SETUP INSTRUCTIONS

1. **Insert SIM Card:** Ensure the included SIM card is correctly inserted into the device.
2. **Connect to Vehicle:** Plug the PAJ USB GPS Finder 4G into your vehicle's 12V cigarette lighter socket. The device will power on automatically.
3. **Register Device:** Access the PAJ FINDER Portal (web or app) and register your device using the provided

serial number. Follow the on-screen instructions to complete the registration process.

4. **Activate Subscription:** Choose and activate a subscription plan (Basic or Premium) through the FINDER Portal. Details on plans and pricing are available within the portal.
5. **Start Tracking:** Once registered and subscribed, you can immediately begin tracking your vehicle in real-time via the FINDER Portal app or website.

Real-time Tracking

To view your vehicle's current location, open the FINDER Portal app on your smartphone or access the web portal on a computer or tablet. The device's location will be displayed on a map in real-time.

Image: A smartphone screen displaying the PAJ GPS Finder app, showing a car being tracked in real-time on a road, with its current position clearly marked.

Route History and Analysis

The FINDER Portal stores up to 365 days of route history. You can review past routes, including details on travel time, speed, and stops. This feature is accessible through the app or web portal.

Alarm Functions

Configure various alarms and notifications within the FINDER Portal:

- **SOS Alarm:** Press the SOS button on the device to send an immediate alert to pre-configured contacts.
- **Speed Alarm:** Receive notifications if the vehicle exceeds a set speed limit.
- **Geofence (Secure Area) Alarm:** Set virtual boundaries on the map. You will be notified if the vehicle enters or exits these designated areas.
- **Voltage Alarm:** Alerts for unusual voltage fluctuations.

Image: A smartphone screen displaying a speed alarm notification, indicating that the set speed limit has been exceeded.

Charging Functionality

The device includes USB and USB-C ports, allowing you to charge your mobile devices while the GPS Finder is plugged into the cigarette lighter socket.

MAINTENANCE

To ensure the longevity and optimal performance of your PAJ USB GPS Finder 4G:

- Keep the device clean and free from dust and debris. Use a soft, dry cloth for cleaning.
- Ensure the device is securely plugged into the cigarette lighter socket to maintain a stable power connection.
- Avoid exposing the device to extreme temperatures or direct sunlight for prolonged periods.
- While the device is water-resistant, avoid submerging it in water or exposing it to heavy rain.

TROUBLESHOOTING

If you encounter issues with your PAJ USB GPS Finder 4G, consider the following:

- **No Power/Device Not Turning On:**
 - Check if the cigarette lighter socket in your vehicle is functional. Test with another device if possible.
 - Ensure the device is fully inserted into the socket.
- **No GPS Signal/Inaccurate Location:**
 - Ensure the vehicle is in an open area with a clear view of the sky. GPS signals can be obstructed by buildings, tunnels, or dense foliage.
 - Verify that your subscription plan is active and the SIM card is correctly inserted and functional.
- **App/Portal Issues:**
 - Check your internet connection on your smartphone, tablet, or computer.
 - Ensure the FINDER Portal app is updated to the latest version.
 - Try logging out and logging back into your account.

For further assistance, please contact PAJ GPS customer support.

SPECIFICATIONS

Brand	PAJ GPS
Manufacturer	PAJ GPS
Model Name	4G - Cigarette Lighter - GPS + Charging
Item Model Number	4G- Sigarettenaansteker- GPS + Opladen
Product Dimensions	4.7 x 2.6 x 8.5 cm
Item Weight	50 grams
Batteries	1 Lithium Polymer battery required (included)
Average Battery Life	30 Minutes (internal backup battery)
Power Source	Vehicle Powered (12V cigarette lighter)
Connectivity Technology	USB, 4G LTE
Connector Type	USB
Compatible Devices	Smartphone
Supported Application	GPS (FINDER Portal)
Additional Features	Location History, Battery Life Indicator, Water Resistant, Real-time Tracking
Included Components	USB Cable, SIM Card (pre-installed)
