VEENAX M3

VEENAX M3 In-Ear Earphones User Manual

Model: M3 | Brand: VEENAX

INTRODUCTION

The VEENAX M3 In-Ear Earphones are designed to provide a high-fidelity audio experience with powerful bass, clear microphone functionality, and comfortable wear. Featuring a durable, tangle-free cable and broad compatibility, these earphones are suitable for various audio and communication needs across multiple devices.

PACKAGE CONTENTS

Please check the package carefully to ensure all items are present:

- VEENAX M3 Wired Earphones
- Earphone Portable Carrying Case
- Silicone Eartips (S/M/L - 3 sets)
- User Manual (6 languages)

Image: Contents of the VEENAX M3 package, including the earphones, carrying case, and multiple sizes of silicone eartips.

SETUP

1. **Select Eartips:** Choose the silicone eartips that provide the most comfortable and secure fit for your ears. A good seal is crucial for optimal sound quality and noise isolation. The package includes Small (S), Medium (M), and Large (L) sizes.
2. **Insert Earphones:** Gently insert the earphones into your ear canals. The ergonomic design with 45-degree angled nozzles is intended for a secure and comfortable fit.
3. **Connect to Device:** Plug the 3.5mm audio jack into the corresponding port on your smartphone, computer, laptop, tablet, MP3 player, or game console. Ensure the jack is fully inserted for proper audio transmission.

SUPER COMFORT

Ergonomic design, fully comfortable
and secure fit

OPERATING INSTRUCTIONS

The VEENAX M3 earphones feature an in-line remote control for easy management of audio and calls.

Image: Close-up of the in-line remote control, showing the volume up/down buttons and the multi-function button.

Remote Control Functions:

Button/Action	Function
Volume +	Increase volume
Volume -	Decrease volume
Multi-function Button (Single Press)	Play/Pause music; Answer/End call
Multi-function Button (Double Press)	Next song
Multi-function Button (Triple Press)	Previous song

Microphone Usage: The integrated MEMS microphone is designed for clear voice capture. For optimal call quality, especially during calls or video conferences, ensure the microphone (located on the front of the in-line remote) is held close to your mouth.

MAINTENANCE

- **Cleaning:** Regularly clean the eartips with a soft, dry cloth. If necessary, use a slightly damp cloth with mild soap and water, then dry thoroughly before reattaching. Do not use harsh chemicals or abrasive materials.
- **Cable Care:** The cable is reinforced with Kevlar fiber for durability and tangle-free use. While robust, avoid excessive pulling, twisting, or sharp bending to prolong its lifespan.
- **Storage:** When not in use, store the earphones in the provided portable carrying case to protect them from dust, dirt, and physical damage.
- **Moisture:** The earphones are water-resistant, but not waterproof. Avoid submerging them in water or exposing them to heavy rain. Dry immediately if they get wet.

TROUBLESHOOTING

Problem	Possible Cause / Solution
No sound or distorted sound	Ensure the 3.5mm jack is fully inserted into the device. Check the volume level on both the earphones (in-line remote) and the connected device. Test with another audio source or device to rule out device-specific issues. Clean the 3.5mm jack and the device's audio port for any debris.
Microphone not working	Ensure the microphone is positioned correctly (close to your mouth). Check microphone settings on your connected device (e.g., input device selection). Test with another application or device to confirm functionality.
Earphones fall out easily	Try different sizes of silicone eartips to find the most secure and comfortable fit. Ensure the earphones are inserted correctly with the 45-degree angle.

SPECIFICATIONS

Feature	Detail
Model	VEENAX M3
Driver Size	10mm
Frequency Response	20Hz-20KHz
Impedance	16 Ohm
Connectivity	Wired, 3.5mm Jack
Microphone	Built-in MEMS, Omnidirectional
Cable Material	Kevlar-reinforced, Tangle-free TPE rubber
Control Type	In-line Volume Control, Multi-function Button
Water Resistance Level	Water-resistant (not waterproof)

Feature	Detail
Weight	50 g (approx.)
