OTOUCH AIRTURN-3

OTouch AirTurn3 Male Masturbator Instruction Manual

Model: AIRTURN-3

1. INTRODUCTION

This manual provides detailed instructions for the safe and effective use, maintenance, and care of your OTouch AirTurn3 Male Masturbator. Please read this manual thoroughly before first use and retain it for future reference. Proper use ensures optimal performance and longevity of the device.

2. PRODUCT OVERVIEW

The OTouch AirTurn3 is designed for personal use, featuring a main unit with integrated controls and a removable inner sleeve. The device offers various stimulation modes for a customizable experience.

Figure 2.1: OTouch AirTurn3 Main Unit. The device is black with a sleek, ergonomic design. The control panel is located at the top, featuring a joystick and various function indicators.

Figure 2.2: OTouch AirTurn3 with Removable Sleeve. The main unit is shown next to its soft, body-safe TPR inner sleeve, which features internal textures for enhanced sensation.

Components:

- **Main Unit:** Houses the motor, battery, and control panel.
- **Inner Sleeve:** Made from body-safe TPR material, designed for insertion. It is removable for cleaning.
- **Control Panel:** Located at the top of the main unit, featuring a 4-way joystick for operation.
- **USB Charging Cable:** For recharging the device's internal battery.
- **Storage Bag:** For discreet storage and transport.

3. SETUP

3.1 Initial Charging

1. Before first use, fully charge the OTouch AirTurn3.
2. Connect the provided USB charging cable to the charging port on the device.

3. Plug the other end of the USB cable into a compatible USB power source (e.g., computer, wall adapter).
4. The charging indicator light will illuminate. Once fully charged, the light will change or turn off (refer to specific indicator behavior in the device's quick start guide if available).
5. A full charge provides hours of use.

3.2 Preparation for Use

- Ensure the inner sleeve is clean before each use (refer to Section 5: Maintenance and Cleaning).
- Apply a generous amount of water-based lubricant to the inner sleeve and the area of application for comfortable and enhanced experience.

4. OPERATING INSTRUCTIONS

The OTouch AirTurn3 features a user-friendly 4-way joystick control for power, suction, and vibration settings.

Figure 4.1: Control Panel Detail. The joystick is central, surrounded by indicators for suction (wave symbol) and vibration (plus/minus for intensity, circle for power).

4.1 Power On/Off

- To power on the device, press and hold the joystick in the **downward direction** for approximately 2 seconds.
- To power off the device, press and hold the joystick in the **downward direction** for approximately 2 seconds again.

4.2 Adjusting Suction Modes

- The device offers 3 distinct suction modes.
- While the device is on, push the joystick **upward** to cycle through the available suction modes.

4.3 Adjusting Vibration Patterns and Intensities

- The device features 6 vibration patterns, each with 3 intensity levels.
- To change the vibration pattern, push the joystick to the **left** or **right**.
- To adjust the vibration intensity within a pattern, briefly press the joystick **downward** (do not hold for 2 seconds, as this will power off the device).

5. MAINTENANCE AND CLEANING

Proper cleaning and maintenance are essential for hygiene and to prolong the life of your OTouch AirTurn3.

5.1 Cleaning Instructions

1. After each use, power off the device.
2. Carefully remove the inner sleeve from the main unit.
3. Wash the inner sleeve thoroughly with lukewarm water and a specialized sex toy cleaner or mild soap. Rinse completely to remove all residue.
4. The main unit is IPX6 waterproof, meaning it can withstand powerful water jets. It can be rinsed under running water, but avoid submerging it for extended periods. Ensure the charging port cover is securely closed before rinsing.
5. Allow both the sleeve and the main unit to air dry completely before reassembling or storing.

5.2 Storage

- Store the OTouch AirTurn3 in a clean, dry place, away from direct sunlight and extreme temperatures.
- Use the provided storage bag for discreet and protected storage.
- Keep out of reach of children.

6. TROUBLESHOOTING

If you encounter issues with your OTouch AirTurn3, please refer to the following common solutions:

- **Device does not turn on:**
 - Ensure the device is fully charged. Connect it to the charger and wait for the charging indicator.
 - Confirm you are pressing and holding the joystick in the **downward direction** for at least 2 seconds to power on. A quick press will not activate it.
- **Vibration or Suction feels weak:**
 - Ensure the device is fully charged. Low battery can affect motor performance.
 - Cycle through different vibration patterns and intensity levels (refer to Section 4.3).
 - Cycle through different suction modes (refer to Section 4.2).
- **Difficulty inserting or discomfort during use:**
 - Ensure sufficient water-based lubricant is applied to both the sleeve and the area of application.
 - Verify the inner sleeve is correctly inserted into the main unit.

If these steps do not resolve the issue, please contact OTOUCH customer support for further assistance.

7. SPECIFICATIONS

Model Number	AIRTURN-3
Brand	OTOUCH
Material	Silicone (outer), TPR (inner sleeve)
Color	Black
Dimensions (L x W x H)	10.24 x 4.72 x 4.72 inches
Weight	1.98 Pounds
