BYHUBYENG CS-200E

FLYDOG CS-200E USB Charging Cable and Clip User Manual

Model: CS-200E | Brand: BYHUBYENG

INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your FLYDOG CS-200E USB Charging Cable and Clip. This product is designed specifically for charging the FLYDOG CS-200E wrist receiver.

PACKAGE CONTENTS

- 1 x FLYDOG CS-200E USB Charging Cable and Clip

SETUP

To begin charging your FLYDOG CS-200E wrist receiver, follow these steps:

1. **Identify the Charging Port:** Locate the charging contacts on your FLYDOG CS-200E wrist receiver. These are typically small metal pins.
2. **Connect the Charging Clip:** Align the charging clip with the contacts on the wrist receiver. Gently press the clip to ensure the pins on the clip make secure contact with the receiver's charging points. The clip is designed to hold the receiver firmly in place during charging.
3. **Connect to Power Source:** Plug the USB-A end of the charging cable into a compatible USB power source, such as a computer's USB port, a USB wall adapter, or a power bank.
4. **Verify Charging:** Once connected, the FLYDOG CS-200E wrist receiver should indicate that it is charging (e.g., a battery icon on its display).

Image: A hand demonstrates how to open the charging clip, revealing the charging pins. An inset shows the clip securely attached to the FLYDOG CS-200E wrist receiver, ready for charging.

OPERATING INSTRUCTIONS

This USB charging cable and clip is designed for straightforward use. Its primary function is to provide power to your FLYDOG CS-200E wrist receiver.

- **Charging Time:** Charging time may vary depending on the power source and the current battery level of the wrist receiver.
- **Safe Charging:** Always use a certified USB power adapter (5V/1A recommended) to prevent damage to the cable or your device.
- **Charging Indicator:** Refer to your FLYDOG CS-200E wrist receiver's user manual for specific information on its charging indicators.

Video: This video demonstrates the features and operational functions of the FLYDOG CS-200E wrist receiver, including its waterproof capabilities, signal stability, language settings, and how to add or delete transmitter buttons. This device is charged by the USB cable and clip described in this manual.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the charging cable and clip. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the cable in a cool, dry place away from direct sunlight and extreme temperatures. Avoid bending or kinking the cable excessively.
- **Inspect for Damage:** Regularly inspect the cable and clip for any signs of wear, fraying, or damage. Discontinue use if any damage is found.

TROUBLESHOOTING

- **Device not charging:**
 - Ensure the charging clip is securely attached to the wrist receiver and the pins are making proper contact.
 - Verify that the USB cable is firmly plugged into both the clip and the power source.

- Try a different USB power source or wall adapter to rule out a faulty power supply.
 - Check the charging contacts on both the clip and the receiver for any dirt or debris and clean gently if necessary.
- **Slow charging:**
 - Ensure you are using a power source that provides sufficient current (e.g., a 5V/1A USB adapter). Charging from a computer's USB port might be slower.
