

ORICO LST-4A-SV-BP-US-NEW

ORICO Adjustable Laptop Stand with 4 Port USB 3.0 Hub

Model: LST-4A-SV-BP-US-NEW

1. INTRODUCTION

This manual provides instructions for the setup, operation, maintenance, and troubleshooting of your ORICO Adjustable Laptop Stand with an integrated 4-port USB 3.0 Hub. Please read this manual carefully before using the product to ensure proper function and longevity.

2. PRODUCT FEATURES

- **Adjustable Height & Angle:** Ergonomic design allows for adjustment to an ideal height and angle, promoting proper posture and reducing neck and spine strain.
- **Efficient Heat Dissipation:** Constructed from high-quality aluminum, the stand effectively absorbs and dissipates heat. The hollow design further enhances airflow for optimal cooling.
- **Enhanced Stability:** Made from durable aluminum alloy, the stand is heavy-duty and stable, supporting up to 10 kg (22 lbs) without wobbling during use. Integrated rubber pads prevent scratches to your laptop and the stand.
- **Wide Compatibility:** Designed to accommodate all laptops and tablets ranging from 10 to 15.6 inches, including models like MacBook, Dell XPS, and Lenovo.
- **Integrated 4-Port USB 3.0 Hub:** Features four USB 3.0 output interfaces for connecting peripherals and a USB 3.0 input interface for connecting to your computer. A dedicated 5V 2A power supply port is also included for the hub.

3. PACKAGE CONTENTS

Upon opening the package, verify that all components are present and undamaged:

- ORICO Adjustable Laptop Stand with Integrated USB Hub
- USB-A to USB-C Cable (for connecting the hub to your laptop)
- USB-A to USB-A Cable (for connecting the hub to your laptop)
- Instruction Manual

Note: A 5V/2A power adapter for the USB hub is not included and may need to be purchased separately if additional power is required for connected devices.

4. SETUP INSTRUCTIONS

1. **Unfold the Stand:** Carefully unfold the laptop stand. The hinges are designed to be stiff to ensure stability, so apply firm, even pressure.
2. **Adjust Height and Angle:** Adjust the stand to your desired height and viewing angle. The adjustable arms allow for various configurations to suit your ergonomic needs. A certain resistance during adjustment is normal and contributes to the stand's load-bearing capacity and stability.

Height and Angle Adjustable

for better posture and ergonomics

Image: The stand can be adjusted to various heights and angles to promote ergonomic posture.

3. **Place Your Laptop:** Position your laptop or tablet on the stand's platform. The front lip and non-slip rubber pads will secure your device in place.

Image: A laptop securely placed on the ORICO stand, demonstrating its elevated position.

4. **Connect the USB Hub:** Connect one of the provided USB cables (USB-A to USB-C or USB-A to USB-A, depending on your laptop's ports) from the stand's USB 3.0 input interface to an available port on your laptop.

Image: Close-up of the stand's integrated USB hub, highlighting the input and output ports.

5. **Optional Power Connection:** If you plan to connect multiple power-intensive devices to the USB hub, connect an external 5V/2A power adapter (not included) to the dedicated power supply port on the stand.

5. OPERATING INSTRUCTIONS

5.1. Adjusting the Stand

The stand features robust hinges that allow for precise adjustment of both height and tilt angle. To adjust, firmly hold the base and the laptop platform, then carefully move the arms to the desired position. The stiff mechanism ensures that once set, the stand maintains its position securely.

5.2. Using the USB 3.0 Hub

Once the stand's USB input is connected to your laptop, the four USB 3.0 output ports become active. You can connect various USB devices such as external hard drives, keyboards, mice, or flash drives to these ports for data transfer and power.

6. MAINTENANCE

- **Cleaning:** Wipe the stand with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, followed by immediate drying. Avoid abrasive cleaners or solvents.
- **Storage:** When not in use, the stand can be folded flat for easy storage and portability.

Folding Design for Easy Storage

Storage in your laptop bag when in business

7. TROUBLESHOOTING

- **USB Hub Not Functioning:** Ensure the USB input cable is securely connected to both the stand and your laptop. Try connecting to a different USB port on your laptop.
- **Devices Not Receiving Enough Power:** If power-intensive devices (e.g., external hard drives) are not working correctly, connect an external 5V/2A power adapter (not included) to the stand's dedicated power supply port. This provides additional power to the hub.
- **Stand Feels Too Stiff to Adjust:** The hinges are designed to be stiff for stability. Apply firm,

even pressure when adjusting. Do not force the stand beyond its intended range of motion.

- **Laptop Sliding Off:** Ensure your laptop is placed correctly within the front lip and on the rubber pads. Verify that the rubber pads are clean and intact.
