Homeleader Upgraded Orange Juicer (Model K37-014) Instruction Manual

Model: K37-014

IMPORTANT SAFEGUARDS

Please read all instructions carefully before using your Homeleader Upgraded Orange Juicer. Keep this manual for future reference.

- Ensure the appliance is unplugged before assembly, disassembly, or cleaning.
- Do not immerse the motor base in water or other liquids. Wipe clean with a damp cloth.
- Keep hands and utensils out of the juicer during operation to prevent injury and damage to the appliance.
- Do not operate the appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- This appliance is for household use only.
- Supervise children closely when the appliance is in use.

PRODUCT OVERVIEW

The Homeleader Upgraded Orange Juicer is designed for efficient and easy citrus juicing. Familiarize yourself with its components:

Image: Exploded view of the Homeleader Upgraded Orange Juicer, showing all detachable parts for easy identification and cleaning. Components include the dust cover, large cone, small cone, filter, juice container, shaft, LED lamp, and motor base.

- **Dust Cover:** Protects the juicing cone when not in use.
- **Large Juicing Cone:** For larger citrus fruits like oranges and grapefruits.
- **Small Juicing Cone:** For smaller citrus fruits like lemons and limes.
- **Filter:** Separates pulp and seeds from the juice.
- **Juice Container (1.2L Capacity):** Collects the extracted juice. Features measurement markings.
- **Shaft:** Connects the juicing cone to the motor.
- **LED Lamp:** Indicator light for operation.
- **Motor Base:** Houses the powerful 40W motor and power controls.

BIG juicing cone

SMALL juicing cone

2 INTERCHANGEABLE JUICING CONES

Image: A close-up of the two interchangeable juicing cones, a larger one for oranges and a smaller one for lemons, highlighting their distinct sizes for optimal juice extraction from various citrus fruits.

SETUP

Before first use, wash all detachable parts (cones, filter, juice container, dust cover) in warm, soapy water or on the top rack of your dishwasher. Wipe the motor base with a damp cloth.

1. Place the motor base on a stable, flat surface.
2. Align the juice container with the motor base and gently twist until it locks into place.
3. Insert the filter into the juice container.
4. Select the appropriate juicing cone (large for oranges/grapefruits, small for lemons/limes) and place it onto the shaft, ensuring it is securely seated.
5. Place the dust cover over the cone if not juicing immediately.

1 Cut the citrus fruits to be squeezed in half

2 Choose the suitable cones. Unroll the cord and then plug in

3 Turn on the juicer by pushing down on the piece of citrus fruit once it has been placed on the juicing cone

4 Then enjoy your juice

Image: A four-panel image illustrating the simple steps to use the juicer: 1. Cut citrus fruits in half. 2. Choose the suitable cone, unroll the cord, and plug in. 3. Turn on the juicer by pushing down on the fruit. 4. Enjoy your juice.

OPERATING INSTRUCTIONS

Enjoy fresh juice with minimal effort.

1. Prepare your citrus fruit by washing it thoroughly and cutting it in half.
2. Ensure the juicer is properly assembled and plugged into a 110V power outlet. The LED indicator light will illuminate.
3. Place one half of the fruit, cut-side down, onto the selected juicing cone.
4. Gently press down on the fruit. The motor will automatically start, and the cone will begin to rotate bidirectionally to extract maximum juice.
5. Continue pressing until all juice is extracted. The pulp and seeds will be collected in the filter.
6. Release pressure to stop the motor.
7. To dispense juice, pull down the anti-drip spout located on the front of the juice container. Push it up to stop the flow.

BIDIRECTIONAL ROTATION FOR JUICING

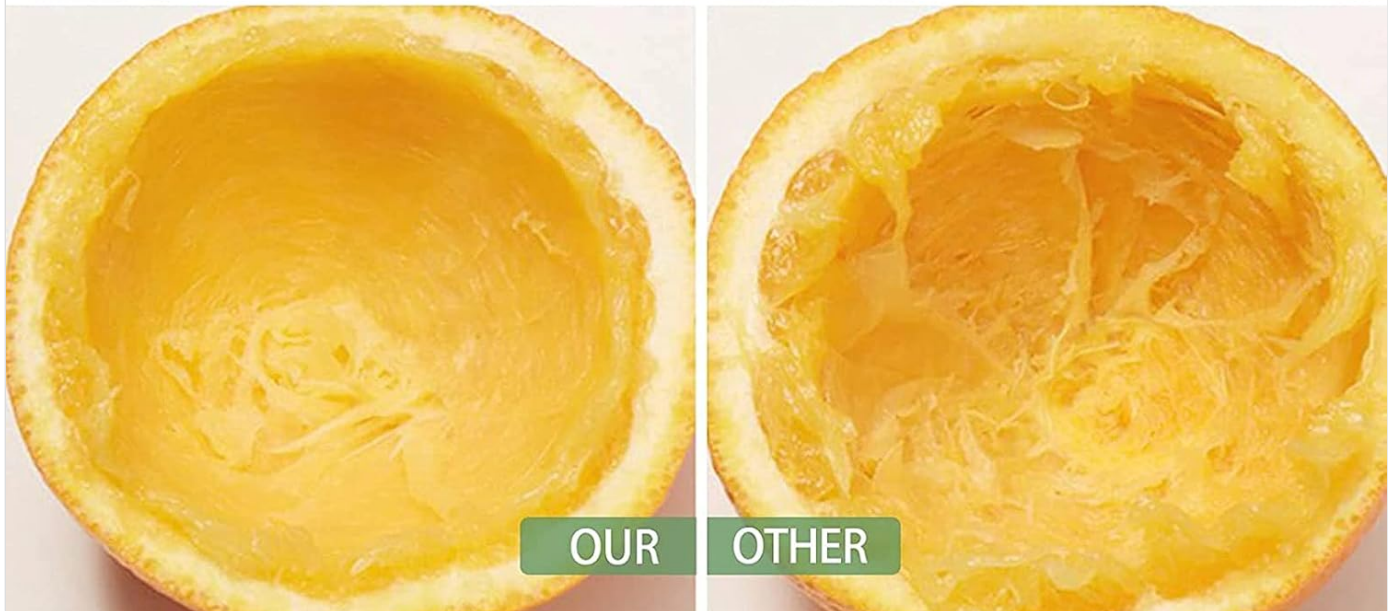

Image: A visual comparison demonstrating the efficiency of the juicer's bidirectional rotation, showing a thoroughly extracted fruit half on the left compared to a less extracted one on the right.

Pulp Control

The integrated filter effectively separates pulp and seeds, ensuring a smooth juice. For those who prefer more pulp, some pulp will naturally pass through the filter. The lever mechanism extracts up to 30% more juice.

Video: This video provides a step-by-step demonstration of how to operate the Homeleader electric citrus juicer, from preparing the fruit to dispensing the fresh juice.

MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and hygiene.

1. Unplug the juicer from the power outlet before cleaning.
2. Disassemble all detachable parts: dust cover, juicing cone(s), filter, and juice container.
3. Wash these parts in warm, soapy water or place them on the top rack of your dishwasher.

4. Wipe the motor base with a soft, damp cloth. Do not immerse the motor base in water.
5. Ensure all parts are completely dry before reassembling or storing the juicer.

Image: The disassembled components of the juicer, including the juice container, filter, and juicing cones, are shown being rinsed under running water in a kitchen sink, illustrating the ease of cleaning.

TROUBLESHOOTING

If you encounter any issues, refer to the following common problems and solutions:

- **Juicer does not turn on:**
 - Ensure the power cord is securely plugged into a working outlet.
 - Check that the juice container is correctly locked onto the motor base.
 - Verify that you are applying sufficient downward pressure on the fruit to activate the motor.
- **Low juice yield:**
 - Ensure you are using the correct size juicing cone for your fruit.

- Apply firm, consistent downward pressure on the fruit.
- The bidirectional rotation should help extract maximum juice.

- **Excessive pulp in juice:**

- Check that the filter is correctly installed.
- Clean the filter regularly to prevent blockages.

SPECIFICATIONS

Feature	Specification
Brand	Homeleader
Model	K37-014
Color	Black
Product Dimensions	6.5"D x 8"W x 9.5"H
Capacity	1.2 Liters
Maximum Power	40 Watts
Power Source	Corded Electric
Blade Material	Stainless Steel
Voltage	110V
Is Dishwasher Safe	Yes (Detachable parts, top rack)
Item Weight	2.2 pounds

PRODUCT SIZE

(8.0*6.5*9.5inch)
