User Manual for Yaheetech Multi-Level Cat Tree

Model: YT-00104332-69
Brand: Yaheetech

PRODUCT OVERVIEW

The Yaheetech 68.5in Multi-Level Cat Tree is designed to provide a comprehensive activity center for multiple cats. It features various levels and amenities to satisfy a cat's natural instincts for climbing, scratching, playing, and resting.

Image: The Yaheetech 68.5in Multi-Level Cat Tree, showcasing its various platforms, condos, and scratching posts, with cats enjoying the structure.

Key features include:

- **Multi-Cat Design:** Equipped with three perches, two condos, one plush basket, one scratching board, seven scratching posts, and three dangling balls, suitable for two or three normal-sized cats or several kittens.
- **Comfortable Perches:** Three top perches with cat ear designs and removable plush dangling balls for engagement.
- **Furniture Protection:** Multiple scratching posts and a scratching board to redirect scratching behavior from household furniture.
- **Durable Materials:** Constructed from CARB P2-compliant particle board, soft plush fabric, and natural sisal rope for safety and comfort.
- **Enhanced Stability:** Designed for stability with recommendations for placement and includes an anti-toppling kit for secure wall-mounting.

SAFETY INSTRUCTIONS

- Always place the cat tree on a flat, level surface to prevent tipping.
- For enhanced stability, position the cat tree in a corner or against a wall.
- Utilize the provided anti-toppling kit to securely mount the cat tree to a wall, especially in households with active or multiple cats.
- Regularly inspect all components for wear and tear, particularly scratching posts and dangling toys. Replace damaged parts promptly to ensure safety.

- Keep small children away from the cat tree during assembly and ensure all parts are securely fastened before allowing pets to use it.

PACKAGE CONTENTS

The package includes all necessary components for assembly. Please verify that all parts are present before beginning installation.

- Particle board platforms and bases
- Plush-covered posts and condos
- Sisal-wrapped scratching posts
- Plush basket
- Scratching ramp/board
- Dangling toys (balls)
- Assembly hardware (screws, bolts, etc.)

- Anti-toppling kit
- Instruction manual

SETUP AND ASSEMBLY

Assembly of the Yaheetech Cat Tree is required but is designed to be straightforward. The accompanying instructions will guide you through the installation process. It is recommended to have ample space for assembly.

Image: A detailed diagram illustrating the overall dimensions and key measurements of the cat tree's components, useful for planning placement.

General Assembly Tips:

- Identify all parts and hardware using the provided list in the separate instruction manual.
- Follow the step-by-step diagrams in the manual carefully.
- Ensure all screws and connections are tightened securely to maintain stability.
- A Phillips (cross head) screwdriver is required for assembly (not included).

Operating Instructions (Usage)

The Yaheetech Cat Tree is designed for intuitive use by cats of all ages and sizes. Encourage your cats to explore the various levels and features.

Image: A visual breakdown of the cat tree's primary features, including perches, condos, basket, and climbing ramp, highlighting their design and purpose.

- **Climbing and Exploration:** Cats can use the multiple platforms and posts to climb and explore different heights.
- **Resting and Napping:** The two enclosed condos and the plush basket provide cozy, private spaces for rest and sleep.
- **Scratching:** The sisal-covered posts and scratching board are intended for cats to sharpen their claws, protecting your furniture.
- **Play:** The dangling balls attached to the perches offer interactive play opportunities.

MAINTENANCE

Proper maintenance will extend the life of your cat tree and ensure a hygienic environment for your pets.

- **Cleaning:** The plush surfaces can be cleaned by hand washing. For general cleaning, use a hand vacuum to remove loose fur and debris. Spot clean any soiled areas with a mild detergent and damp cloth, then allow to air dry completely.
- **Inspection:** Periodically check all connections and posts for looseness. Tighten any loose screws to maintain structural integrity.
- **Sisal Rope:** While durable, sisal rope will fray over time with regular scratching. Monitor the condition of the scratching surfaces and consider replacing the cat tree or specific posts if they become excessively worn.

Image: A close-up view of the materials used in the cat tree's construction, including the sturdy particle board and the natural sisal rope, emphasizing their durability.

TROUBLESHOOTING

This section addresses common concerns and provides solutions.

Problem	Possible Cause	Solution
Cat tree feels wobbly after assembly.	Loose connections or improper placement.	Ensure all screws and bolts are fully tightened. Place the tree on a flat surface, ideally in a corner or against a wall. Use the anti-toppling kit to secure it to the wall.
Cats are not using the scratching posts.	Cats may prefer other surfaces or need encouragement.	Try sprinkling catnip on the sisal posts. Gently guide your cat's paws to the scratching surface. Ensure the tree is in a prominent location where your cat spends time.
Dangling toys are damaged or detached.	Normal wear and tear from play.	The dangling balls are designed to be removable. If damaged, remove them to prevent ingestion. Replacement toys can often be attached.

SPECIFICATIONS
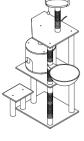

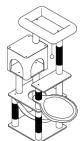

Attribute	Detail
Model Number	YT-00104332-69
Dimensions (L x W x H)	22" x 22" x 68.5"
Item Weight	41.9 Pounds
