

Aqua Creek HB00-U017

Aqua Creek HB00-U017 Two-Button Linak Pool Lift Remote Instruction Manual

Model: HB00-U017

1. INTRODUCTION

This manual provides essential instructions for the safe and effective use of your Aqua Creek HB00-U017 Two-Button Linak Pool Lift Remote. This remote is specifically designed to control the 'up' and 'down' functions of compatible Linak-powered pool lifts, enhancing accessibility and ease of operation for users.

2. SAFETY INFORMATION

- Always ensure the remote control is dry before and during use.
- Do not submerge the remote control in water unless explicitly stated as waterproof by the manufacturer.
- Keep the remote control out of reach of children and unauthorized personnel.
- Regularly inspect the cable and connector for any signs of wear, cuts, or damage. Discontinue use if damage is observed and contact Aqua Creek Products for replacement.
- Ensure the pool lift's main power is off before connecting or disconnecting the remote control.

3. PACKAGE CONTENTS

- 1 x Aqua Creek HB00-U017 Two-Button Linak Pool Lift Remote

4. SETUP

To set up your Aqua Creek HB00-U017 remote control, follow these steps:

1. Locate the designated control port on your Linak-powered pool lift's control box. This port is typically designed to accept a multi-pin connector.
2. Align the connector of the HB00-U017 remote control with the port on the control box.
3. Gently push the connector into the port until it is fully seated and secure. Ensure a firm connection to prevent intermittent operation.
4. Once connected, the remote is ready for use with the pool lift.

This image displays the Aqua Creek HB00-U017 remote control, featuring two large buttons with 'up' and 'down' arrows, the 'LINAK' brand logo, a coiled cord, and a multi-pin connector at the end for attachment to a compatible pool lift system.

5. OPERATING INSTRUCTIONS

The Aqua Creek HB00-U017 remote control features two distinct buttons for controlling your pool lift:

- **Up Button (^):** Press and hold this button to raise the pool lift. Release the button to stop the upward movement.
- **Down Button (v):** Press and hold this button to lower the pool lift. Release the button to stop the downward movement.

Always ensure the path of the lift is clear before operating and observe the user during movement.

6. MAINTENANCE

Proper maintenance ensures the longevity and reliable operation of your remote control:

- **Cleaning:** Clean the remote control regularly with a soft, damp cloth. Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the casing or internal components.
- **Storage:** When not in use, store the remote control in a dry place, away from direct sunlight and extreme temperatures. Avoid coiling the cable too tightly to prevent damage.
- **Inspection:** Periodically inspect the entire length of the cable and the connector for any signs of wear, fraying, or corrosion. If any damage is found, cease use immediately and contact Aqua Creek Products for assistance.

7. TROUBLESHOOTING

If you encounter issues with your remote control, refer to the following common troubleshooting steps:

- **Remote not responding:**
 - Ensure the remote control's connector is fully and securely plugged into the pool lift's control box.
 - Verify that the pool lift itself has power and is operational.
- **Intermittent operation:**
 - Check the remote control's cable for any visible damage or kinks.
 - Inspect the connector pins for cleanliness and ensure they are free from corrosion or bending.
- **Buttons not functioning:**
 - Ensure the remote is properly connected and the pool lift is powered.
 - If the issue persists, the remote may require replacement.

For issues not resolved by these steps, please contact Aqua Creek Products customer support.

8. SPECIFICATIONS

Brand	Aqua Creek
Model Number	HB00-U017
UPC	811628026637
Product Dimensions (Packaging)	19 x 13 x 7 inches
