

PROVISION ISR PROVISION ISR

Provision ISR All-in-one Webcam User Manual

Model: PROVISION ISR

INTRODUCTION

Thank you for choosing the Provision ISR All-in-one Webcam. This device is designed to simplify your online video activities by integrating a high-quality webcam, microphone, speaker, and adjustable LED light into a single, convenient unit. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure you get the most out of your new webcam.

The Provision ISR All-in-one Webcam, shown with its packaging, highlighting its integrated features.

PRODUCT OVERVIEW

The Provision ISR All-in-one Webcam combines essential features for a seamless video communication experience.

- **Full HD Webcam:** Delivers crystal clear 1080p video at 60 frames per second.
- **Built-in Speaker:** Integrated 2.5W speaker for clear audio output.
- **Noise-Cancelling Microphone:** Captures clear audio while reducing background noise.
- **3-Level Adjustable LED Light:** Provides optimal illumination for various lighting conditions.
- **Integrated Privacy Cover:** Ensures privacy when the webcam is not in use.
- **USB Plug & Play:** No drivers required for quick and easy setup.
- **2-Axis Rotating Clip:** Allows for flexible positioning and angle adjustment.

SETUP

Setting up your Provision ISR Webcam is a simple plug-and-play process.

1. **Unpack the Webcam:** Carefully remove the webcam from its packaging.
2. **Mount the Webcam:**
 - Open the flexible clip base.
 - Mount the webcam on top of your monitor, laptop screen, or a flat surface.
 - Adjust the clip to ensure the webcam is stable and securely positioned. The 2-axis rotating clip allows for 360° horizontal rotation and 90° vertical tilt.
3. **Connect to Your Computer:**
 - Plug the USB cable from the webcam into an available USB port on your computer.
 - The webcam is plug-and-play, meaning no additional drivers are typically required. Your operating system should automatically detect and install the necessary components.
4. **Verify Connection:**
 - Open a video conferencing application (e.g., Zoom, Skype, Google Meet) or your computer's camera application.
 - Select the "Provision ISR Webcam" as your video and audio input device in the application settings.

5.0+

The webcam features USB Plug & Play connectivity, compatible with various operating systems and video conferencing applications.

2-Axis Rotating Clip

Physical dimensions of the webcam and the flexibility of its 2-axis rotating clip for optimal positioning.

OPERATING INSTRUCTIONS

Adjusting the LED Fill Light

The webcam features an integrated LED fill light with three adjustable brightness levels to ensure you are well-lit in any environment.

- To turn on the light or cycle through brightness levels, gently touch the touch-sensitive area on the top of the webcam.
- There are three distinct brightness settings. Continue touching to cycle through the levels and turn the light off.

LED Fill Light

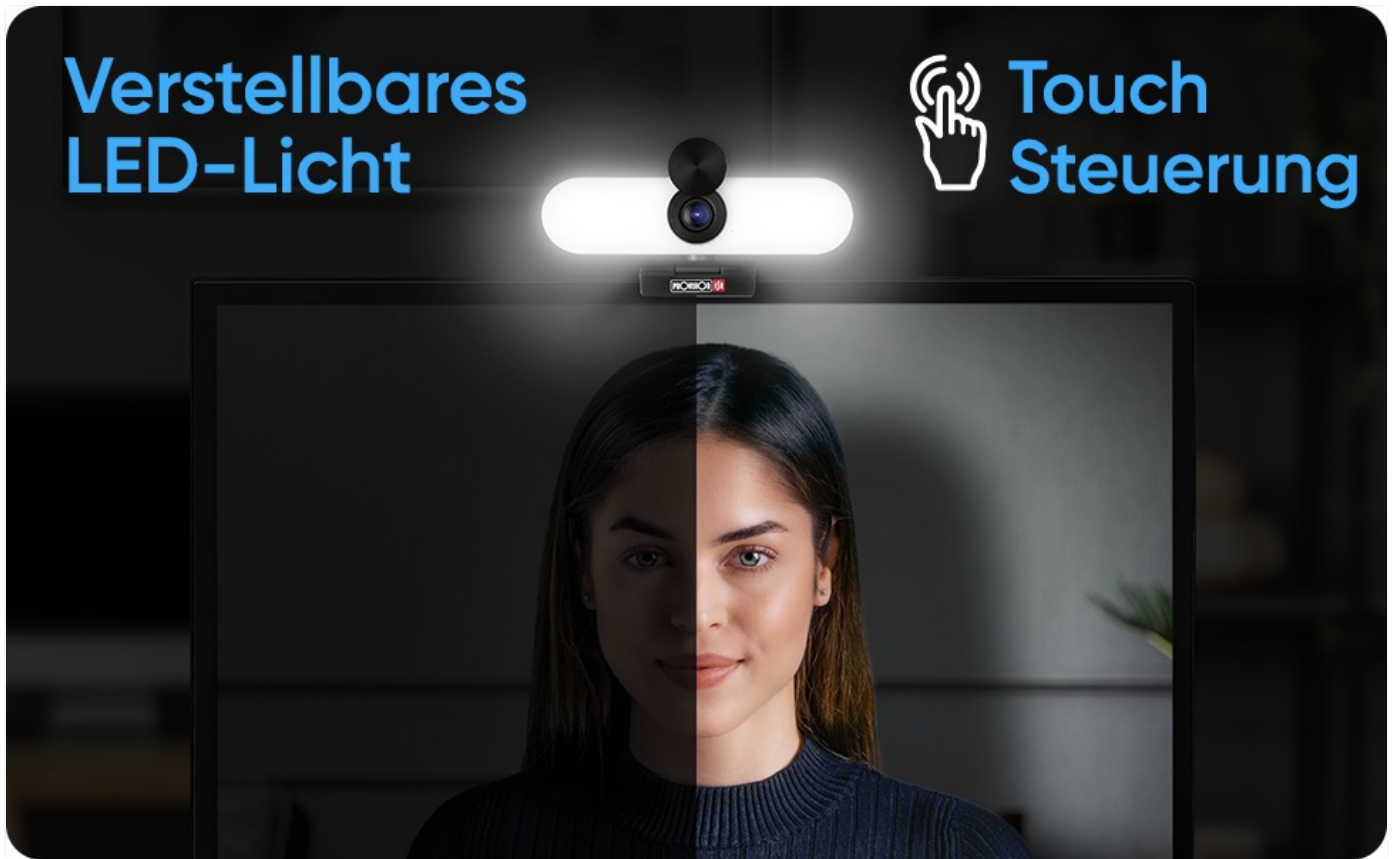

3 Adjustable Levels

Verstellbares LED-Licht

Touch Steuerung

The adjustable LED light is controlled via a simple touch interface.

Using the Privacy Cover

For enhanced privacy and security, the webcam includes a built-in privacy cover.

- To cover the lens, simply slide the cover over the camera lens.
- To uncover the lens, slide the cover away from the camera lens.

The webcam features a built-in privacy cover for security, along with its speaker and microphone.

Sichtschutzlinsenabdeckung

Einfaches Öffnen und Schließen
mit einem Finger

The privacy cover can be easily opened and closed with a single finger.

Video and Audio Quality

The webcam is equipped with a 6-layer F1.6 glass lens for superb video quality and a 100° wide field of view, ideal for conferences and family video calls.

Crystal Clear!

Superb video quality with
6-layer F1.6 glass lens.

100° Wide Field of View

Great for conferences
and family video calls!

The webcam's advanced lens system provides crystal clear video and a wide field of view.

The webcam automatically adjusts for optimal exposure correction.

The webcam provides sharp focus for clear image capture.

COMPATIBILITY

The Provision ISR Webcam is designed for broad compatibility with various operating systems and popular video conferencing applications.

Supported Operating Systems:

- Windows 7, 8, 10
- Mac OS 10.6+
- Android 5.0+
- Xbox
- Chrome OS

Compatible Applications:

- Zoom
- Skype
- WhatsApp
- Facebook Messenger
- Cisco Webex
- Microsoft Teams
- Google Meet
- GoToMeeting
- And many more...

MAINTENANCE

Proper maintenance will ensure the longevity and optimal performance of your webcam.

- **Cleaning the Lens:** Use a soft, lint-free cloth specifically designed for optical lenses to gently wipe the camera lens. Avoid using harsh chemicals or abrasive materials.
- **Cleaning the Body:** Wipe the webcam body with a soft, dry cloth. If necessary, a slightly damp cloth can be used, but ensure no moisture enters the device.
- **Storage:** When not in use for extended periods, store the webcam in a cool, dry place, away from direct sunlight

and extreme temperatures. Use the privacy cover to protect the lens.

- **Avoid Drops and Impacts:** Handle the webcam with care to prevent damage from drops or impacts.

TROUBLESHOOTING

If you encounter issues with your Provision ISR Webcam, try the following troubleshooting steps:

- **Webcam Not Detected:**

- Ensure the USB cable is securely plugged into both the webcam and your computer.
- Try plugging the webcam into a different USB port on your computer.
- Restart your computer.
- Check your operating system's device manager (Windows) or System Information (Mac) to see if the webcam is listed.

- **No Video/Black Screen:**

- Make sure the privacy cover is open.
- Ensure the correct webcam is selected in your video conferencing application's settings.
- Check if another application is currently using the webcam, which might prevent access.

- **No Audio Input (Microphone):**

- Verify that "Provision ISR Webcam" is selected as the microphone input device in your application's audio settings.
- Check your computer's sound settings to ensure the microphone is not muted and its volume is adequate.
- Ensure no other application is exclusively using the microphone.

- **No Audio Output (Speaker):**

- Verify that "Provision ISR Webcam" or "USB Audio Device" is selected as the speaker output device in your application's audio settings and your computer's sound settings.
- Check the volume levels on both your computer and within the application.

- **Poor Video Quality:**

- Ensure the lens is clean (refer to Maintenance section).
- Check your internet connection speed, as a slow connection can affect video quality in online calls.
- Adjust the LED fill light for better illumination.
