Bagtecs XA32 Motorcycle Saddlebags Instruction Manual

Model: am-A111111 | Brand: Bagtecs

INTRODUCTION

Thank you for choosing Bagtecs XA32 Motorcycle Saddlebags. These saddlebags are designed to provide robust, waterproof storage for your motorcycle journeys. Constructed from durable Tarpaulin material, they offer a total capacity of 64 liters (32 liters per bag). This manual provides essential information for the proper setup, usage, and maintenance of your new saddlebags.

Please read these instructions carefully before installation and use. As a universal product, individual adjustments may be necessary to ensure a secure and proper fit on your specific motorcycle model.

PRODUCT OVERVIEW

The Bagtecs XA32 saddlebags are supplied as a pair, including fastening straps for installation. Each bag features a roll-top closure system, designed to provide a waterproof seal, and is made from high-quality Tarpaulin material, known for its durability, UV resistance, and ease of cleaning.

Key Features:

- **Material:** Tarpaulin (waterproof, durable, UV-resistant, easy to clean)
- **Volume:** 64 liters total (32 liters per saddlebag)
- **Dimensions (each bag):** Approximately 40cm (Width) x 42cm (Height) x 19cm (Depth)
- **Closure:** Roll-top with buckles for waterproof sealing
- **Mounting:** Strap-based universal fitting system

SETUP AND INSTALLATION

The Bagtecs XA32 saddlebags are designed for universal fit. However, it is important to verify compatibility with your motorcycle and make any necessary adjustments for secure mounting. The use of saddlebag supports (available separately or existing ones) is highly recommended for optimal stability and to prevent contact with moving parts or hot exhaust components.

Installation Steps:

1. **Inspect Your Motorcycle:** Before installation, assess your motorcycle for suitable mounting points and ensure there is adequate clearance from the exhaust, wheels, and other moving parts. Refer to the dimensions provided in the Product Overview section.
2. **Attach Saddlebag Supports (Recommended):** If not already present, install appropriate saddlebag supports on your motorcycle. These provide a stable frame for the bags and protect them from damage.
3. **Position the Saddlebags:** Place the saddlebags on either side of your motorcycle, ensuring they are balanced and do not interfere with rider or passenger comfort, or vehicle operation.
4. **Secure with Straps:** Use the provided fastening straps to securely attach the saddlebags to your motorcycle's frame, passenger footpeg mounts, or saddlebag supports. Ensure all straps are tightened firmly to prevent movement during riding. Double-check that no straps are loose or can come into contact with moving parts.
5. **Final Check:** Before riding, perform a thorough check to ensure both saddlebags are securely mounted, do not obstruct lights or indicators, and maintain sufficient clearance from all motorcycle components.

OPERATING AND USAGE

The Bagtects XA32 saddlebags are designed for ease of use and protection of your belongings.

Loading and Sealing:

- **Loading:** Distribute weight evenly within each bag and between the two bags. Avoid overloading to maintain motorcycle stability and prevent damage to the bags or mounting system.
- **Sealing:** To ensure waterproof performance, roll the top edge of the bag down at least three times before securing the buckles. This creates a tight seal against water ingress.
- **External Straps:** Utilize the external compression straps to further secure the contents and reduce bag bulk, which can also improve stability.

MAINTENANCE

Proper care will extend the life and maintain the performance of your Bagtecs XA32 saddlebags.

- **Cleaning:** Clean the Tarpaulin material with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners, which can damage the material. Rinse thoroughly and allow to air dry completely before storage.
- **Inspection:** Regularly inspect the bags, straps, and buckles for any signs of wear, tear, or damage. Address any

issues promptly to prevent further deterioration.

- **Storage:** When not in use, store the saddlebags in a cool, dry place away from direct sunlight to prevent material degradation.

TROUBLESHOOTING

If you encounter issues with your Bagtecs XA32 saddlebags, consider the following:

- **Bags feel loose:** Re-check all fastening straps and ensure they are securely tightened. Verify that the bags are properly seated on any saddlebag supports.
- **Water ingress:** Ensure the roll-top closure is rolled down at least three times and all buckles are securely fastened. Check for any punctures or tears in the Tarpaulin material.
- **Difficulty closing:** Avoid overfilling the bags. Ensure contents are arranged to allow for proper rolling and buckling of the closure.

SPECIFICATIONS

Model Number	am-A111111
Brand	Bagtecs
Material	Tarpaulin
Color	Black
Capacity (Total)	64 Liters (2 x 32 Liters)
Dimensions (each bag)	40cm (Width) x 42cm (Height) x 19cm (Depth)
