Taylor Swoden 5L Ultrasonic Warm & Cool Mist Humidifier User Manual

Model: 8719138900398

Introduction

Thank you for purchasing the Taylor Swoden 5L Ultrasonic Warm & Cool Mist Humidifier. This manual provides essential information for the safe operation, maintenance, and troubleshooting of your device. Please read it thoroughly before use and retain it for future reference.

Important Safety Instructions

- Always place the humidifier on a firm, flat, water-resistant surface away from direct sunlight and heat sources.
- Do not immerse the base unit in water or other liquids.
- Ensure the power cord is not damaged and is plugged into a suitable electrical outlet.
- Keep out of reach of children and pets.
- Do not add essential oils directly into the water tank. Use a dedicated aroma tray if available, or consult the manufacturer for compatible methods.
- Unplug the humidifier before filling, cleaning, or moving it.
- Do not block the mist outlet.
- Regularly clean the humidifier to prevent mineral buildup and bacterial growth.

Package Contents

- Taylor Swoden 5L Ultrasonic Humidifier
- Remote Control
- User Manual

Product Overview

Familiarize yourself with the components of your humidifier:

Image: The Taylor Swoden 5L Ultrasonic Humidifier in black, shown with its remote control. The humidifier features a sleek design with a vertical LED light strip and a digital display on the front base.

Key Features:

- **Warm and Cool Mist Function:** Provides both warm and cool mist options for year-round comfort. Warm mist helps humidify faster in colder conditions, while cool mist keeps nasal passages and skin hydrated in dry air.
- **Three Mist Levels:** Adjustable mist output (low, medium, high) to suit your preference and room size.
- **Silent Ultrasonic Operation:** Operates at less than 38dB, ensuring a quiet environment for sleep, study, or work.
- **Large 5L Capacity:** The generous water tank allows for extended operation, up to 15 hours, covering rooms up to 50 square meters.
- **Remote Control:** Conveniently adjust settings from a distance.
- **Automatic Shut-off & Sleep Mode:** Features an auto-shutdown function and a sleep mode with optional 7-color LED lighting.

Setup

1. **Unpack:** Carefully remove all components from the packaging. Ensure all packing materials, especially any protective foam from the base, are removed.
2. **Placement:** Place the humidifier on a flat, stable, and water-resistant surface at least 15 cm (6 inches) away from walls and furniture.
3. **Fill Water Tank:** Remove the water tank from the base. Unscrew the tank cap and fill the tank with clean, cool tap water. Do not fill past the MAX line.

4. **Replace Tank:** Securely screw the tank cap back on and place the water tank onto the base unit, ensuring it is seated correctly.
5. **Connect Power:** Plug the power cord into a standard electrical outlet. The unit will beep, and the display will light up briefly.

Operation

Control Panel & Remote Control

The humidifier can be operated via the touch control panel on the unit or the included remote control.

Power On/Off

- Press the **Power button** ( ) to turn the humidifier on or off.

Mist Level Adjustment

- Press the **Mist Level button** (☰) repeatedly to cycle through low, medium, and high mist output settings.

Image: The humidifier displaying different mist levels (Low, Medium, High) with corresponding icons and estimated runtime.

Warm/Cool Mist Selection

- Press the **Warm Mist button** (♨) to activate warm mist mode. Press again to switch back to cool mist.

Image: A visual representation contrasting warm mist (orange sun icon) and cool mist (blue snowflake icon) functions of the humidifier.

Humidity Setting (Auto Mode)

- Press the **Humidity button** (**%**) to set your desired humidity level (e.g., 40% to 70% Relative Humidity). The humidifier will automatically adjust mist output to maintain this level.

Timer Function

- Press the **Timer button** (◷) to set an operating time from 1 to 12 hours. The humidifier will automatically turn off when the set time expires.

Sleep Mode & LED Light

- Press the **Sleep Mode button** (☾) to activate sleep mode. This typically dims the display and operates quietly.
- The humidifier features 7-color LED lighting. Press the **Light button** ( ) to cycle through colors or turn off the light.

Maintenance

Regular cleaning is crucial for optimal performance and hygiene.

Daily Maintenance

- Empty and rinse the water tank and water basin daily.
- Allow all parts to air dry before reassembly.

Weekly Cleaning

1. **Unplug:** Always unplug the humidifier before cleaning.
2. **Descaling the Water Basin:** Pour 2-4 tablespoons of white vinegar into the water basin and let it sit for 20-30 minutes.

3. **Clean:** Use a soft brush or cloth to gently clean the mineral deposits from the ultrasonic transducer and other parts of the basin.
4. **Rinse:** Rinse the basin thoroughly with clean water to remove all vinegar residue.
5. **Clean Water Tank:** Fill the water tank halfway with water and add 1-2 tablespoons of white vinegar. Shake vigorously and let it sit for 20-30 minutes. Rinse thoroughly.
6. **Dry:** Wipe all surfaces dry with a clean cloth or allow to air dry completely before storage or next use.

Troubleshooting

Problem	Possible Cause	Solution
No mist or low mist output.	Lack of water, mineral buildup, mist outlet blocked.	Refill water tank. Clean the ultrasonic transducer and water basin. Ensure mist outlet is clear.
Humidifier is leaking.	Water tank not seated correctly, white foam on base not removed.	Ensure the water tank is properly placed on the base. Remove any white foam from the base before initial use.
Cannot feel warm mist.	Warm mist temperature is subtle.	The warm mist output is approximately 30°C, which is slightly lower than human body temperature but warmer than cool mist. This is normal operation.
Unpleasant odor from mist.	Stagnant water, dirty water tank/basin.	Clean the water tank and basin thoroughly. Use fresh water daily.
Humidifier makes unusual noise.	Water level too low, foreign object in water basin.	Refill water tank. Check water basin for any obstructions.

Frequently Asked Questions

- **Q: Can I put essential oils in the humidifier?**
  A: It is not suggested to add essential oils directly into the water tank. Aromatic oils can shorten the working life of the humidifier due to different construction and materials compared to dedicated aroma diffusers.

Specifications

Feature	Detail
Brand	Taylor Swoden
Model Number	8719138900398
Color	Black
Capacity	5 Liters (5000 Milliliters)
Power	100 Watts
Voltage	120 Volts
Max Runtime	Up to 15 hours (Cool Mist), Up to 12 hours (Warm Mist)
Operation Mode	Ultrasonic
Coverage Area	Up to 50 square meters
Noise Level	Less than 38 dB
Product Dimensions (L x W x H)	18.8 cm x 18.8 cm x 31.7 cm
