PawHut D00-112BU

PawHut 2-in-1 Dog Bike Trailer Pet Carrier Stroller User Manual

Model: D00-112BU

Brand: PawHut

INTRODUCTION

Thank you for choosing the PawHut 2-in-1 Dog Bike Trailer Pet Carrier Stroller. This versatile product is designed to provide a safe and comfortable travel solution for your pet, functioning both as a convenient pet stroller for walks and a secure bike trailer for cycling adventures. Please read this manual thoroughly before assembly and use to ensure proper operation and the safety of your pet.

SAFETY INFORMATION

Important: Failure to follow these safety instructions may result in injury to your pet or yourself.

- Always ensure your pet is securely fastened inside the carrier using the provided safety harness.
- Do not exceed the maximum load capacity of 30 kg. This product is suitable for medium dogs less than 45 cm in length and less than 20 kg in weight.
- Regularly check all connections, bolts, and wheels for tightness and wear before each use.
- Ensure the front wheel is locked when using as a bike trailer.
- Be aware of the overall width (71 cm) of the product, especially when navigating narrow passages or doorways.
- Use caution when turning or braking, especially with a pet inside, to maintain stability.
- The product does not feature a parking brake. Always secure the stroller/trailer when stationary to prevent unintended movement.

- Reflectors are included for visibility in low-light conditions. Ensure they are clean and unobstructed.
- Do not leave your pet unattended in the stroller or trailer.

COMPONENTS LIST

Please verify that all components are present before beginning assembly:

- Main Carrier Frame (Fabric Shell)
- Rear Wheels (2x, 16" inflatable)
- Front Wheel (1x, 6" universal)
- Handlebar
- Hitch Coupler / Tow Bar (for bike trailer mode)
- Safety Harness (internal)
- Cup Holder
- Assembly Hardware (bolts, pins, etc.)

SETUP AND ASSEMBLY

Follow these steps to assemble your PawHut 2-in-1 Pet Carrier Stroller/Bike Trailer:

1. **Unfold the Main Frame:** Carefully unfold the main carrier frame until it clicks into its upright position. Ensure all locking mechanisms are engaged.
2. **Attach Rear Wheels:** Insert the two 16-inch inflatable rear wheels into their respective axles on the main frame. Ensure they are securely locked in place. You may need to press a button or lever to engage the lock.
3. **Install Front Wheel:** Attach the 6-inch universal front wheel assembly to the front of the carrier. This wheel is rotatable for stroller mode and can be locked for bike trailer mode.
4. **Attach Handlebar:** Slide the handlebar into the designated slots at the rear of the carrier until it locks securely. Adjust the height if applicable.
5. **Install Hitch Coupler (for Bike Trailer Mode):** If using as a bike trailer, attach the hitch coupler to the rear axle of your bicycle. Ensure it is compatible with bicycle wheels sized 20"-28". Connect the tow bar from the trailer to this coupler.
6. **Attach Cup Holder:** Secure the cup holder to the handlebar or designated attachment point.
7. **Final Checks:** Before first use, double-check all connections, wheels, and locking mechanisms to ensure they are secure. Inflate tires to the recommended pressure if necessary.

SUITABLE FOR MEDIUM-SIZED DOGS

Beagle

Pyrenean Sheepdog

Bedlington Terrier

Spring Spaniel

Border Collie

Bull terrier

NOTE:

Please measure the body length of your pet before purchasing.

Body length < 45 cm

Suitable for dogs up to **20** kg

OPERATING INSTRUCTIONS

Using as a Pet Stroller

- Ensure the front wheel is unlocked for 360° rotation, allowing for easy maneuverability.
- Place your pet inside through the large front door. Secure them with the internal safety harness.
- Push the stroller using the handlebar.
- When stopping, always hold the handlebar firmly as there is no parking brake.

SAFETY

Using as a Bike Trailer

- Ensure the front wheel is locked in a fixed forward position.
- Attach the tow bar to the hitch coupler on your bicycle's rear axle. Ensure a secure connection.
- Place your pet inside and secure them with the internal safety harness.
- Ride your bicycle, being mindful of the added length and weight of the trailer. Practice in an open area before longer trips.
- Always use caution when turning and braking.

Folding for Storage

- Remove your pet from the carrier.
- Release the handlebar locking mechanisms and fold it down.
- Locate the folding clips (often on the sides of the frame) and release them to collapse the main carrier body.
- For more compact storage, the rear wheels and tow bar can be easily removed.

CONNECTOR

Suitable for bicycle wheels size 20"-28"

MAINTENANCE

- **Cleaning:** The fabric shell can be wiped clean with a damp cloth and mild soap. Do not use harsh chemicals. Allow to air dry completely before folding or storing.
- **Tire Care:** Regularly check the tire pressure of the inflatable rear wheels. Maintain recommended pressure for optimal performance and ride comfort. Inspect tires for punctures or excessive wear.
- **Lubrication:** Periodically lubricate moving parts such as wheel axles and folding mechanisms with a silicone-based lubricant to ensure smooth operation.
- **Storage:** Store the stroller/trailer in a dry, cool place away from direct sunlight when not in use to prolong its lifespan.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Stroller/Trailer feels unstable or tips easily.	Pet's weight distribution; loose connections; uneven ground.	Ensure pet is centered. Check all bolts and connections. Use on level ground.
Wheels are difficult to turn or squeak.	Low tire pressure; dirt in axle; lack of lubrication.	Inflate tires. Clean axles. Apply lubricant to moving parts.
Difficulty folding the unit.	Locking mechanisms not fully disengaged; obstruction.	Ensure all folding clips/levers are fully released. Check for any fabric or debris obstructing the mechanism.
Hitch coupler does not fit bicycle.	Incompatible bicycle wheel size.	Ensure your bicycle wheels are within the 20"-28" range. Consult a bike specialist if needed.
