

## LuFun AMZ0036

# LuFun Flush Mount Ceiling Light Instruction Manual

Model: AMZ0036

## 1. INTRODUCTION

Thank you for purchasing the LuFun Flush Mount Ceiling Light. This modern LED fixture offers dimmable lighting with adjustable color temperatures (3000K-6500K) and convenient remote control operation. Designed for easy installation and energy efficiency, it provides versatile lighting for various indoor spaces.

## 2. SAFETY INFORMATION

- Always turn off the power at the circuit breaker before installation, cleaning, or servicing.
- This product is designed for indoor use only. Do not expose to moisture or extreme temperatures.
- Ensure all electrical connections are secure and comply with local electrical codes. If unsure, consult a qualified electrician.
- Do not attempt to modify the light fixture. Any modifications may void the warranty and pose a safety risk.
- Keep the remote control and small parts out of reach of children.

## 3. PACKAGE CONTENTS

- LuFun Flush Mount Ceiling Light Fixture (1)
- Remote Control (1)

- Mounting Hardware Kit (screws, wire nuts)
- Instruction Manual (this document)

## 4. INSTALLATION

---

The LuFun Flush Mount Ceiling Light is designed for quick and easy installation. Please follow these steps carefully:

1. **Prepare for Installation:** Turn off power at the main circuit breaker. Ensure the mounting surface is clean and stable.
2. **Attach Mounting Bracket:** Secure the mounting bracket to the junction box in your ceiling using the provided screws.
3. **Connect Wiring:** Connect the household electrical wires to the fixture's wires using the wire nuts. Typically, black to black (live), white to white (neutral), and green/bare copper to green/bare copper (ground).
4. **Mount the Fixture:** Carefully align the light fixture with the mounting bracket and secure it with the provided screws. Ensure the fixture is flush against the ceiling.
5. **Restore Power:** Once the fixture is securely installed, turn the power back on at the circuit breaker.

## 5. OPERATING INSTRUCTIONS

The LuFun Ceiling Light can be controlled via a standard wall switch or the included remote control. The remote allows for advanced functions.

### 5.1. Wall Switch Operation

The light has a memory function. If controlled by a normal wall switch, it will cycle through three color temperatures (Cool White 6000K, Natural Light 4000K, Warm White 3000K) with each toggle of the switch.

### 5.2. Remote Control Functions

The remote control provides full control over the light's features:

Figure 5.1: Remote Control Functions.

- **ON/OFF:** Turns the light on or off.
- **Delay Timer:** Sets the light to turn off after 5, 30, or 60 minutes.
- **Nightlight Mode:** Activates a low-brightness setting.
- **Color Temperature Adjustment:** Gradually changes the color temperature from warm white (3000K) to cool white (6500K).
- **Brightness Adjustment:** Adjusts brightness from 10% to 100%.
- **Light Transform:** Cycles through preset light modes.
- **Match:** Used for pairing the remote with the light fixture (see Troubleshooting for details).

Figure 5.2: Color Temperature Adjustment Options.

## 6. MAINTENANCE

To ensure the longevity and optimal performance of your LuFun Ceiling Light, follow these simple maintenance guidelines:

- **Cleaning:** Before cleaning, ensure the power is turned off. Use a soft, dry cloth to wipe the surface of the fixture. Do not use abrasive cleaners, solvents, or polishes as they may damage the finish or acrylic shade.
- **Inspection:** Periodically check the fixture for any loose connections or signs of damage. If any issues are found, turn off the power and consult a qualified electrician.
- **LED Lifespan:** The integrated LED light source is designed for long-term use and does not require bulb replacement.

## 7. TROUBLESHOOTING

### 7.1. Remote Control Not Working / Pairing

If the remote control does not work or needs to be re-paired with the light fixture, follow these steps:

1. Ensure the remote control has working batteries (this product does not include batteries).
2. Turn off the light switch on the wall.
3. Turn the wall switch ON, and within 3 seconds, press and hold the "1" button (bottom left) on the remote control.
4. Hold the button for about 3-5 seconds until the light flashes once.
5. Release the "1" button to complete the pairing process.

To reset (clear the memory) the remote, remove the batteries for 2 minutes, then re-install them. To clear the light fixture's memory, turn off the wall switch for 15 seconds.

### 7.2. Light Not Turning On

- Check if the power is on at the circuit breaker.
- Verify all electrical connections are secure.
- Ensure the wall switch is in the ON position.

### 7.3. Light Flickers or Dims Unexpectedly

- Ensure the light is not connected to an incompatible dimmer switch. This fixture is dimmable via its remote control, not necessarily all external dimmers.
- Check for loose wiring connections.

## 8. SPECIFICATIONS

Feature	Specification
Brand	LuFun
Model Name	LuFun Ceiling Light
Item Model Number	AMZ0036
Color	Black/Round/Dimmable
Material	Acrylic, Metal, Wood
Product Dimensions	15.75"L x 15.75"W x 1.97"H (Ø40*5 CM)
Light Source Type	LED
Wattage	30 watts
