Mega Construx GVW96

Mega Construx Masters of The Universe Roboto Figure (Model GVW96) Instruction Manual

Introduction

This instruction manual provides essential information for the assembly, operation, and maintenance of your Mega Construx Masters of The Universe Roboto Figure, Model GVW96. Designed for collectors and enthusiasts, this buildable figure allows you to recreate iconic scenes from the Masters of the Universe universe.

The Roboto figure is a highly detailed, super-poseable collectible. Please read these instructions carefully to ensure proper assembly and enjoyment of your product.

Safety Information

- **Recommended Age:** This product is intended for Probuilders aged 8 years and up.
- **Small Parts:** The figure contains small parts which may pose a choking hazard for children under 3 years of age. Keep all components out of reach of young children.
- **Handling:** Handle the figure and its accessories with care to prevent breakage. Avoid excessive force when assembling or posing.
- **Disposal:** Dispose of packaging materials responsibly.

Setup and Assembly

Your Mega Construx Roboto figure comes as a buildable set, consisting of 18 pieces. Follow these steps to assemble your figure:

1. **Unpack Components:** Carefully remove all pieces from the packaging. Verify that all 18 pieces, including the figure parts, weapon accessories, and display base, are present.
2. **Assemble Main Body:** Connect the torso, head, arms, and legs according to the visual guide. Ensure all joints click securely into place.
3. **Attach Accessories:** Select your desired weapon or hand accessory. Gently push the accessory into the designated port on the figure's arm. The figure includes interchangeable weapon accessories such as a blaster, a claw, and a wrench.

4. **Position on Display Base:** Place the assembled Roboto figure onto the provided display base. The base features a nameplate for presentation.

Operating the Figure

The Roboto figure is designed for posing and display. Its super-poseable joints allow for a wide range of motion.

- **Posing:** Gently manipulate the figure's joints (shoulders, elbows, hips, knees, head) to achieve desired poses. Avoid forcing joints beyond their natural range of motion to prevent damage.
- **Accessory Swapping:** To change accessories, gently pull the current accessory from the arm port and insert a new one. Ensure a snug fit without excessive force.

Maintenance

Proper care will ensure the longevity of your Roboto figure.

- **Cleaning:** To clean the figure, gently wipe it with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Do not use harsh chemicals, abrasive cleaners, or excessive water.
- **Storage:** Store the figure in a cool, dry place away from direct sunlight and extreme temperatures. Prolonged exposure to sunlight can cause discoloration.
- **Dusting:** Regularly dust the figure to prevent accumulation, which can be difficult to remove later.

Troubleshooting

- **Loose Joints:** If a joint becomes loose over time, it may be possible to tighten it by carefully applying a small amount of clear nail polish or a specialized joint-tightening fluid to the joint, allowing it to dry completely before

posing.

- **Difficulty Attaching Parts:** Ensure that parts are correctly aligned before attempting to connect them. Do not force parts together, as this can cause breakage. Refer to the visual guides for correct orientation.
- **Missing Pieces:** If you believe a piece is missing upon unboxing, carefully check all packaging materials. If a piece is genuinely missing, contact Mega Construx customer support.

Specifications

Brand	Mega Construx
Model Number	GVW96
