5. SETUP

5.1. Battery Installation

1. Locate the battery compartment on the back of the clock.
2. Insert one (1) AA battery, ensuring the positive (+) and negative (-) terminals match the indicators inside the compartment.
3. Close the battery compartment cover securely.

5.2. Setting the Time

1. Locate the time setting knob on the back of the clock, usually near the battery compartment.
2. Rotate the knob clockwise or counter-clockwise until the clock hands display the correct time.
3. Avoid turning the hands directly. Always use the setting knob.

5.3. Wall Mounting

1. Choose a suitable location on a wall.
2. Install the provided wall mounting hook securely into the wall. Ensure it can support the weight of the clock.
3. Hang the clock onto the hook using the hanging slot located on the back of the clock mechanism.

6. OPERATING INSTRUCTIONS

Once the battery is installed and the time is set, the clock will begin operating automatically. The quartz movement ensures accurate timekeeping. The step movement produces a soft ticking sound as the second hand advances.

7. MAINTENANCE

- **Cleaning:** Wipe the clock's surface with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Battery Replacement:** Replace the AA battery approximately once a year, or when the clock starts

losing time or stops functioning.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Clock not running	Dead or incorrectly inserted battery.	Replace the AA battery with a new one, ensuring correct polarity (+/-).
Clock losing time	Weak battery.	Replace the AA battery with a new one.
Hands are stuck	Hands are bent or obstructed.	Gently check if hands are touching each other or the clock face. Carefully adjust if necessary.
