Vacuum Attachments User Manual

Brand: Honoson | Model: Classic Style (ASIN: B094R54FXY)

1. PRODUCT OVERVIEW

This 6-piece set of vacuum attachments is designed to enhance the versatility of your vacuum cleaner, allowing for effective cleaning in various areas. The set includes different brush heads and adapters to ensure compatibility with most household vacuum cleaners.

The brushes are crafted from quality PP (polypropylene) and artificial horsehair bristles, providing a soft yet durable solution for cleaning delicate surfaces and hard-to-reach spots.

Image 1.1: Overview of the 6-piece vacuum attachment set, showcasing the various brush types and adapters included.

Package Contents:

- 1 x 25mm hair length vacuum dusting brush
- 1 x 36mm hair length vacuum dusting brush
- 1 x Vacuum floor brush (15cm wide working surface)
- 3 x Brush Replacement Adapters (1-1/4 inch to 1-3/8 inch)

Image 1.2: Detailed view of all six components of the vacuum attachment kit, including the floor brush, two round brushes, and three adapters.

2. SETUP AND INSTALLATION

These vacuum attachments are designed for easy installation without the need for additional tools. They can be used for both wet and dry pickup tasks.

1. **Identify Your Vacuum Hose/Wand:** Determine the diameter of your vacuum cleaner's hose or wand opening.
2. **Select the Correct Adapter (if needed):** The set includes three brush replacement adapters designed to convert 1-1/4 inch openings to 1-3/8 inch, ensuring broad compatibility. If your vacuum's hose or wand does not directly fit the brush head, select an appropriate adapter.
3. **Attach the Adapter (if needed):** Insert the smaller end of the chosen adapter into the brush head.
4. **Connect to Vacuum:** Insert the larger end of the brush head (or the adapter-attached brush head) directly into the vacuum cleaner's wand or hose. Ensure a snug fit for optimal suction.

Three brush heads for you to choose

The adapter can be replaced from 1-1/4 inches to 1-3/8 inches

Mane made of artificial horsehair is soft, light and durable

3. OPERATING INSTRUCTIONS

The various attachments in this set are designed for specific cleaning tasks, offering versatility for different surfaces and areas.

- **25mm and 36mm Round Dusting Brushes:** These brushes are ideal for cleaning dust from delicate surfaces and small, intricate areas. Use them on keyboards, bookshelves, air conditioners, car interiors, desks, sofas, and beds. The soft artificial horsehair bristles prevent scratching.

Multi directional cleaning

Round brushes with 25mm and 36mm hair length can be used to help you clean small areas such as sofa pillows

Image 3.1: A round dusting brush being used with a handheld vacuum to clean a sofa pillow, demonstrating its utility for small and soft areas.

- **Vacuum Floor Brush:** This wider brush is suitable for general floor cleaning, including hard floors and low-pile carpets. It can also be used for larger surfaces like curtains, windows, and blinds.

Image 3.2: The floor brush attachment in use on a carpet, connected to a canister vacuum, highlighting its effectiveness for broader surfaces.

Image 3.3: A user cleaning a light-colored rug with the floor brush attachment, showing its application for various floor coverings.

Always ensure the attachment is securely fastened to your vacuum's hose or wand before operation to maintain optimal suction and prevent detachment.

4. MAINTENANCE

To ensure the longevity and effective performance of your Honoson vacuum attachments, follow these simple maintenance guidelines:

- **Cleaning Bristles:** After use, especially when cleaning dusty or hairy surfaces, inspect the brush bristles for accumulated debris. Gently remove any tangled hair or lint by hand or with a comb.
- **Washing:** The PP and artificial horsehair bristles can be gently washed with mild soap and water if heavily soiled. Rinse thoroughly and allow to air dry completely before reattaching to your vacuum or storing.
- **Storage:** Store the attachments in a dry place, away from direct sunlight and extreme temperatures, to preserve the integrity of the materials.
- **Adapter Care:** Keep the adapters clean and free from dust or debris that could affect their fit.

5. TROUBLESHOOTING

If you encounter issues while using your vacuum attachments, consider the following common solutions:

Problem	Possible Cause	Solution
Attachment does not fit vacuum hose/wand.	Incorrect adapter used or no adapter used.	Ensure you are using one of the provided 1-1/4 inch to 1-3/8 inch adapters if your vacuum's hose/wand is not a direct fit. Verify the size of your vacuum's opening.
Reduced suction when using attachment.	Loose connection, clogged bristles, or vacuum issue.	Check that the attachment is securely connected to the vacuum. Clean any debris from the brush bristles. Ensure your vacuum cleaner's filter is clean and the dustbin/bag is not full.
Brush bristles appear bent or misshapen.	Improper storage or pressure during use.	Gently reshape the bristles by hand. For minor bends, you can try steaming them lightly and then reshaping. Store attachments carefully to prevent pressure on bristles.

6. SPECIFICATIONS

PRODUCT SIZE

Image 6.1: Dimensional specifications of the various vacuum attachments, illustrating their sizes for compatibility reference.

- **Material:** PP (Polypropylene) and Artificial Horsehair Bristles
- **Color:** Black
- **Number of Pieces:** 6
- **Dusting Brush Hair Lengths:** 25mm, 36mm
- **Floor Brush Width:** 15cm (approx. 5.9 inches)
- **Adapter Compatibility:** Converts 1-1/4 inch to 1-3/8 inch
- **Item Weight:** Approximately 0.01 Kilograms (0.352 ounces)
- **Package Dimensions:** Approximately 6.57 x 4.21 x 3.9 inches
