4. Setup

4.1 SIM Card Installation

1. Locate the SIM card tray on the side of your device.
2. Insert the SIM card tray pin into the small hole next to the tray to eject it.
3. Place your Nano-SIM card(s) and/or microSD card (if applicable) into the tray with the gold contacts facing down.

4. Carefully reinsert the tray into the phone.

4.2 Initial Power On

Press and hold the Power button located on the side of the device until the TCL logo appears. Follow the on-screen prompts to complete the initial setup, including language selection, Wi-Fi connection, and Google account setup.

4.3 Network Connection

The TCL 10L is compatible with GSM carriers (e.g., AT&T, T-Mobile) and certified for use on Verizon's LTE network. If you experience issues with messages or phone calls on Verizon, your account may require provisioning for "CDMA-less" devices. Contact Verizon's technical support for assistance.

5. Operating Your Device

5.1 Display Features

The 6.53-inch FHD+ Dotch LCD display is powered by NXTVISION technology, enhancing color, clarity, and contrast. It includes eye protection modes for comfortable viewing over extended periods.

5.2 Camera System

The device features a 48MP AI-powered quad rear camera (48MP + 8MP + 2MP + 2MP) and a 16MP front-facing camera. This system supports high-resolution photos, wide-angle shots, macro photography, and depth effects for portraits.

7. Maintenance

- **Software Updates:** Regularly check for and install system updates to ensure optimal performance and security.
- **Cleaning:** Use a soft, lint-free cloth to clean the screen and body of the phone. Avoid harsh chemicals.
- **Battery Care:** To prolong battery life, avoid extreme temperatures and do not leave the device fully charged or fully discharged for extended periods.

- **Storage Management:** Periodically review and delete unnecessary files or applications to free up storage space and maintain performance.

8. Troubleshooting

- **Device Not Responding:** If the device freezes, press and hold the Power button for approximately 10 seconds to force a restart.
- **Network Issues:** Ensure your SIM card is correctly inserted. For Verizon network issues, contact Verizon support to confirm your account is provisioned for "CDMA-less" devices.
- **Battery Draining Quickly:** Reduce screen brightness, close unused apps, and disable unnecessary features like Bluetooth or GPS when not in use.
- **Camera Not Working:** Check app permissions for the camera. Restart the device if the issue persists.
