Afloia KILO

Afloia Kilo Air Purifier User Manual

Model: KILO | Brand: Afloia

INTRODUCTION

The Afloia Kilo Air Purifier is designed to provide clean and fresh air for your home, effectively filtering particles in large rooms up to 1076 square feet. Featuring a 3-stage filtration system, quiet operation, and smart controls, it helps improve indoor air quality by removing pet dander, dust, pollen, odors, and smoke.

PRODUCT FEATURES

- **Faster Air Cleaner:** Filters air 4 times per hour in 269 sq ft rooms, purifying a 1076 sq ft room in just one hour.
- **3-in-1 Filtration System:** Utilizes an imported 3-stage filter to remove 0.03 micron particles, including 99.9% of pet dander, dust, pollen, smoke, odor, and mold, improving air quality and alleviating allergy symptoms.
- **7 Color Atmosphere Lighting:** Offers customizable ambient lighting for various occasions. The light automatically dims in sleep mode.
- **2, 4, 8-Hour Timer:** Operates at a quiet 22 dB in sleep mode, allowing you to set a timer for purification while you rest.
- **Multiple Filter Choices:** Replacement filter elements should be changed every 4-6 months, depending on air quality. Options include Original, Pet Allergy, and Antibacterial filters.

Figure 3: Detailed 3-Stage Filtration System

SETUP

1. **Unpack the Unit:** Carefully remove the air purifier and all packaging materials from the box.
2. **Remove and Install Filter:**
 - Turn the unit upside down.
 - Twist the base cover counter-clockwise to unlock and remove it.
 - Remove the plastic packaging from the filter.
 - Insert the filter back into the unit.
 - Replace the base cover and twist clockwise to lock it securely.
3. **Place the Purifier:** Position the air purifier on a flat, stable surface, ensuring adequate space around it for optimal air circulation.
4. **Connect Power:** Plug the power adapter into the power port at the back of the unit, then plug the adapter into a standard electrical outlet.

OPERATING INSTRUCTIONS

The Afloia Kilo Air Purifier features an intuitive top control panel for easy operation.

- **Power On/Off:** Press the power button () to turn the unit on or off.
- **Adjust Fan Speed:** Press the fan speed button (+/-) to cycle through High, Mid, and Sleep modes.
 - *Sleep Mode:* Operates at a quiet 22 dB for undisturbed rest.
- **Set Timer:** Press the timer button (⌚) to set the operating duration to 2, 4, or 8 hours. The unit will automatically turn off after the set time.
- **Control Atmosphere Light:** Press the light button (*) to cycle through 7 different colors or turn the light off. In sleep mode, the light will automatically dim.

Smart Home Integration (App & Voice Control)

The Afloia Kilo Air Purifier can be connected to your smartphone app, Amazon Alexa, or Google Assistant for convenient remote control.

Your browser does not support the video tag.

Video 1: Connecting Afloia Air Purifier to App and Smart Home Assistants

This video demonstrates the process of connecting your Afloia Kilo Air Purifier to the companion mobile application and integrating it with Amazon Alexa or Google Assistant for voice control.

1. **Download App:** Search for "Afloia Home" on Google Play or the App Store and install the application.
2. **Register Account:** Open the app and register a new user account.
3. **Enable Wi-Fi/Bluetooth:** Ensure Wi-Fi and Bluetooth are enabled on your smartphone.
4. **Pair Device:** Turn on the air purifier. Long press the Wi-Fi indicator button on the control panel until it blinks rapidly. In the app, click "Add Device" to automatically match and add the air purifier.
5. **Connect to Wi-Fi:** Enter your Wi-Fi password in the app to connect the device to your home network.
6. **Link with Voice Assistant:** In the app, navigate to the "Me" section, then "Third-Party Voice Services" to link your Afloia account with Amazon Alexa or Google Assistant by following the on-screen prompts.

MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your Afloia Kilo Air Purifier.

- **Filter Replacement:** The 3-in-1 filter should be replaced every 4-6 months, depending on usage and air quality. A red indicator light on the control panel will illuminate when it's time for replacement.
 - To replace, turn the unit upside down, twist the base cover counter-clockwise, remove the old filter, insert a new one (ensure plastic packaging is removed), and re-secure the base cover.
 - After replacing the filter, long-press the power button for approximately 15 seconds until the red indicator light turns off, resetting the filter life monitor.
- **Exterior Cleaning:** Wipe the exterior of the unit with a soft, dry cloth regularly to remove dust. Do not use abrasive cleaners or solvents.

Figure 4: Quiet Operation in Sleep Mode

TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not turn on.	Power cord not properly connected; no power from outlet.	Ensure power cord is securely plugged into the unit and a working electrical outlet.
Red indicator light is blinking/solid.	Filter needs replacement.	Replace the 3-in-1 filter and reset the filter life monitor by long-pressing the power button.
Reduced air purification efficiency.	Clogged filter; obstructed air inlets/outlets.	Replace the filter. Ensure air inlets and outlets are clear of obstructions.
Unusual noise during operation.	Unit not on a stable surface; foreign object inside.	Place the unit on a flat, stable surface. If noise persists, contact customer support.
