Volowoo Bed

Volowoo Toddler Bed Frame Instruction Manual

Model: Bed

Important Safety Information

Please read and understand all instructions before assembly and use. Keep this manual for future reference.

- Always use the guardrails to prevent falls.
- Be careful around sharp edges during assembly and use.
- Do not exceed a weight limit of 200 pounds.
- Ensure all screws and fasteners are securely tightened before use. Periodically check and retighten as necessary.
- Do not allow children to jump on the bed.
- Keep small parts away from children during assembly to prevent choking hazards.

Package Contents

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Bed Frame Components (Headboard, Footboard, Side Rails, Guardrails, Slats)
- Hardware Pack (Screws, bolts, nuts, Allen wrench)
- Instruction Manual (This document)

Note: Mattress is not included.

Assembly Instructions

Assembly typically requires two adults. Lay out all parts on a soft, clean surface to prevent scratches. Refer to the included hardware diagram for part identification.

Step 1: Identify Components

Unpack all components and identify them using the provided parts list. Separate hardware into distinct groups.

Image: All components of the Volowoo Toddler Bed Frame laid out with key dimensions labeled. This includes the headboard, footboard, side rails, and guardrails, showing the overall length of 53 inches, width of 30 inches, and total height of 24.5 inches. The guardrail is 22 inches long and 10 inches high, and the bed is 8 inches from the floor.

Step 2: Attach Side Rails to Headboard and Footboard

Connect the long side rails to the headboard and footboard using the provided bolts and an Allen wrench. Ensure the guardrail attachment points are facing upwards and inwards.

Step 3: Install Guardrails

Attach the shorter guardrails to the side rails as indicated in the diagram. These provide safety for the child.

Step 4: Place Bed Slats

Evenly space and secure the wooden bed slats across the frame. Ensure each slat is firmly attached to support the mattress.

Step 5: Final Tightening

Once all components are in place, carefully go over all connections and tighten all screws and bolts. Do not overtighten.

Usage

This toddler bed is designed for children transitioning from a crib. Its low height and integrated guardrails provide a safe

and accessible sleeping environment.

- Ensure the mattress fits snugly within the bed frame to prevent gaps.
- Regularly check the stability of the bed frame and tighten any loose fasteners.
- The bed is 8 inches from the floor, making it easy for toddlers to get in and out independently.

Maintenance

Proper care will extend the life of your Volowoo Toddler Bed Frame.

- Clean the wood surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- Wipe up spills immediately to prevent staining or damage to the wood finish.
- Periodically inspect all hardware and connections. Tighten any loose screws or bolts to maintain structural integrity.
- Avoid exposing the bed to extreme temperatures or humidity, which can cause wood to warp or crack.

Troubleshooting

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware.	Check and tighten all screws and bolts. Ensure all components are correctly aligned.
Parts do not fit together.	Incorrect orientation of parts; manufacturing defect.	Review the assembly diagram carefully. If parts still do not fit, contact customer support.
Screws seem too short for slats.	Incorrect screws used; slats not fully seated.	Ensure you are using the correct screws for the slats. Press slats firmly into place before screwing. If issue persists, contact customer support.
Missing parts.	Packaging error.	Contact customer support immediately with your purchase details.

Specifications

Feature	Detail
Brand	Volowoo
Model Number	Bed
Material	Pine Wood & Plywood
Color	Brown
Product Dimensions (L x W x H)	53" x 30" x 24.5"
Item Weight	20.9 lbs / 9.5 kg
Ground to Item Distance	8 Inches
Maximum Weight Capacity	200 lbs (as per product description, manual may state 50 lbs)

Feature	Detail
Assembly Required	Yes
