6. TROUBLESHOOTING

If your ALLIMITY RC1994925 remote control is not functioning as expected, please follow these troubleshooting steps:

1. **Check Batteries:** Ensure that the batteries are inserted correctly with the correct polarity (+/-). Replace old

batteries with new AAA alkaline batteries.

2. **Line of Sight:** Make sure there is a clear line of sight between the remote control and the TV's infrared receiver. Obstructions can block the signal.

3. **Remote Control Distance:** Operate the remote within the effective range (approximately 10 meters) of the TV.

4. **TV Compatibility:** Verify that your TV model is listed in the "Compatible TV Models" section of this manual. This remote is designed for specific Thomson and TCL models.

5. **Infrared Interference:** Bright sunlight or strong artificial light sources can sometimes interfere with infrared signals. Try operating the remote in a different lighting condition.

6. **Test Remote:** You can test if the remote is emitting an IR signal using a smartphone camera. Point the remote's IR emitter at your phone's camera and press a button. You should see a small light flashing on your phone screen (not visible to the naked eye). If no light is visible, the remote may be faulty or batteries are completely drained.

7. MAINTENANCE

To ensure the longevity and proper functioning of your remote control, follow these maintenance guidelines:

- **Cleaning:** Wipe the remote control with a soft, dry cloth. Do not use liquid cleaners, abrasive pads, or chemical solvents, as these can damage the surface or internal components.

- **Avoid Moisture:** Keep the remote control away from water, humidity, and other liquids.

- **Temperature:** Do not expose the remote control to extreme temperatures (hot or cold) or direct sunlight for extended periods.

- **Dropping:** Avoid dropping the remote control, as this can cause internal damage.

- **Battery Removal:** If the remote control will not be used for an extended period, remove the batteries to prevent leakage and potential damage.
