## 3. ASSEMBLY INSTRUCTIONS

Assembly of the Etna Bathroom Storage Cabinet Tower is designed to be straightforward. Please follow these steps

carefully. No special tools are typically required, but a screwdriver may be needed for some fasteners. Handle all parts gently during assembly to prevent damage.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches. Verify all components are present using the list in Section 2.
2. **Attach Side Panels:** Connect the side panels to the bottom panel using the provided hardware. Ensure they are aligned correctly.
3. **Install Middle Shelves:** Insert the middle shelf panels into the designated slots on the side panels.
4. **Secure Top Panel:** Attach the top panel to the side panels, ensuring a snug fit.
5. **Assemble Back Panels:** Slide or attach the back panels into their grooves on the rear of the unit.
6. **Install Cabinet Door:** Attach the cabinet door to the bottom section using the provided hinges. Ensure it opens and closes smoothly.
7. **Insert Tissue Holder:** Place the tissue holder insert into its designated slot in the middle section.
8. **Final Check:** Gently test the stability of the assembled unit. Ensure all connections are secure.

## 4. USAGE AND OPERATION

The Etna Bathroom Storage Cabinet Tower offers versatile storage options for various items.

### 4.1 Storage Compartments

- **Top Shelves:** Ideal for frequently used health and beauty supplies, decorative accents, or small towels.
- **Bottom Cabinet:** Use this enclosed space for storing spare toilet paper rolls, cleaning supplies, or larger towels to keep them out of sight.

### 4.2 Tissue Holder

The middle section features a built-in holder designed to accommodate standard-sized facial tissue boxes. Simply slide the tissue box into the opening from the side.

## 5. CARE AND MAINTENANCE

To ensure the longevity and appearance of your Etna Bathroom Storage Cabinet Tower, follow these simple care instructions:

- **Cleaning:** Wipe the surface with a soft, damp cloth. For stubborn marks, a mild soap solution can be used. Avoid abrasive cleaners or harsh chemicals, as these can damage the finish.
- **Drying:** After cleaning, dry the surface thoroughly with a clean, dry cloth to prevent water spots.
- **Placement:** While the unit is waterproof, avoid prolonged exposure to standing water.
- **Inspection:** Periodically check all connections and hardware to ensure they remain tight and secure.

## 6. TROUBLESHOOTING

If you encounter any issues with your storage cabinet, refer to the following common solutions:

- **Unit feels unstable:** Ensure all screws and connectors are fully tightened. Verify that the unit is placed on a flat, level surface.
- **Parts do not fit:** Double-check the assembly instructions to ensure parts are oriented correctly. Do not force components together; if a part seems ill-fitting, re-examine the step.
- **Missing hardware:** If you find any hardware missing upon unboxing, please contact customer support for assistance.
- **Door does not close properly:** Check the hinge alignment and ensure no obstructions are preventing the door from closing fully.
