## BexGears 8 Hole Electric Guitar Pickguard for TL style Guitar Parts

# BexGears 8 Hole Electric Guitar Pickguard (3Ply White) Instruction Manual

For TL Style Electric Guitars

## 1. INTRODUCTION

Thank you for choosing the BexGears 8 Hole Electric Guitar Pickguard. This pickguard is designed to fit TL style electric guitars, offering both protection and a classic aesthetic. This manual provides essential information for proper installation and care of your new pickguard.

## 2. PRODUCT OVERVIEW

### 2.1 Features

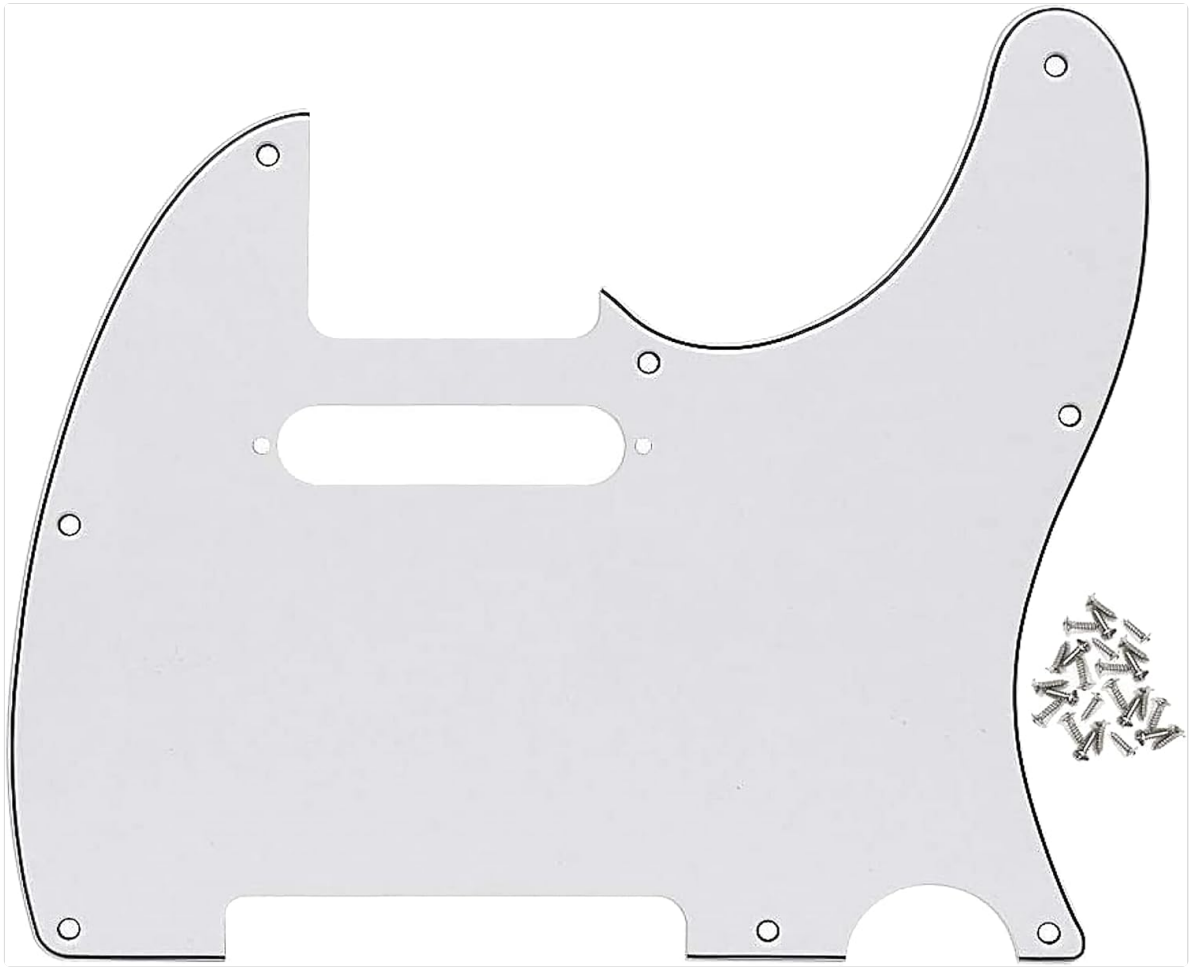

- **Material:** 3-ply construction (white/black/white) made from durable PVC plastic.
- **Screw Holes:** Features 8 screw holes along the perimeter and 2 screw holes for the neck pickup.
- **Protective Film:** Equipped with two thin protective films on the front surface to prevent scratches during shipping and installation.
- **Compatibility:** Designed for TL style electric guitars.

### 2.2 Components Included

- 1 x BexGears 8 Hole Electric Guitar Pickguard (3Ply White)
- Pickguard mounting screws

### 2.3 Product Visuals

Below are images illustrating the pickguard and its construction details.

**Figure 1:** Front view of the BexGears 8 Hole Electric Guitar Pickguard (3Ply White) with included mounting screws.

**Figure 2:** Close-up view of the pickguard's edge, highlighting the 3-ply (white/black/white) construction.

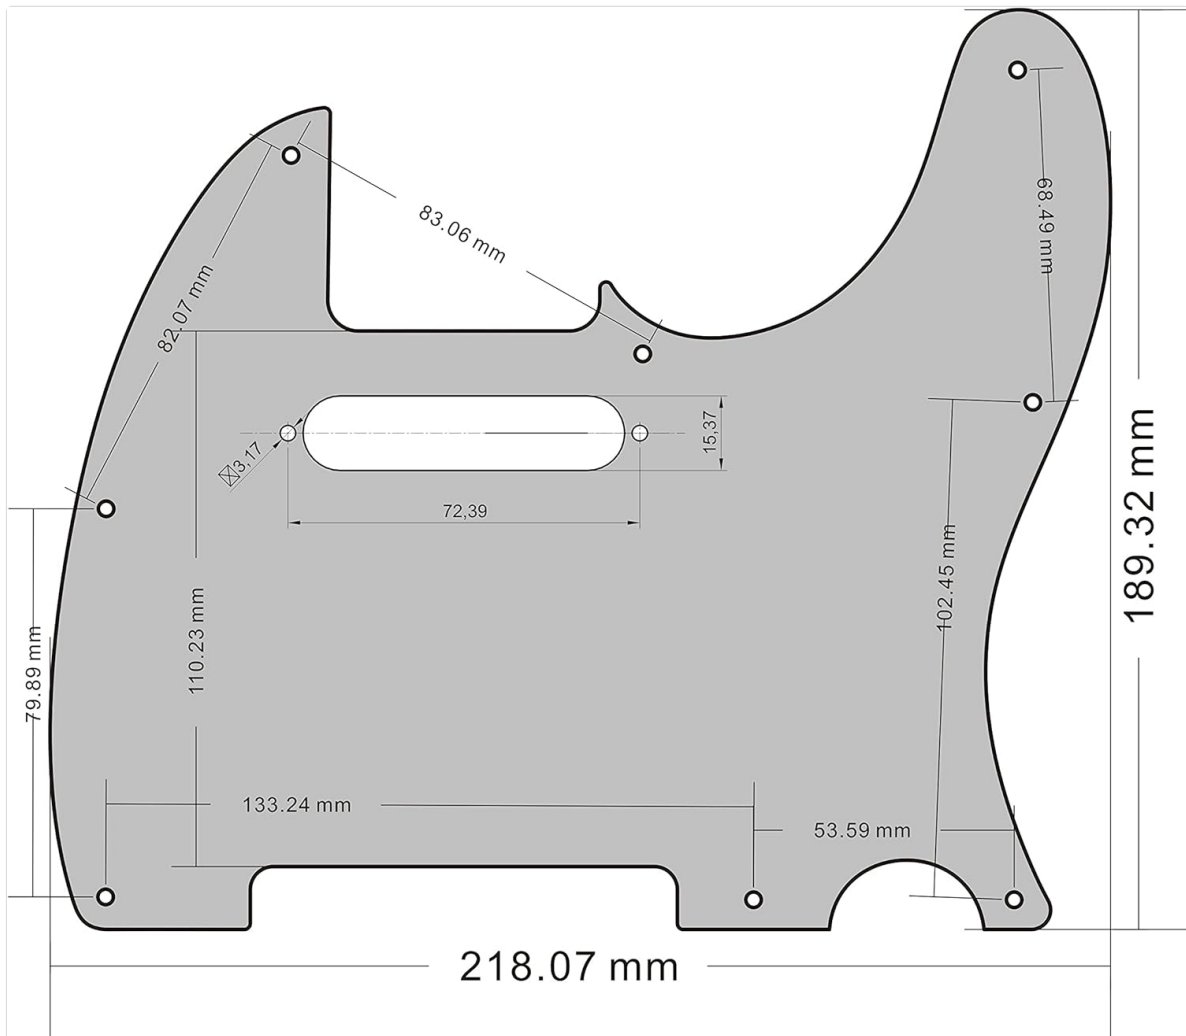

### 3. SETUP AND INSTALLATION

Follow these steps to properly install your BexGears pickguard on your TL style electric guitar.

1. **Prepare Your Guitar:** Ensure your guitar is clean and free of dust or debris in the pickguard area. It is recommended to loosen or remove the strings for easier access.
2. **Remove Old Pickguard (if applicable):** Carefully unscrew and remove the existing pickguard from your guitar. Keep the old screws if you intend to reuse them, though new screws are provided.
3. **Peel Protective Film:** Before installation, carefully peel off the two thin protective films from the front surface of the new pickguard. This reveals the glossy finish and prevents scratches during handling.
4. **Position the New Pickguard:** Align the new BexGears pickguard with the screw holes and the neck pickup cavity on your guitar body. Ensure a proper fit.
5. **Install Screws:** Using the provided screws (or your guitar's original screws if preferred), gently screw the pickguard into place. Start with a few screws to hold it in position, then proceed to install all 8 perimeter screws and the 2 neck pickup screws. Do not overtighten the screws, as this can damage the pickguard or guitar body.
6. **Final Check:** Once all screws are installed, ensure the pickguard is securely fastened and there

are no gaps or misalignments. Re-string your guitar if necessary.

**Note on Compatibility:** While designed for TL style guitars, minor variations in guitar models may exist. In rare cases, slight adjustments might be needed for a perfect fit. Please refer to the dimensional drawing for precise measurements.

**Figure 3:** Dimensional drawing of the pickguard, showing key measurements for fitment.

## 4. MAINTENANCE

To keep your BexGears pickguard looking its best, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, lint-free cloth to wipe down the pickguard. For smudges or fingerprints, a slightly damp cloth with mild soap and water can be used, followed by drying with a clean, dry cloth. Avoid abrasive cleaners or solvents, as these can damage the plastic finish.
- **Protection:** While the pickguard is designed to protect your guitar, avoid unnecessary harsh impacts or scratches to the pickguard itself.
- **Storage:** If removing the pickguard for storage, keep it in a clean, dry place away from extreme temperatures or direct sunlight to prevent warping or discoloration.

## 5. TROUBLESHOOTING

Most issues with a pickguard are related to fitment. Here are some common points to check:

- **Pickguard Does Not Align Perfectly:**

- **Check Model Compatibility:** Ensure your guitar is a standard TL style model. Variations exist, and some guitars may have slightly different screw hole patterns or body contours.
  - **Compare Dimensions:** Refer to the dimensional drawing (Figure 3) and compare it with your guitar's existing pickguard or body measurements.
  - **Minor Adjustments:** For very minor misalignments, careful and gentle re-drilling of screw holes on the guitar body might be necessary. This should only be done by experienced individuals or a professional guitar technician to avoid damage.
- **Scratches on Surface:** Ensure you have removed both layers of the protective film. The pickguard is shipped with two films to ensure its pristine condition upon arrival.

---

## 6. SPECIFICATIONS

Feature	Specification
Product Type	Electric Guitar Pickguard
Brand	BexGears
Model Compatibility	TL Style Electric Guitars
Construction	3-Ply (White/Black/White)
Material	PVC Plastic
Screw Holes	8 perimeter, 2 neck pickup
