- **Cleaning:** To clean your building blocks, gently wipe them with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the plastic.
- **Storage:** Store the building blocks and assembled models in a cool, dry place away from direct sunlight to prevent discoloration or warping. Keep them in a container to avoid losing small pieces.
- **Disassembly:** If disassembling models, do so carefully to avoid stressing or breaking the connection points.

7. Troubleshooting

- **Missing Pieces:** If you find any pieces missing, first double-check the packaging and surrounding area. If pieces are still missing, please contact Sluban customer support.
- **Difficulty Assembling:** Ensure you are following the instruction booklet carefully. Sometimes, a piece may need to be rotated or pressed firmly into place. Do not force pieces together if they do not fit, as this may cause damage.
- **Models Falling Apart:** Ensure all connections are firmly pressed together. If a model frequently falls apart, check if any pieces are damaged or if the assembly steps were followed correctly.
