

## WUBEN L60

# WUBEN L60 Rechargeable Tactical Flashlight User Manual

Model: L60

## INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your WUBEN L60 Rechargeable Tactical Flashlight. Please read this manual thoroughly before operating the device and retain it for future reference. The WUBEN L60 is a versatile, high-lumen flashlight designed for various applications including outdoor activities, camping, and emergency situations.

## PRODUCT OVERVIEW

The WUBEN L60 is a multi-functional zoomable flashlight featuring a powerful XP-L2 V6 LED, delivering up to 1200 lumens. It is designed for durability and convenience, incorporating a waterproof Micro-USB charging port and an adjustable beam for both spotlight and floodlight illumination.

### Key Features:

- **High Lumens Output:** Up to 1200 lumens for powerful illumination.
- **Zoomable Function:** Easily switch between spot and flood beams by rotating the flashlight head.
- **Multiple Lighting Modes:** 5 modes including High, Mid, Low, Eco, and SOS.
- **Rechargeable:** Built-in Micro-USB charging port for direct battery charging.
- **Durable Construction:** IP68 waterproof rating and robust aluminum material.
- **Portable Design:** Compact and includes a wrist strap for easy carrying.

### Package Contents:

- 1 x WUBEN L60 LED Flashlight
- 1 x USB Charging Cable
- 1 x Wrist Strap
- 1 x User Manual

## SETUP

### 1. Battery Installation

1. Unscrew the tail cap of the flashlight.
2. Insert the provided high-drain battery with the positive (+) end facing towards the flashlight head.
3. Screw the tail cap back on securely to ensure proper contact and water resistance.

Video: Demonstrates battery installation and basic operation of the WUBEN L60 flashlight.

### 2. Charging the Battery

The WUBEN L60 features a built-in Micro-USB charging port for convenient recharging.

1. Locate the Micro-USB port on the tail cap of the flashlight. It is protected by a rubber cover.
2. Gently lift the rubber cover to expose the charging port.

3. Connect the provided USB cable to the flashlight's Micro-USB port and the other end to a USB power source (e.g., computer, wall adapter).
4. The charging indicator light will illuminate:
  - **Red Light:** Indicates the battery is charging.
  - **Green Light:** Indicates the battery is fully charged.
5. Once charging is complete, disconnect the USB cable and firmly close the rubber cover to maintain water resistance.

---

## OPERATION

### 1. Power On/Off

- To turn the flashlight **ON**, press the tail switch button firmly until it clicks.
- To turn the flashlight **OFF**, press the tail switch button firmly again until it clicks.

### 2. Mode Switching

The WUBEN L60 offers five lighting modes: High, Mid, Low, Eco, and SOS.

- With the flashlight **ON**, lightly press the tail switch button (without clicking) to cycle through the modes in the order: High → Mid → Low → Eco.
- To activate **SOS mode**, quickly double-press the tail switch button.
- The flashlight has a mode memory function, meaning it will turn on in the last used general lighting mode (High, Mid, Low, Eco).

### 3. Zoom Function (Spotlight and Floodlight)

The WUBEN L60 features a zoomable head, allowing you to adjust the beam from a focused spotlight to a wide floodlight.

- To switch to a **spotlight beam**, rotate the head of the flashlight clockwise until it is fully extended. This concentrates the light for long-distance illumination.
- To switch to a **floodlight beam**, rotate the head of the flashlight counter-clockwise until it is fully retracted. This spreads the light over a wider area for close-range visibility.

## MAINTENANCE

- **Cleaning:** Regularly clean the flashlight body with a soft, damp cloth. For the lens, use a lens cleaning cloth to avoid scratches.
- **Lubrication:** Apply a thin layer of silicone grease to the O-rings periodically to maintain water resistance.
- **Battery Care:** If the flashlight will not be used for an extended period, remove the battery to prevent leakage. Store the battery in a cool, dry place.
- **Storage:** Store the flashlight in a cool, dry environment away from direct sunlight and extreme temperatures.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Flashlight does not turn on.	<ul style="list-style-type: none"><li>• Battery is depleted.</li><li>• Battery is incorrectly inserted.</li><li>• Tail cap is loose.</li></ul>	<ul style="list-style-type: none"><li>• Charge the battery.</li><li>• Ensure battery is inserted with positive (+) end towards the head.</li><li>• Tighten the tail cap securely.</li></ul>
Light output is dim or flickers.	<ul style="list-style-type: none"><li>• Low battery level.</li><li>• Poor contact between battery and terminals.</li></ul>	<ul style="list-style-type: none"><li>• Recharge the battery.</li><li>• Clean battery contacts and ensure secure fit.</li></ul>

Problem	Possible Cause	Solution
Charging indicator does not light up.	<ul style="list-style-type: none"><li>• USB cable not properly connected.</li><li>• Power source issue.</li></ul>	<ul style="list-style-type: none"><li>• Ensure USB cable is firmly connected to both flashlight and power source.</li><li>• Try a different USB cable or power adapter.</li></ul>

## SPECIFICATIONS

Feature	Detail
Model	L60
Light Source	XP-L2 V6 LED
Maximum Output	1200 Lumens
Power Source	Battery Powered (1 C battery required, Lithium)
Charging Port	Micro-USB
Water Resistance	IP68 Waterproof
Material	Aluminum
Item Weight	175 Grams
Dimensions (LxWxH)	Approximately 5.91 x 3.15 x 1.57 inches
