Cheerble Smart Interactive Cat Toy User Manual

Model: M1 (C0419)

Brand: Cheerble

1. INTRODUCTION

The Cheerble Smart Interactive Cat Toy is designed to provide engaging and stimulating play for cats and kittens. This automatic moving, bouncing, and rolling ball features interactive modes, LED lights, and a bell to attract and entertain your pet, stimulating their natural hunting instincts.

What's in the Box

Cheerble Ball M1

	Cheerble®	Others
		
Motion:	Irregular rolling, bouncing or shaking	Roll only
Auto Rest / Touch Reactivation:	Yes	No
LED Lights:		No
Rechargeable:	Yes	No
Bell	Yes	No

The package includes the Cheerble Smart Interactive Cat Toy (grey ball), one small bell attachment, one USB charging cable, and one user manual.

2. SETUP

Charging the Device

To charge the Cheerble ball, connect the provided USB cable to the charging port on the ball. A full charge takes approximately 1 hour and provides power for up to 4 play cycles.

Important: Use only a specified 5V=1A adapter and the original charging cable for optimal safety and performance. Do not exceed recommended voltages to prevent damage to the device.

Play Rest Balance

It enters into Rest Mode every 10 minutes and reactivates with time or on touch.

Ensure to use the correct power adapter specifications for charging.

Powering On/Off and Mode Selection

Buyer Beware

Important: use only the specified **5V=1A** adapter and original charging cable for safety and best performance.
Do not exceed recommended voltages to avoid damage.

Output

5V=1A

Output:

5V=3A

9.0V=3.0A

15.0V=3.0A

20.0V=3.25A

.....

Press the central button to power on the ball and cycle through the interactive modes.

To power on the device, press the central button on the ball. Subsequent presses will cycle through the available interactive modes. To power off the device, press and hold the central button until the lights turn off.

3. OPERATING INSTRUCTIONS

Interactive Modes

The Cheerble ball features three distinct interactive modes to suit different cat personalities and play styles.

3 Interaction Modes

Normal

Active rolling & bouncing
for energetic & curious cats

Passive

Bouncing on contact
for active hunter cats

Gentle

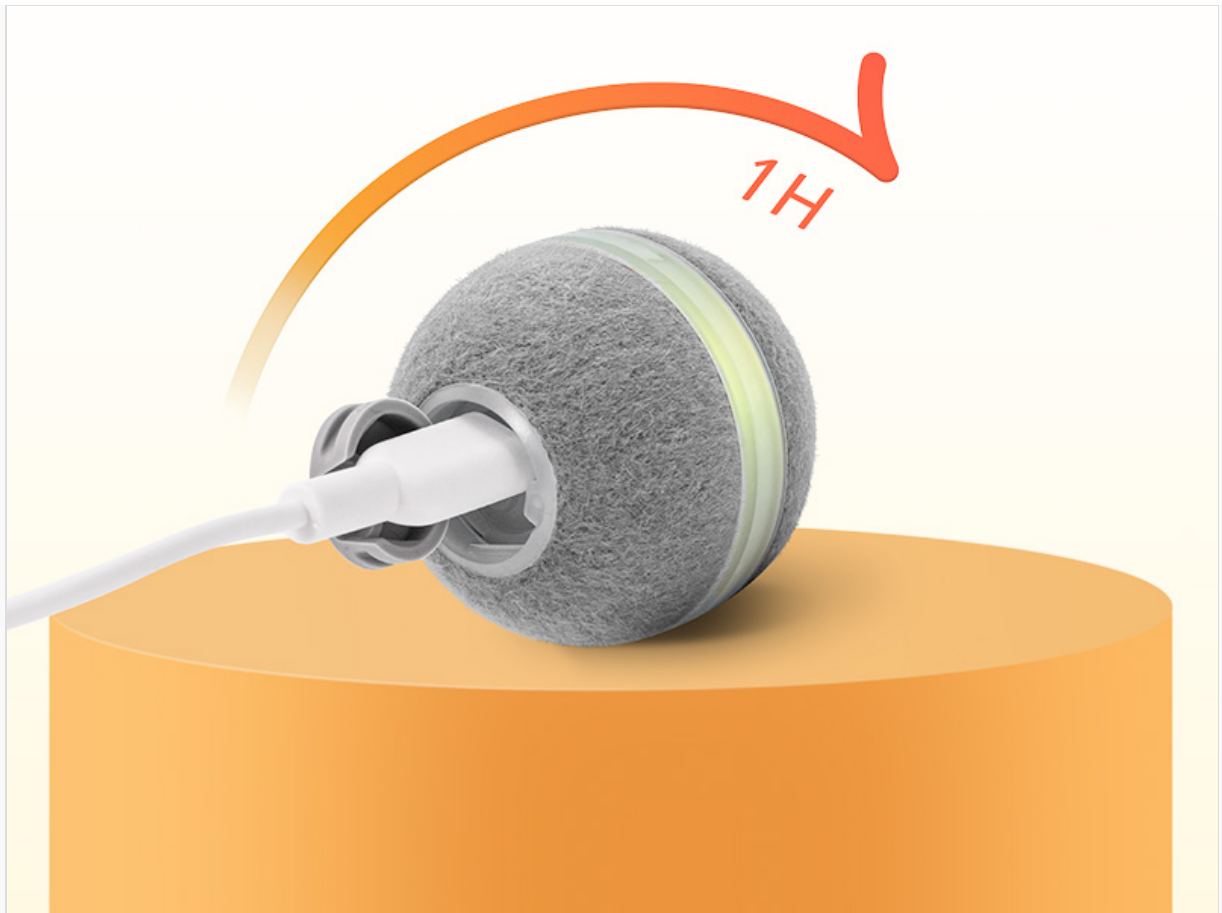

slow rolling, or shaking on
contact
for shy & timid cats

- **Normal Mode:** Provides active rolling and bouncing, ideal for energetic and curious cats.
- **Passive Mode:** Activates bouncing only on contact, suitable for active hunter cats.
- **Gentle Mode:** Offers slow rolling or shaking on contact, designed for shy and timid cats.

Play-and-Rest Cycle

To prevent overstimulation and ensure balanced play, the Cheerble ball operates on a play-and-rest cycle. After 10 minutes of continuous operation, the ball will automatically enter a 30-minute rest mode. It can be reactivated by touch during this rest period. The ball will resume its play cycle automatically after 30 minutes of rest. The maximum running time is 160 minutes.

The ball enters rest mode every 10 minutes and reactivates with time or on touch.

Automatic Obstacle Avoidance

Equipped with an intelligent motion sensor, the Cheerble ball can detect obstacles and tight spaces. It will automatically reverse direction and move away when it encounters an obstruction, ensuring continuous and unpredictable play without getting stuck in corners.

Recommended Play Surfaces

What's in the Box

The Cheerble ball performs best on hard, smooth surfaces such as wooden floors and tile floors. It is also suitable for low pile carpets. This item is not suitable for play on high pile carpet.

4. MAINTENANCE

Cleaning and Care

The surface of the Cheerble cat ball is made of synthetic fiber. While it is designed to be easy to clean, please note that the ball is **not waterproof**. Avoid submerging it in water or exposing it to excessive moisture. Regularly remove any accumulated hair or debris from the ball's surface to maintain optimal performance.

5. TROUBLESHOOTING

- **Ball not moving or responding:** Ensure the ball is fully charged. A full charge takes approximately 1 hour. If the ball is in rest mode, touch it to reactivate.
- **Ball getting stuck frequently:** The ball is equipped with obstacle avoidance. However, performance may vary on certain surfaces or in very cluttered environments. Ensure play is on hard floors or low pile carpets.
- **Reduced battery life:** Ensure the ball is fully charged before each use. Battery performance can be affected by usage patterns and environmental factors.
- **Product appears defective:** If you receive a defective ball or charging cable, please contact customer support for assistance.

6. SPECIFICATIONS

Feature	Detail
Model Name	M1
Item Model Number	C0419
Item Weight	1.32 ounces (37.5 Grams)
Item Dimensions (LxWxH)	1.65 x 1.65 x 1.65 inches
