# EVOC Road Bike Bag Instruction Manual

Model: 100411100

Brand: EVOC

## 1. INTRODUCTION

---

The EVOC Road Bike Bag is a lightweight yet robust travel solution designed for secure transportation of various bicycle types, including road, gravel, triathlon, cross country, all mountain, enduro, and downhill bikes. This manual provides detailed instructions for the proper setup, operation, maintenance, and troubleshooting of your EVOC Bike Bag to ensure optimal protection for your bicycle during transit.

*Image 1.1: The EVOG Road Bike Bag, ready for transport.*

## 2. PRODUCT FEATURES

---

- **Practical and Versatile:** Designed to accommodate a wide range of bike types, including cross country, all mountain, enduro, freeride, downhill, road, gravel, and triathlon bikes, up to 29 inches.
- **Maximum Mobility:** Features an extra-wide chassis, multiple grip options, and smooth-gliding skate wheels for easy maneuverability.
- **Efficient Bag Management:** Includes separate, reinforced compartments for wheels with a stabilizer bar to protect spokes and brake discs.
- **Optimal Protection:** Equipped with a reinforced fork holder, additional padding, and a protective plate on the bottom for vital area protection during transit.
- **Compact Storage:** The bag is foldable for convenient storage when not in use.

## 3. SETUP

---

### 3.1 Preparing Your Bicycle

Before packing your bike, certain components must be removed or adjusted to ensure a secure fit and prevent damage.

1. Remove both bicycle wheels. Place them in their designated side compartments within the bag.

2. Remove the pedals.
3. Loosen and rotate the handlebars 90 degrees to align with the frame, or remove them entirely if necessary. Secure them to the frame using appropriate padding and straps.
4. Remove the seat post if required for clearance.
5. For added protection, consider removing the rear derailleur and taping it to the frame, and adding extra padding (e.g., bubble wrap, pipe insulation) to vulnerable frame parts, brake calipers, and rotors.

### 3.2 Placing the Bicycle in the Bag

Follow these steps to correctly position and secure your bike within the EVOC Bike Bag.

*Image 3.1: Interior of the EVOC Bike Bag, showing securing straps.*

1. Open the main zipper of the bag completely and lay it flat.
2. Place the bicycle frame into the main compartment. Utilize the integrated MOLDED POLYCARBONATE BIKE BLOCK and reinforced fork holder to stabilize the bike.
3. Secure the frame using the internal straps and buckles provided. Ensure the bike is snug and does not shift.
4. Insert the removed wheels into the dedicated side compartments. Ensure the stabilizer bar is correctly positioned to prevent pressure on the wheels.

*Image 3.2: Dedicated wheel compartment with a wheel secured.*

5. Close all zippers securely.

## **4. OPERATING INSTRUCTIONS**

---

### **4.1 Transporting the Bag**

The EVOG Bike Bag is designed for easy transport, whether by hand or using its integrated wheels.

*Image 4.1: The EVOC Bike Bag with skate wheels for easy transport.*

- **Using the Wheels:** Tilt the bag onto its skate wheels and pull it using the integrated handles. The extra-wide chassis provides stability.
- **Carrying:** For lifting or carrying over short distances, use the various reinforced grip handles located around the bag.
- **Air Travel:** When checking the bag for air travel, ensure all straps are tightened and zippers are fully closed. Consider adding a luggage tag with your contact information.

## 5. MAINTENANCE

---

### 5.1 Cleaning

To maintain the longevity and appearance of your EVOC Bike Bag:

- Wipe down the exterior with a damp cloth and mild soap as needed.
- Do not machine wash or tumble dry.
- Allow the bag to air dry completely before storing to prevent mold or mildew.

### 5.2 Storage

When not in use, the EVOC Bike Bag can be folded for compact storage.

Image 5.1: The EVOC Bike Bag folded for compact storage.

- Ensure the bag is clean and dry before folding.
- Follow the internal folding guidelines to collapse the bag into its compact form.
- Store in a cool, dry place away from direct sunlight.

## 6. TROUBLESHOOTING

### 6.1 Common Issues and Solutions

Issue	Possible Cause / Solution
Bike does not fit in the bag.	Ensure all necessary components (wheels, pedals, handlebars, seat post) are removed or adjusted as per Section 3.1. For racing and triathlon bikes, the BIKE STAND PRO accessory may be required.
Concerns about bike protection during transit.	Always use the internal securing straps and fork holder. For extra security, add personal padding (e.g., bubble wrap, pipe insulation) to frame tubes, brake calipers, and derailleurs. Consider removing the rear derailleur and taping it to the frame.
Difficulty maneuvering the bag.	Ensure the bag is properly balanced. Utilize the skate wheels by tilting the bag. Use the various grip handles for lifting or navigating tight spaces.
Wheels or components damaged during transport.	Ensure wheels are placed in their dedicated, reinforced compartments with the stabilizer bar correctly positioned. Add extra padding around brake discs and spokes if desired.

## 7. SPECIFICATIONS

### 7.1 Technical Details

Specification	Detail
Product Dimensions	11.81"L x 11.81"W x 11.81"H (Folded)
Outer Dimensions (Unfolded)	138 x 85 x 37 cm
Inner Dimensions (Unfolded)	130 x 80 x 27 cm
Volume	280 Liters
Item Weight	23.3 pounds (approx. 8.6 kg total)
Max. Wheelbase	126 cm
Material	P 600D
Closure Type	Zipper
Wheel Type	Skate Wheels
Number of Wheels	4
Number of Compartments	3 (Main, 2 Wheel)
Model Number	100411100

## 8. WARRANTY AND SUPPORT

### 8.1 Warranty Information

EVOC products are designed with a focus on uncompromising protection and high quality. While specific warranty details may vary by region and purchase point, EVOC stands behind the craftsmanship and durability of its products. Please retain your proof of purchase for any warranty claims.

### 8.2 Customer Support

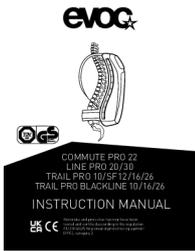

For further assistance, technical support, or warranty inquiries, please contact EVOC customer service through their official website or the retailer from whom you purchased the product. Always refer to your product model number (100411100) when contacting support.
