbar) to ensure proper operation.

4. OPERATING INSTRUCTIONS

The James Power Recliner features intuitive controls for personalized comfort.

4.1 Power Reclining Function

To recline, locate the control panel, typically on the side of the recliner. Press and hold the recline button to smoothly extend the footrest and recline the backrest. Release the button at your desired position. To return to the upright position, press and hold the opposite button until the recliner is fully closed.

4.2 Power Headrest Adjustment

Use the dedicated headrest control button to adjust the angle of the headrest. This allows you to find optimal neck and head support whether you are reading, watching television, or fully reclined.

4.3 Power Lumbar Support

The power lumbar feature provides adjustable support for your lower back. Use the lumbar control button to increase or decrease the lumbar support to suit your comfort needs.

Image 4.1: Recliner in a partially reclined position.

Image 4.2: Recliner in a fully reclined position.

5. MAINTENANCE AND CARE

Proper care will extend the life and appearance of your recliner.

- **Cleaning:** The recliner is made of leather and requires spot washing for cleaning. Use a soft, damp cloth with a mild soap solution for spills. Test any cleaning solution on an inconspicuous area first.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the leather finish.
- **Regular Dusting:** Dust the recliner regularly with a soft, dry cloth.
- **Protect from Sunlight:** Avoid placing the recliner in direct sunlight to prevent fading and drying of the leather.
- **Inspect Mechanisms:** Periodically check all moving parts and connections to ensure they are secure.

6. TROUBLESHOOTING

If you encounter issues with your recliner, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Recliner does not operate (no power)	Power cord unplugged, outlet not working, loose connection.	Ensure power cord is securely plugged into the wall and the recliner. Test the outlet with another device. Check all internal cable connections.
Recliner mechanism is stuck or noisy	Obstruction, loose hardware, mechanism needs lubrication.	Check for any objects obstructing the mechanism. Ensure all bolts and screws are tight. Apply silicone-based lubricant to moving metal parts if necessary (avoiding fabric/leather).
Headrest or lumbar not adjusting	Loose cable connection, motor issue.	Verify all specific headrest/lumbar cables are securely connected. If the issue persists, contact customer support.

7. SPECIFICATIONS

Detailed specifications for the BarcaLounger James Power Recliner:

Image 7.1: Product Dimensions.

Feature	Detail
Brand	BarcaLounger
Model Name	James
Color	Barone-parchment
Product Dimensions (D x W x H)	39.5"D x 30.8"W x 44"H
