Bostitch B175-GOLD

Bostitch Heavy Duty Stapler B175-GOLD User Manual

Model: B175-GOLD | Brand: Bostitch

1. INTRODUCTION

This manual provides instructions for the safe and efficient use of your Bostitch Heavy Duty Stapler, Model B175-GOLD. This compact stapler is designed for durability and high performance, capable of stapling up to 40 sheets of paper with its no-jam technology and flat clinch design.

2. PRODUCT FEATURES

The Bostitch Heavy Duty Stapler B175-GOLD incorporates several features designed for enhanced performance and user convenience:

- **40 Sheet Capacity:** Staples up to 40 sheets of standard paper, exceeding the capacity of many standard staplers.
- **No-Jam Technology:** Engineered to prevent staple jams, ensuring consistent and reliable operation.
- **Flat Clinch Design:** Staples are formed flat against the paper, resulting in neater, flatter paper stacks that take up less space.
- **180-Degree Opening:** The stapler opens fully to 180 degrees, allowing for tacking documents to bulletin boards or for crafting applications.
- **Versatile Positioning:** Can be stored vertically or horizontally to optimize desk space.
- **Non-Skid Rubber Base:** Provides stability during use and protects desktop surfaces from scratches.
- **Compact Design:** Half-strip size fits comfortably in hand for handheld stapling.

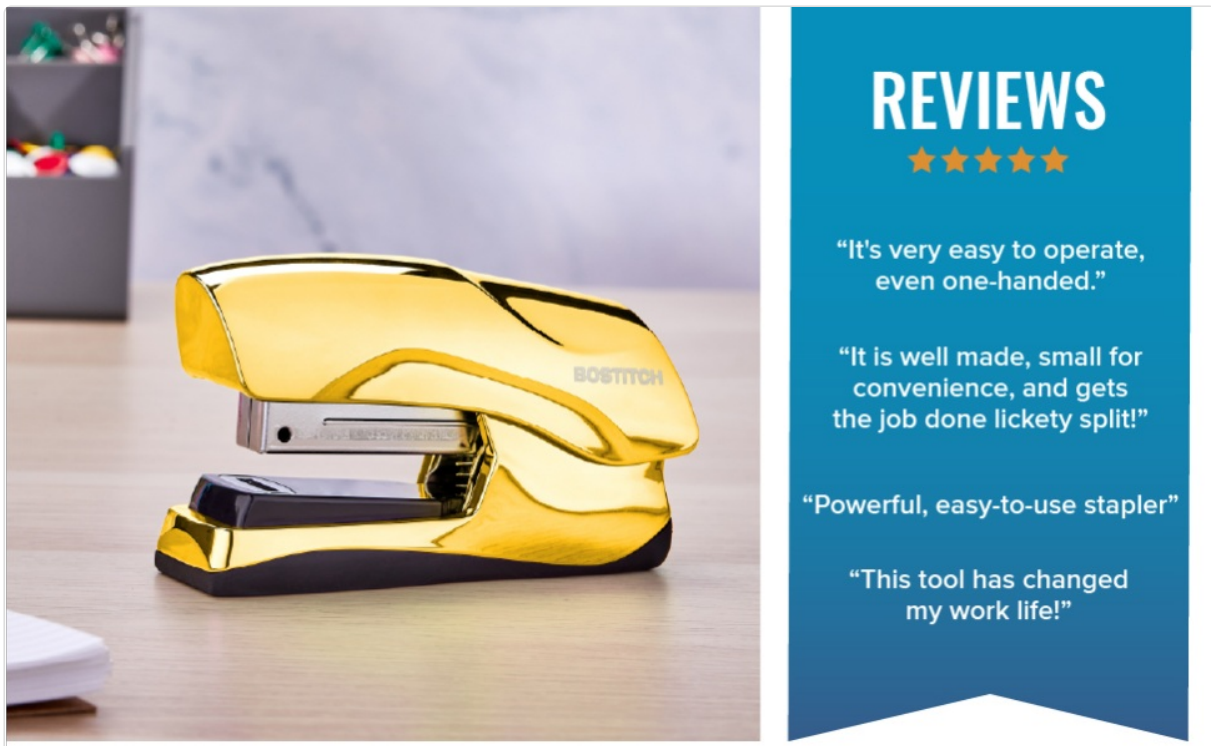

Image 2.1: The stapler's compact size and flat clinch capability are key features for efficient document management.

3. SETUP

3.1 Loading Staples

1. **Open the Stapler:** Gently press the release button or pull the top cover upwards until the staple channel is exposed.
2. **Insert Staples:** Place a strip of standard Bostitch staples (e.g., B8 PowerCrown Premium Staples) into the staple channel. Ensure the staple points are facing downwards.
3. **Close the Stapler:** Push the top cover back down until it clicks securely into place.

Note: Use only standard staples recommended by Bostitch for optimal performance and to prevent jams.

4. OPERATING INSTRUCTIONS

4.1 Standard Stapling

1. Gather the papers to be stapled, ensuring they are aligned neatly.
2. Insert the papers into the stapler's throat, positioning them where the staple is desired.
3. Press down firmly on the stapler's top cover until the staple penetrates the paper and clinches underneath.
4. Release the pressure and remove the stapled documents.

4.2 Tacking (Bulletin Board Use)

1. Open the stapler fully to its 180-degree position.
2. Hold the stapler with the base facing away from the surface you intend to tack to.
3. Position the paper against the surface (e.g., bulletin board) and press the stapler down to drive the staple through the paper and into the surface.

5. MAINTENANCE

To ensure the longevity and optimal performance of your Bostitch stapler, follow these simple maintenance guidelines:

- **Cleaning:** Periodically wipe the exterior of the stapler with a soft, dry cloth to remove dust and debris. Avoid using harsh chemicals or abrasive cleaners.
- **Staple Quality:** Always use high-quality, standard staples. Low-quality or incorrect staple sizes can lead to jams and damage the stapler mechanism.
- **Storage:** Store the stapler in a dry environment, away from extreme temperatures and humidity.

6. TROUBLESHOOTING

6.1 Staple Jams

While your Bostitch stapler features no-jam technology, occasional jams can occur due to incorrect staple loading or using non-standard staples. Follow these steps to clear a jam:

1. **Open the Stapler:** Open the stapler as if loading staples.
2. **Remove Staples:** Carefully remove any remaining staples from the channel.
3. **Inspect Channel:** Look for any bent or misaligned staples within the staple channel. Use a small, blunt object (like a pen cap) to gently dislodge any stuck staples. *Do not use sharp objects that could damage the mechanism.*
4. **Reload:** Once the channel is clear, reload with a fresh strip of recommended Bostitch staples and close the stapler.

6.2 Staples Not Penetrating Paper

- **Check Paper Count:** Ensure you are not attempting to staple more than the maximum 40-sheet capacity.
- **Verify Staples:** Confirm that you are using the correct size and type of staples.
- **Apply Firm Pressure:** Ensure sufficient and even pressure is applied when stapling.

7. SPECIFICATIONS

Bostitch Heavy Duty Stapler B175-GOLD Specifications

Feature	Detail
Brand	Bostitch
Model Number	B175-GOLD
Color	Gold Chrome
Material	Plastic (with metallic finish)
Staple Capacity	40 Sheets
