Maintenance and Care

To preserve the condition and appearance of your diecast model car, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe away dust. For stubborn marks, slightly dampen the cloth with water and wipe carefully, then dry immediately. Avoid abrasive cleaners or solvents.
- **Handling:** Always handle the model by its body, avoiding delicate parts like mirrors, spoilers, or antennas.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures to prevent paint fading or material degradation.
- **Display:** Ensure the display surface is stable to prevent accidental falls.

Troubleshooting

Diecast models are generally robust, but minor issues can occur:

- **Stiff Moving Parts:** If doors, frunk, or engine cover feel stiff, apply very gentle, consistent pressure. Do not force them, as this may cause damage.
- **Dust Accumulation:** Regular light dusting with a soft brush or microfiber cloth is recommended.

- **Loose Parts:** In rare cases, small parts may become loose. If this occurs, and you are comfortable, a small amount of model-safe adhesive can be used. Otherwise, contact customer support.
