Kaito 15W Magnetic Wireless Charger

Kaito 15W Magnetic Wireless Charger User Manual

Model: 15W Magnetic Wireless Charger (B095RK5SPW)

Brand: Kaito

1. INTRODUCTION

Thank you for choosing the Kaito 15W Magnetic Wireless Charger. This device is designed to provide fast, efficient, and secure wireless charging for your compatible iPhone 12 series devices, as well as other Qi-enabled smartphones. Its strong magnetic alignment ensures optimal charging performance, while its compact design makes it ideal for everyday use and travel. Please read this manual carefully before using the product to ensure proper operation and longevity.

2. WHAT'S IN THE BOX

- 1 x Kaito 15W Magnetic Wireless Charger with Built-in 3-Foot USB-C Cable
- 1 x USB-C to USB-A Adapter

Image: The Kaito 15W Magnetic Wireless Charger with its integrated USB-C cable and the included USB-C to USB-A adapter.

3. SETUP GUIDE

To begin using your Kaito Magnetic Wireless Charger, follow these simple steps:

1. **Connect the Charger:** The charger comes with a built-in 3-foot USB-C cable. Connect the USB-C end of the cable to a compatible power source.
2. **Choose Your Power Source:**
 - If your power adapter has a USB-C port, plug the charger's USB-C cable directly into it.
 - If your power adapter has a standard USB-A port, use the included USB-C to USB-A adapter. Attach the USB-C end of the charger's cable to the adapter, then plug the adapter into your USB-A power source.

Note: A USB-C wall charger is NOT included. For optimal 15W fast charging, a power adapter supporting Power Delivery (PD) or Quick Charge (QC) with sufficient wattage (e.g., 20W or higher) is recommended.

3. **Placement:** Place the magnetic wireless charger on a flat, stable surface, or hold it in your hand for direct attachment to your device.

4. OPERATING INSTRUCTIONS

Using the Kaito Magnetic Wireless Charger is straightforward:

1. **Align Your Device:** For iPhone 12 series models, simply bring the back of your iPhone close to the charging pad. The strong built-in magnets will automatically snap and firmly hold your device in perfect alignment, ensuring an efficient charge.
2. **Start Charging:** Once aligned, your device should immediately begin charging. A charging indicator (usually on your phone's screen) will confirm the connection.
3. **Compatibility:** This charger is compatible with iPhone 12 Pro, iPhone 12 Pro Max, iPhone 12 mini, iPhone 12, iPhone 11 Pro, iPhone 11 Pro Max, iPhone 11, iPhone SE, iPhone XS, iPhone XS Max, iPhone XR, iPhone X, iPhone 8, and iPhone 8 Plus. It also supports Qi wireless charging for Android-based smartphones and AirPods/AirPods Pro.
4. **Charging with Cases:** The charger is designed to work effectively even with most phone cases, ensuring sensitive reaction and active adsorption without affecting charging performance.

5. MAINTENANCE

To ensure the longevity and optimal performance of your Kaito Magnetic Wireless Charger, please follow these maintenance guidelines:

- **Cleaning:** Disconnect the charger from the power source before cleaning. Use a soft, dry, lint-free cloth to wipe the surface of the charging pad. Do not use abrasive cleaners, solvents, or aerosol sprays.
- **Storage:** When not in use, store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the charger or subjecting it to strong impacts, as this may damage internal components. Do not bend or pull the cable excessively.

6. TROUBLESHOOTING

If you encounter issues with your Kaito Magnetic Wireless Charger, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging or charging slowly.	• Improper alignment. • Incompatible or low-power adapter. • Thick phone case. • Foreign object between charger and device. • Overheating.	• Ensure the device is perfectly centered on the charging pad. For iPhone 12 series, ensure magnetic snap. • Use a PD or QC compatible power adapter (20W or higher recommended). • Remove thick or metallic phone cases. • Remove any foreign objects (e.g., keys, cards) from the charging area. • Allow the charger and device to cool down if they feel warm.
Magnetic connection is weak.	• Non-iPhone 12 series device. • Magnetic case not used (for non-iPhone 12).	• The strong magnetic snap is primarily for iPhone 12 series. Other Qi devices will charge without magnetic lock. • Consider a MagSafe-compatible case for non-iPhone 12 devices to enhance magnetic attachment.
Charger feels warm during use.	Normal operation, especially during fast charging.	This is normal. If it becomes excessively hot, disconnect immediately and contact support. The charger has built-in over-temperature protection.

The Kaito Magnetic Wireless Charger incorporates multiple safety protections, including:

- Overcurrent protection

- Overvoltage protection
- Over-temperature protection
- Short circuit protection
- Power protection
- Undervoltage protection
- Overcharge protection
- Foreign body detection
- Electromagnetic field protection

7. SPECIFICATIONS

Feature	Detail
Brand	Kaito
Model	15W Magnetic Wireless Charger (B095RK5SPW)
Connectivity Technology	Wireless
Connector Type	USB Type C
Input Voltage	5 Volts (DC)
Special Features	Lightweight Design, Magnetic, Wireless Charging
Included Components	1 USB cable, 1 USB-C to USB-A adapter
Item Weight	1.62 ounces
Package Dimensions	3.35 x 3.31 x 0.51 inches
Mounting Type	Tabletop Mount
Total USB Ports	1

8. WARRANTY AND SUPPORT

For information regarding warranty coverage and customer support, please refer to the documentation included with your product packaging or visit the official Kaito website. If you have any questions or require assistance, please contact the seller or manufacturer directly.
