4. OPERATING INSTRUCTIONS

Using your WLIVE 9-Drawer Dresser is straightforward:

- **Opening Drawers:** Gently pull the handles to slide out the fabric drawers.
- **Closing Drawers:** Push the drawers back into their compartments until they are fully seated.
- **Loading:** Distribute items evenly within the drawers. While the drawers are spacious, avoid overloading them to maintain their shape and functionality. Refer to the capacity guidelines in the 'Key Features' section.

5. MAINTENANCE

To ensure the longevity and appearance of your WLIVE 9-Drawer Dresser, follow these simple maintenance tips:

- **Cleaning:** Wipe the wood top and steel frame with a dry cloth. For the fabric drawers, spot clean with a damp cloth and mild detergent if necessary, then air dry. Avoid harsh chemicals.
- **Drawer Care:** Do not overload the fabric drawers, as this may cause them to sag over time. If a drawer becomes misshapen, empty it and gently reshape it.
- **Stability Check:** Periodically check the adjustable feet and wall anchors (if installed) to ensure they are secure and the dresser remains stable.

6. TROUBLESHOOTING

If you encounter any issues with your dresser, consider the following common solutions:

- **Dresser Wobbles:** Ensure all screws are tightened. Adjust the leveling feet at the bottom of the dresser to compensate for uneven flooring.
- **Drawers Sagging:** This usually indicates overloading. Reduce the weight of items stored in the affected drawers. Ensure the bottom support board inside the fabric drawer is properly inserted.
- **Drawers Not Sliding Smoothly:** Check for any obstructions in the drawer compartments. Ensure the fabric drawers are not overfilled, which can cause them to rub against the frame.
- **Chemical Odor:** New furniture may have a slight odor. Air out the drawers and the room for a few days. Placing odor absorbers or dryer sheets inside the drawers can also help.
