2. SAFETY INFORMATION

Your safety and the safety of your children are paramount. Adhere to all warnings and instructions provided.

- **Adult Assembly Required:** This product must be assembled by adults.
- **Weight Capacity:** The upper bunk has a maximum weight capacity of 175 lbs. The lower bunk has a maximum weight capacity of 300 lbs. Do not exceed these limits.
- **Mattress Requirements:** The recommended mattress thickness for the upper bunk is 6 inches. The recommended mattress thickness for the lower bunk is 8 inches. Ensure mattresses fit snugly to prevent entrapment.
- **Guardrails:** The upper bunk is equipped with full-length guardrails for safety. Ensure they are always properly installed and secured.
- **Ladder Safety:** Always use the provided ladder for access to the upper bunk. Do not jump on or off the bunk bed.
- **Low Profile Design:** The lower bunk is designed to be close to the floor, reducing the risk of falls for younger children.

- **No Rough Play:** Prohibit rough play on or under the bunk bed.
- **Regular Checks:** Periodically check all connections and hardware to ensure they remain tight and secure.
- **Ventilation:** Ensure adequate ventilation around the bed.

3. PACKAGE CONTENTS

Before assembly, verify that all components are present and undamaged. This product is shipped in **two (2) packages**.

Expected contents include:

- Wood components (frame pieces, roof panels, window panels, ladder rungs, slats)
- Hardware pack (screws, bolts, nuts, washers, dowels)
- Assembly tools (e.g., Allen wrench)
- Detailed assembly instructions (separate sheet)

If any parts are missing or damaged, do not proceed with assembly. Contact SOFTSEA customer support immediately.

4. SETUP (ASSEMBLY INSTRUCTIONS)

Assembly requires at least two adults. Clear a spacious area for assembly and keep all hardware out of reach of small children.

1. **Prepare the Area and Unpack:** Lay out all components on a soft, clean surface to prevent scratches. Identify each part using the included parts list.
2. **Assemble the Main Bed Frames:** Begin by constructing the lower and upper bed frames. Connect the side rails to the headboards and footboards using the provided hardware. Ensure all connections are finger-tight at this stage.

4. **Install the Ladder:** Securely attach the ladder to the bunk bed frame using the specified hardware. Ensure it is firmly in place and does not wobble.

Image 4.3: The integrated ladder, showing its rungs and attachment points to the bunk bed frame.

5. **Install Bed Slats:** Place the wooden slats across the bed frames for mattress support. Secure them according to the instructions to prevent movement.
6. **Tighten All Connections:** Once all components are in place, systematically tighten all screws, bolts, and fasteners. Do not overtighten, but ensure all connections are firm and secure.
7. **Final Check:** Gently shake the assembled bed to confirm stability. Ensure there are no loose parts or sharp edges.

Note: Refer to the separate detailed assembly manual included in your package for step-by-step diagrams and specific hardware identification.

5. OPERATING (USAGE)

- **Mattress Placement:** Place the appropriate size and thickness mattress on each bunk. Ensure the top surface of the upper bunk mattress is below the top edge of the guardrails.
- **Ladder Use:** Always use the ladder to access the upper bunk. Ensure children are supervised when using the ladder, especially younger ones.
- **Weight Distribution:** Distribute weight evenly on both bunks. Avoid concentrating weight in one area.
- **General Use:** This bunk bed is designed for sleeping. Avoid using it as a play structure for climbing or jumping, which can lead to injury or damage.

6. MAINTENANCE

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish.
- **Hardware Checks:** Periodically (e.g., monthly) inspect all bolts, screws, and connections. Tighten any that have become loose. Do not overtighten.
- **Structural Integrity:** Regularly check for any signs of wear, cracks, or damage to the wood components. Discontinue use if significant damage is found and contact customer support.
- **Environmental Conditions:** Avoid placing the bed in direct sunlight or near heat sources, which can cause wood to warp or fade. Maintain a stable room temperature and humidity.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware connections.	Re-tighten all bolts and screws. Ensure all components are correctly aligned.
Squeaking noises during use.	Loose connections or friction between wood parts.	Check and tighten all hardware. If squeaking persists, apply a small amount of paraffin wax or silicone spray to friction points (avoiding mattress areas).
Missing or damaged parts upon unboxing.	Shipping damage or packaging error.	Do not proceed with assembly. Contact SOFTSEA customer support immediately for replacement parts.
Ladder feels insecure.	Improper installation or loose fasteners.	Ensure the ladder is correctly attached and all securing hardware is fully tightened.
