2. Safety Information

WARNING: Improper installation or failure to follow these instructions can result in serious injury or property damage.

- Ensure the wall material is suitable for mounting. This cabinet cannot be installed on gypsum board or plastering board walls.
- Always wear appropriate safety gear (gloves, eye protection) during assembly and installation.
- Handle glass components with extreme care to prevent breakage and injury.
- Do not overtighten screws, as this may damage the wood or hardware.
- Keep all small parts and packaging materials away from children.
- If you encounter any difficulties during installation or have missing/damaged parts, contact Puluomis customer support immediately.

3. Package Contents

Verify all components are present and undamaged before beginning assembly. If any parts are missing or damaged, please contact customer service.

- 1x Main cabinet
- 2x Side shelves
- 1x Mirror
- 1x Glass sink
- 1x Chrome Faucet

Pop-up Drain Height	8.0"
Faucet Height	12"
Faucet Base Diameter	2"
Drain Opening Requirement	1.75"

Note: Dimensions are approximate and may vary slightly.

5. Setup and Installation

The Puluomis Bathroom Vanity is designed for easy assembly. Follow these steps carefully. It is recommended to have two people for assembly and installation.

5.1. Pre-Assembly Checklist

- Unpack all components and lay them out on a clean, soft surface (e.g., a blanket or cardboard) to prevent scratches.
- Identify all parts and hardware using the provided parts list.
- Gather necessary tools: Phillips head screwdriver, hammer, drill (optional, for wall mounting).

5.2. Cabinet Assembly

Assemble the main cabinet structure first. The floating design allows for a more spacious bathroom feel.

Figure 3: Internal view highlighting the full 304 stainless steel hinges and design for plumbing.

Follow the step-by-step instructions provided in the included installation guide for precise assembly of the cabinet panels, shelves, and door hinges. Ensure all connections are secure.

Note: An installation video is available from a customer, demonstrating the assembly process. While not an official seller video, it may offer visual guidance for assembly steps.

5.3. Sink and Faucet Installation

Install the tempered glass sink, chrome faucet, and pop-up drain according to their individual instructions. Ensure all connections are watertight.

5.4. Wall Mounting

Once the cabinet is assembled and the sink/faucet are installed, mount the vanity to a sturdy wall. Ensure the wall is not made of gypsum board or plastering board. Use appropriate wall anchors and screws for your specific wall type. Level the vanity before tightening all mounting hardware.

6. Operating Instructions

Your Puluomis Bathroom Vanity is designed for daily use in a bathroom environment. The floating design provides a spacious feel, and the wide cabinet with side shelves offers ample storage.

- Use the faucet for water flow as needed.
- Utilize the cabinet and side shelves for organizing bathroom essentials.
- Ensure the cabinet door closes properly to protect contents from moisture.

7. Maintenance

Regular cleaning and maintenance will prolong the life and appearance of your vanity.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish or glass. The glossy surface is easy to clean.

- **Moisture Control:** Wipe up any water spills immediately to prevent water damage to the wood. Ensure proper ventilation in the bathroom.
- **Hardware:** Periodically check all screws and connections for tightness and re-tighten if necessary.
- **Glass Sink:** Clean the tempered glass sink with non-abrasive glass cleaner.

8. Troubleshooting

If you encounter any issues, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
Vanity feels unstable after mounting.	◦ Incorrect wall material: Ensure the wall is not gypsum or plasterboard. ◦ Loose mounting hardware: Re-check and tighten all screws and anchors. ◦ Improper installation: Review section 5.4 and ensure correct wall mounting procedures were followed.
Faucet leaks or has low water pressure.	◦ Loose connections: Check hot/cold lines and faucet connections for tightness. ◦ Clogged aerator: Unscrew the aerator from the faucet spout and clean any debris. ◦ Water supply issues: Ensure water supply valves are fully open.
Cabinet door does not close properly.	◦ Misaligned hinges: Adjust the 304 stainless steel hinges as needed. ◦ Obstruction: Check for any items blocking the door's path.

For issues not listed here, please contact Puluomis customer support.

9. Warranty and Support

Puluomis stands behind the quality of its products. For warranty information, returns, or technical support, please refer to the contact information provided at the point of purchase or visit the official Puluomis website.
For any installation or other problems, your email will be replied to within 24 hours.
Note: Items may slightly differ from photo in terms of color due to lighting or your monitor's display. The product arrives in 2 packages.
