KEY FEATURES

Your SpyX Wrist Talkies are packed with 8 exciting functions to assist you on your secret missions:

1. **Walkie Talkie:** Two-way radio communication with another Wrist Talkie.
2. **Watch:** Digital time display.
3. **Magnifying Glass:** Integrated into the protective bezel for close-up inspection.
4. **Protective Bezel:** Flips up to protect the watch face and reveals the magnifying glass.
5. **LED Light:** A small light for illumination or sending Morse code.
6. **Morse Code:** Communicate silently using light signals.
7. **Secret Message Capsule:** A hidden compartment for tiny secret messages.
8. **Tiny Mirror:** Located on the protective bezel for discreet observation.

SETUP

Battery Installation:

Your SpyX Wrist Talkies come with batteries pre-installed. If replacement is needed, each unit requires 3 x LR44 batteries (total 6 for the pair). To replace batteries:

1. Locate the battery compartment on the back of the watch.
2. Use a small screwdriver to open the compartment.
3. Insert 3 new LR44 batteries, ensuring correct polarity (+/-).
4. Securely close the battery compartment.

Note: Always use fresh batteries of the same type. Do not mix old and new batteries or different types of batteries.

OPERATION

1. Walkie Talkie Function:

- Ensure both Wrist Talkies are powered on. The power switch is typically located on the side of the unit.
- To transmit, press and hold the "Push To Talk" (PTT) button located on the side of the watch. Speak clearly into the microphone.
- Release the PTT button to listen for a response.
- Optimal communication range is up to 60 meters in open areas. Obstacles like walls and buildings will reduce range.

The advertisement features a dark, futuristic background with a grid pattern. At the top left is the 'spyX' logo, where 'spy' is in white and 'X' is in red with a blue target symbol. To the right, the text 'HANDS-FREE SECRET COMMUNICATION' is written in white, bold, sans-serif capital letters. Below this, two young men are shown from the chest up, wearing the wrist talkies. They are illuminated with red and blue light, giving them a 'spy' appearance. The man on the left is holding his wrist to his ear, while the man on the right is speaking into the microphone. In the bottom right corner, there is a product shot of the 'spyX' wrist talkies in their packaging. The packaging is black and silver, showing the product and the 'spyX' logo. Below the product shot, there is a list of features and a warning.

Requires 2x AA (500mAh) (Not Included)

• Wrist Talkies are disguised as a digital watch
• Talk live or send a Morse Code secret message
• Flip Up Screen Monitor
• Fold Antenna for communication up to 60 Meters away

WARNING:
CHOKING HAZARD - Small parts.
Not for children under 3 years.

Image: Two young agents demonstrating hands-free secret communication using the SpyX Wrist Talkies.

2. Watch Function:

- The digital display shows the current time.
- Use the "SET" and "MODE" buttons (usually small buttons near the display) to adjust the time. Refer to the

specific markings on your watch for exact button functions.

3. Magnifying Glass & Protective Bezel:

- The protective bezel covers the watch face. Flip it up to reveal the magnifying glass.
- Use the magnifying glass for examining small clues or details during your missions.

4. LED Light:

- Press the dedicated LED light button (often on the side or front) to activate the small light.
- This can be used for low-light situations or for sending Morse code.

5. Morse Code:

- Use the included Morse Code Alphabet Sheet to learn how to encode and decode messages.
- Transmit Morse code by pressing the LED light button in short (dots) and long (dashes) intervals.

6. Secret Message Capsule:

- The Wrist Talkie features a small, removable capsule for storing tiny secret messages.
- Carefully detach the capsule, insert your rolled-up message, and re-attach it securely.

Secret Message Capsules

Image: A detailed view showing the secret message capsules, which can be detached from the wrist talkie.

7. Tiny Mirror:

- A small mirror is integrated into the protective bezel.
- Use it for quick, discreet glances around corners or behind you.

MAINTENANCE

Cleaning:

Wipe the Wrist Talkies with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners. Avoid submerging the units in water.

Battery Care:

- Remove batteries if the units will not be used for an extended period to prevent leakage.

- Dispose of used batteries responsibly according to local regulations.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound or weak sound	Low batteries; Out of range; Obstructions; Volume too low.	Replace batteries; Move closer to the other unit; Reduce obstacles; Increase volume.
Watch display not working	Dead batteries.	Replace batteries.
Cannot send/receive Morse code	LED light not working; Incorrect timing.	Check batteries; Practice timing with the Morse Code Alphabet Sheet.
