- **Weight Limit:** Do not exceed the maximum weight recommendation of 50 lbs (approximately 22.7 kg).
- **Age Range:** Suitable for newborns (with Newborn Nest Mode or car seat adapters) up to toddlers. Always ensure the child is within the appropriate age and weight range for safe use.

- **Brakes:** Always engage the parking brake when the stroller is stationary, especially when placing or removing your child.
- **Supervision:** Never leave your child unattended in the stroller.
- **Folding/Unfolding:** Keep children clear of the stroller when folding or unfolding to prevent injury.

4.1 Unfolding the Stroller

1. Place the folded stroller on a flat surface.
2. Release the folding latch (if present, typically on the side of the frame).

4.2 Attaching Wheels (if necessary)

Your Metro+ stroller wheels are typically pre-attached. If not, align the wheel axle with the corresponding slot on the stroller frame and push until it clicks securely into place. Pull on the wheel to ensure it is firmly attached.

5. OPERATING THE STROLLER

5.1 Folding the Stroller

1. Ensure the seat is in the upright position and the canopy is retracted.
2. Locate the folding mechanism (refer to Figure 4.1 for visual guidance).
3. Follow the specific steps to collapse the stroller into its compact form. Ensure it locks into the folded position.

5.2 Adjusting the Seat Recline

The Metro+ offers a near-flat recline for your child's comfort, suitable for naps or upright adventure.

- To recline: Locate the recline strap/lever behind the seat. Squeeze the mechanism and gently lower the seat to the desired position.
- To raise: Push the seat back up while pulling the recline strap/lever until it locks into an upright position.

5.3 Adjusting the Leg Rest

The adjustable leg rest provides optimal comfort for growing children.

- To adjust: Press the buttons on either side of the leg rest and move it up or down to the desired angle. Release the buttons to lock.

5.4 Adjusting the Handlebar

The adjustable handlebar accommodates parents of various heights for comfortable pushing.

- To adjust: Locate the adjustment buttons or levers on the sides of the handlebar. Press them and extend or retract the handlebar to your preferred height. Release to lock.

Comfort in all seasons.

* Footmuff sold separately

5.5 Using the 5-Point Harness

Always secure your child using the 5-point harness system.

1. Place your child in the seat.
2. Bring the shoulder straps over your child's shoulders and the waist straps around their hips.
3. Insert the buckle tongues into the buckle housing until they click.
4. Adjust the straps to ensure a snug fit, leaving no more than one finger's width between the strap and your child's collarbone.
5. To release: Press the button on the buckle housing.

5.6 Engaging the Brake

The stroller is equipped with a foot-operated parking brake.

- To engage: Press down firmly on the brake pedal located near the rear wheel until it locks.
- To disengage: Lift the brake pedal upwards until it releases.

6. MAINTENANCE AND CARE

6.1 Cleaning Instructions

- **Fabric:** The stroller's plush padding is machine washable. Refer to the care label for specific washing instructions. For spot cleaning, use a mild detergent and cold water. Air dry thoroughly.
- **Frame:** Wipe the aircraft aluminum tubing frame with a damp cloth and mild soap. Dry thoroughly to prevent rust.
- **Wheels:** Regularly check wheels for debris and clean as needed. The PU rubber tires are never-flat and require minimal maintenance.

6.2 Storage

Store the stroller in a dry place, away from direct sunlight and extreme temperatures, to preserve its materials and functionality. Its compact fold makes it ideal for storage in small spaces or overhead airplane bins.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Stroller won't unfold/fold smoothly.	Folding mechanism jammed or not fully released/engaged.	Ensure all latches are released/engaged. Check for obstructions in the folding mechanism. Apply light lubricant if necessary.
Wheels are squeaky or stiff.	Dirt/debris in wheel axles; lack of lubrication.	Clean wheels and axles. Apply a silicone-based lubricant to moving parts.
Harness buckle is difficult to fasten/unfasten.	Debris in buckle; misaligned buckle tongues.	Clear any debris from the buckle. Ensure buckle tongues are inserted correctly.
Stroller pulls to one side.	Uneven tire pressure (if applicable, though these are never-flat); bent wheel axle; uneven weight distribution.	Check for bent axles or damaged wheels. Ensure weight is evenly distributed. If issues persist, contact customer support.

COMMUNIQUÉ DE PRESSE

Ergobaby lance la Poussette Metro® pour le plus grand confort des petits et des grands

A chaque instant, de nombreux parents et enfants partagent des millions de moments d'amour, de bonheur, mais aussi de doute. Les joies et les difficultés de la parentalité font partie de la vie de famille. Ergobaby a été créée comme mission d'être leur partenaire au quotidien pour renforcer les liens qui les unissent.

Ergobaby lance, le 20 mars 2021, la nouvelle poussette Metro®. Légère, ultra compacte, extrêmement maniable, elle est encore plus confortable et s'adapte parfaitement à la vie quotidienne des parents et des enfants. La Poussette Metro® est reconnue comme l'une des poussettes compactes les plus confortables du marché, tout en restant fidèle aux exigences de qualité qui caractérisent les produits Ergobaby.

Plus besoin d'ajuster un lit naissances, la Poussette Metro® est adaptable à tous les enfants, et ce, dès la naissance. L'installation quasiment plate, le repose-jambes réglable et les rebats dissimulés pour créer un nid douillet pour les nouveau-nés, permettent aux parents de profiter d'un confort optimal avec une poussette compacte dès le premier jour.

Grande nouveauté attendue, la Poussette Metro® est compatible avec les sièges-auto Cybex Nuna, BebeSafe ou Maxi Cosi du Groupe 00+. Il suffit de retirer le siège de la Metro® et d'installer le siège-auto grâce à un adaptateur vendu séparément.

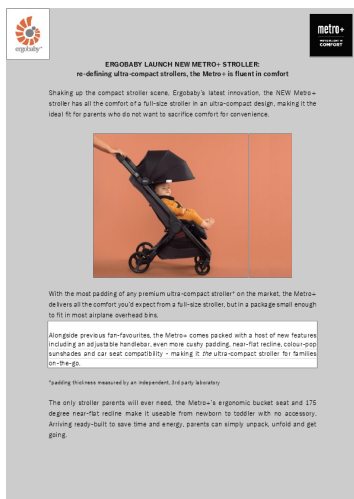

Le guidon en simili cuir vigne est maintenant réglable en hauteur et ajustable de 66 à 105 cm, et s'adapte à tous les parents, quelle que soit leur taille.

« La durabilité est notre priorité » : Ergobaby lance son programme Everlove.

Communiqué de presse

Paris, le 22 juin 2021 - Cette date est à inscrire dans le calendrier du secteur sur l'environnement : c'est le 22 juin 2021, Ergobaby lance son programme Everlove en France. À partir d'aujourd'hui, les parents ont la possibilité de donner une seconde vie à leurs anciens porte-bébé qui ne sont plus utilisés. Une seconde vie simple, drapée et innovante que possible. En effet, les familles recevront tout simplement le porte-bébé à l'ergobaby. C'est non seulement bon pour la planète et la porte-monnaie, mais aussi pour l'environnement. Après la naissance et la mort du bébé, le premier porte-bébé ergonomique fait partie du matériel recyclé, recyclé en la prochaine étape importante en termes de durabilité. Une fois soigneusement nettoyé, inspecté et remis en état, le porte-bébé est remis en vente - toujours prêt à servir la prochaine jeune famille dans sa vie quotidienne, simple, drapée, naturellement qualitative, ouverte aux parents d'un an - nous nous félicitons du porte-bébé en temps ne propose actuellement ce service écoresponsable. Les parents peuvent trouver l'ensemble du programme de vente avec des informations sur le service des porte-bébé à l'ergobaby et la boutique de porte-bébé révisés sur le site web européen d'ergobaby à partir du 22 juin - ergobaby.eu/everlove.

Le processus de la seconde main

"C'est de dire ce que vous n'avez pas de choses." Quel beau complément pour un porte-bébé de seconde main. Un complément qui ne manque pas de donner l'aspect de nouveau parent à l'enfant. Ici, nous n'oublions pas "nouveau" porte-bébé dans la vie de famille. Et c'est vrai - quand le petit passage à l'école est terminé, pour la première fois, le porte-bébé a déjà une longue vie devant lui. Une vie avec les mêmes signes d'attachement, l'attachement, encore une ou deux fois, passées et qui en fait une véritable alternative aux nouveaux produits à proposer un avantage par rapport aux nouveaux produits - en fait que le porte-bébé de l'ergobaby est d'ergobaby, toujours tout nouveau, tout d'une fabrication durable et de haute qualité. Les experts d'ergobaby mettent à profit leur expérience et leur savoir-faire pour veiller à ce qu'il reste aussi résistant, sûr, ergonomique et confortable qu'il l'était au premier jour. Chaque porte-bébé que les parents revendent à l'ergobaby à l'enfant ont d'abord soigneusement contrôlé, nettoyé et inspecté la sécurité et avant d'être remis en vente, avec une garantie d'un an, le porte-bébé offre la meilleure combinaison possible de durabilité, de confort, de sécurité et de prix. Aujourd'hui, de plus en plus de parents ne veulent plus se laisser à l'aise avec le bien-être de leur enfant et cela de l'environnement. L'ergobaby a mis en place le programme d'achat-vente pour nos enfants, leurs parents, leurs amis.

Voici le même porte-bébé à la disposition de plusieurs familles successives - c'est bien la possibilité de faire des produits de qualité durable qui nous permettent de nous promettre après des années d'utilisation en toute sérénité l'achat du porte-bébé à ne l'acheter. Le geste de la vie sur toutes les générations et d'éviter le passage, l'ergobaby a mis en place la possibilité de passer et de rester dans la vie de la planète. Et comme les porte-bébé ne sont pas toujours plus longtemps que leur période de passage, le geste est le prochain grand pas vers une utilisation responsable, durable et respectueuse de l'environnement.
