5. MAINTENANCE

Proper care will extend the life and appearance of your Merax Daybed.

- **Cleaning:** Wipe the wooden surfaces with a dry cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.

- **Hardware Check:** Periodically check all bolts and screws to ensure they remain tight. Retighten as necessary to maintain stability.
- **Environmental Conditions:** Avoid placing the daybed in direct sunlight or near heat sources, as this can cause the wood to dry out, crack, or fade. Maintain a stable humidity level in the room.

6. TROUBLESHOOTING

This section addresses common issues you might encounter.

6.1 Assembly Difficulties

- **Issue:** Parts do not align or fit together easily.
- **Solution:** Ensure all hardware is loosely fitted before tightening. This allows for minor adjustments. Refer to the detailed assembly instructions provided in the package. If issues persist, verify part orientation.

6.2 Squeaking Noises

- **Issue:** The daybed makes squeaking noises during use.
- **Solution:** Check all bolts and screws and tighten them. Ensure the wooden slats are properly seated and secured. Sometimes, applying a small amount of wax or lubricant to contact points between wood pieces can help.

6.3 Drawers Sticking

- **Issue:** Drawers are difficult to open or close.
- **Solution:** Check for any obstructions in the drawer tracks. Ensure the drawers are assembled correctly and are not overloaded. The wheels on the bottom of the drawers should move freely.
